NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Retirement for Gayston Corporation Represented by AFL-CIO Industrial Plant Division of Local 141 (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Gayston Corporation (the Company and Plan sponsor) who are members of a collective bargaining unit. The plan excludes highly compensated employees, employees who are paid on a salary basis, and leased employees. Employees who have completed six months of service are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a percentage of their compensation, up to the maximum dollar amount permitted by the Internal Revenue Code. Employees are not permitted to contribute amounts representing distributions from other qualified plans (rollover contributions). The Company makes a matching contribution equal to 50% of the first 1.5% of a participant's compensation, as defined by the Plan. To be eligible for the matching contribution, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year (unless unemployed due to death, disability, or retirement). Matching contributions are allocated on the last day of the Plan year.

Participant Accounts

Each participant's account is credited with his or her contribution, the Company's matching contribution, and actual earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon is based on years of service. A participant is 20% vested after one year of service, and vests an additional 20% per year, until they are 100% vested after five years of credited service.

Payment of Benefits

Participants become eligible for benefit payments upon death, disability, retirement or termination. Participants may elect to receive lump-sum cash distributions or direct rollover distributions. Vested balances of $5,000 or less will automatically be paid in a lump sum payment. Certain in-service withdrawals and hardship distributions are also permitted, as defined by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Forfeited Accounts

There were no forfeited, non-vested accounts at December 31, 2010 and 2009. Forfeiture amounts are used to reduce future administrative expenses of the plan, and then to reduce Company contributions. There were no forfeitures used to reduce administrative expenses or allocated to participant accounts during 2010.

Contributions

Participant contributions are recognized when withheld. Company discretionary contributions are recognized on an annual basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

A significant portion of the Plan's administrative expenses are paid by the Company.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's investments are held in either pooled separate accounts or in insurance company general accounts. Investments in pooled separate accounts are stated at fair value as determined by the unit value reported to the Plan by the Plan's trustee, which represents the fair value of the units held by the Plan. The investment in the insurance company general account is stated at contract value (see Note 5).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting guidance, the Statements of Net Assets Available for Benefits present the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

Subsequent events have been evaluated through October 10, 2011, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2010 and for the year then ended was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4, 5, 10 and supplemental schedule related to the Plan's investments.

ING Life Insurance and Annuity Company also certified to the completeness and accuracy of $23,992 of net appreciation in fair value of investments and $2,346 of interest and dividends related to investments for the year ended December 31, 2010.

NOTE 4 - INVESTMENTS

During the year ended December 31, 2010, the Plan's pooled separate accounts (including pooled separate accounts bought, sold and held during the year) appreciated in value by $23,992.

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2010	*2009 (Compiled)*
Value of interest in pooled separate accounts:		
ING Small Company Portfolio	$ 41,641	$ 28,305
ING Fidelity VIP Contrafund Portfolio	16,988	14,520
ING PIMCO Total Return Portfolio	32,238	29,287
American Funds EuroPacific Growth Fund	31,637	25,451
Davis New York Venture Fund	53,533	41,245
Value of funds held in insurance company general accounts:		
ING Fixed Account	85,741	75,564

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit responsive investment contract with ING Life Insurance and Annuity Company (ING). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rates are based on an agreed-upon formula with the issuer, and are guaranteed for an agreed upon period, usually one year. The average yield and crediting interest rate on the ING Fixed Account was 3% for 2010 and 2009.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

The contract is included in the financial statements at contract value, which is the appropriate determination of fair value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer (ING). Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - INCOME TAX STATUS

The Plan has adopted a standardized form of a prototype plan sponsored by Datair Employee Benefit Systems, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2007.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are pooled separate accounts and funds held in insurance company general accounts which are managed by ING Life Insurance and Annuity Company (ING). ING is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan for trustee services amounted to $984 for the year ended December 31, 2010.

NOTE 10 - FAIR VALUE MEASUREMENTS

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts - Valued at the unit value as reported to the Plan by the trustee, which represents the fair value of the units held by the Plan.

Funds held in insurance company general account – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 10 - FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE 12 - RECENT ACCOUNTING PRONOUNCEMENT

Fair Value Measurements and Disclosures

In 2010, the Financial Accounting Standards Board ("FASB") issued authoritative guidance expanding disclosures related to fair value measurements including (i) the amounts of significant transfers of assets or liabilities between Levels 1 and 2 of the fair value hierarchy and the reasons for the transfers, (ii) the reasons for transfers of assets or liabilities in or out of Level 3 of the fair value hierarchy, with significant transfers disclosed separately, (iii) the policy for determining when transfers between levels of the fair value hierarchy are recognized and (iv) for recurring fair value measurements of assets and liabilities in Level 3 of the fair value hierarchy, a gross presentation of information about purchases, sales, issuances and settlements. The new guidance further clarifies that (i) fair value measurement disclosures should be provided for each class of assets and liabilities (rather than major category), which would generally be a subset of assets or liabilities within a line item in the statement of financial position and (ii) disclosures should be provided about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for each class of assets and liabilities included in Levels 2 and 3 of the fair value hierarchy. The disclosures related to the gross presentation of purchases, sales, issuances and settlements of assets and liabilities included in Level 3 of the fair value hierarchy will be required beginning January 1, 2011. The remaining disclosure requirements and clarifications made by the new guidance became effective on January 1, 2010. The adoption of this accounting standard had no impact on the Plan's statement of net assets available for benefits or statement of changes in net assets available for benefits as it only amends required disclosures.
