A. Description of Plan

The following description of RP Automotive II Retirement Savings Plan (the Plan) provides only general information. The Plan was established September 1, 2008. The following descriptions reflect the provisions of the restatement. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General.

The Plan is a defined contribution plan covering all employees of the company who have three months of service and have attained the age of eighteen. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions.

The company exercises a negative deferral election where it automatically withholds 3% of an employee's compensation for purposes of being contributed into the Plan as a salary deferral, unless an election for an alternative deferral amount or an election not to participate in the Plan is made. Currently, participants may contribute up to 75% of pretax annual compensation. Total contributions per participant for the years ended December 31, 2010 and 2009 may not exceed $16,500; however, participants who are at least 50 years of age by December 31, 2010 may contribute catch-up contributions up to an additional $5,500. The company may provide a discretionary profit sharing contribution determined on an annual basis. The company may also provide a matching contribution based on employee salary deferrals. For the plan year ended December 31, 2010, no matching or profit sharing contributions were made. All contributions under the Plan are to be invested in shares of investment companies for which Wells Fargo Bank, N.A., formerly Wachovia Bank, N.A., acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balance among available investments. As of December 31, 2010, all funds held for investment in the Plan were self directed by the participants.

Participant Accounts.

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participant's nonvested accounts are first used to defray the reasonable expenses of administrating the plan. Any remaining amounts will be used to reduce the company's matching contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the company's profit sharing contribution, if any, plus actual earnings thereon is based on years of continuous service. A participant becomes 100% vested after three years of service.

A. Description of Plan (Continued)

Notes Receivable from Participants.

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, based upon approval by the plan administrator. All loans must have a definite repayment period and be amortized on a level basis over a reasonable period of time, not to exceed five years. However, if the loan is used to acquire a primary residence, the repayment period can exceed five years. The loans are secured by the participant's vested account balance. All loans must bear a reasonable rate of interest, one a bank or other professional lender would charge for making a loan in a similar circumstance. The current loan interest rates range from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions on not less than a quarterly basis.

Payment of Benefits.

All distributions from the plan are made as a lump-sum amount equal to the value of the participant's vested interest in his or her account balance.

Plan Administrator Fees.

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. Investment income is reported net of these administrative expenses by fund. For the plan year ended December 31, 2010, administrative fees totaled $22,464.

Forfeited Accounts.

These accounts remain available to first pay administrative expenses then to reduce employer contributions. Forfeitures available to reduce the Plan's administrative expenses totaled $40,819 at December 31, 2010.

B. Summary of Accounting Policies

Date of Management's Review.

For the year ended December 31, 2010, the Plan has evaluated subsequent events for potential recognition and disclosure through September 29, 2011, the date on which the financials statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

B. Summary of Accounting Policies (Concluded)

Basis of Accounting.

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition.

The Plan's investments, except notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Wells Fargo Bank, N.A., based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Notes receivable from participants are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade-date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits.

Benefits are recorded when the participant has submitted a request for distribution and the request is approved by the plan administrator.

Estimates.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets:

	2010		2009	
	shares	value	shares	value
Stable Investment Fund	n/a	n/a	30655.9648	$1,107,776
Stable Return Fund	19858.2740	$ 949,763	n/a	n/a
Ashton/Optimum Mid Cap Fund	2858.2020	$ 91,291	n/a	n/a
Notes receivable from participants	n/a	$ 76,889	n/a	$ 98,428

During the plan year, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $50,979 as follows:

Mutual funds	$ 46,225
Interest on notes receivable	2,861
Dividends	2,101
Transfer of assets, net	(208)
	$ 50,979

D. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

D. Fair Value Measurements (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Notes receivable from participants: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

	Assets at Fair Value as of December 31, 2010			
	Level 1	**Level 2**	**Level 3**	**Total**

E. Information Prepared and Certified by the Trustee (Unaudited)

At December 31, 2010 and 2009, the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2010 and 2009, as reported by the Trustee is summarized as follows:

	2010	2009
Investments at fair value	$ 1,231,997	$ 1,261,779
Dividends	$ 2,101	
Investment gains	$ 46,225	
Transfer of assets, net	$ (208)	

F. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

G. Tax Status

The Internal Revenue Service has determined and informed Wells Fargo Bank, N.A. by a letter dated May 14, 2004 that the prototype Plan and related trust are qualified under applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A., formerly Wachovia Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amount to $22,464 for the year ended December 31, 2010.

J. Excess Contributions

There were no excess deferral contributions for the year ended December 31, 2010.

K. Late Participant Contributions

Late remittance of participant contributions, including loan payments, totaled $124,391 for the year ended December 31, 2010. Lost earnings were calculated to be $232 and have been remitted to the affected participants. All associated required forms have been filed and related excise taxes have been paid.

L. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets per Form 5500 to the financial statements at December 31, 2010 and 2009.

	2010	2009
