Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Administrator of the
Masco Corporation Master Pension Plan:

We were engaged to audit the financial statements of the Masco Corporation Master Pension Plan (the "Plan") at December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As explained in Note A, the Plan was frozen effective January 1, 2010.

Plan Name	Masco Corporation Master Pension Plan
Valuation Date	January 1, 2010
Enrolled Actuary	Robert W.E. Newton
Enrollment Number	11-04032

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB Line 22 Description of Weighted Average Retirement Age as of January 1, 2010

See Appendix A for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Plan Name: Masco Corporation Master Pension Plan
EIN / PN: 38-1794485 / 036
Plan Sponsor: Masco Corporation
Valuation Date: January 1, 2010

SCHEDULE SB ATTACHMENTS

Schedule SB Line 24 Changes in Actuarial Assumptions as of January 1, 2010

- The rates of retirement for active participants were changed. The assumed retirement age for terminated vested participants changed from 65 to 62.
- The amount included this year for plan-related expense increased from \$550,000 to \$700,000.
- The mortality was updated as prescribed.

Plan Name: Masco Corporation Master Pension Plan

Valuation Date: January 1, 2010

SCHEDULE SB ATTACHMENTS

Schedule SB Line 25 Changes in Method as of January 1, 2010

- The method used to select the discount rate was changed from the full yield curve as of the October prior to the valuation date to the three-segment rate for the month containing the valuation date (January). The change is being made as elected by the plan sponsor and is deemed automatically approved by the IRS.
- In accordance with 1.430(d)-1(g)(3)(ii)(A), automatic approval has been granted for the first plan year for which all the provisions of 1.430(d)-1, 1.430(f)-1, 1.430(g)-1, 1.430(i)-1, and 1.436-1 are reflected of any changes to funding methods permitted by the Pension Protection Act. 2010 is the first plan year for which all of these provisions were reflected, and thus all funding method changes are automatically approved.

Administrative Expenses

The amount included this year for administrative expenses is \$700,000. Expenses include PBGC flat and variable rate premiums.

Mortality

For all participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Percentage retiring during the year
55	3.25
56	3.25
57	3.25

Marriage

80% of males and 70% of females are married. The male spouse is assumed 3 years older than the female spouse.

Employees

It was assumed there will be no new or rehired employees.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.69%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.69%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.38%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Alternative Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

The annual benefit based on the above schedule is payable at age 65, or immediately if termination of employment is due to death or disability.

Early Retirement Benefit

Eligibility: Age 55 and 5 years of Vesting Service.

Benefit: On retirement prior to age 65, the accrued benefit is reduced 5/9ths of 1% for each of the first 60 months, and by 5/18ths of 1% for each additional month that commencement precedes age 65.

Disability Benefit

Eligibility: If totally and permanently disabled after 10 years of Vesting Service.

Benefit: The accrued benefit is payable immediately without reduction for early commencement.

Plan Name: Masco Corporation Master Pension Plan
 EIN / PN: 38-1794485 / 036
 Plan Sponsor: Masco Corporation
 Valuation Date: January 1, 2010

Vested Benefits Upon Termination of Service

Vesting: Participants are 100% vested upon completion of 5 years of Vesting Service.

Termination Benefit: The accrued benefit is payable at age 65; or reduced at age 55 as per Early Retirement.

Surviving Spouse Benefits

Eligibility: All Participants eligible for a Vested Retirement Benefit (whether or not actively employed) who are married at date of death, automatically receive coverage under this Option.

Benefit: In the event of a Vested Participant's death prior to benefit commencement, a 50% Survivor Annuity will be paid to the Participant's spouse. Benefits to the Spouse are payable on the first day of the month following the Participant's death, or if later, the first day of the month following the Participant's 55th birthday. Benefit payable is the Participant's accrued benefit at date of death, reduced actuarially for survivor annuity and reduced for early commencement (if applicable) by the Early Retirement reduction formula described above. Cost of this protection is fully subsidized by the Company.

Optional Forms of Retirement Income in Lieu of Normal Form

Single life annuity. Life annuity with 120 monthly payments guaranteed. 50%, 75% or 100% Joint & Survivor benefit. Lump sum payment for values under \$1,000.

Actuarial Equivalence

Conversion of annuity forms: 6% interest, UP-1984 mortality. Lump sum: the greater of the PBGC rates using the UP-1984 mortality table with interest rates in effect on the January 1st of the year in which the lump sum will be paid, or the required basis under PPA and the November 1 interest rate structure in effect prior to the calendar year the lump sum is paid.

Changes in Plan Provisions since Last Actuarial Valuation

- The pension plan was frozen effective January 1, 2010. No participants will be able to enter the plan after that date.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Masco Corporation ("Company") Master Pension Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at various divisions and subsidiaries of the Company. Eligible employees participate in the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

2. *Pension Benefits.* Generally, employees with five or more years of credited service or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, this benefit is equal to the participant's years of credited service multiplied by the benefit level at termination for the various participating locations. The Plan permits early retirement after completion of 5 years of service and attainment of age 55. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity. If employees terminate before becoming vested, they forfeit their right to receive their accumulated plan benefits.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is paid to the employee's spouse. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Active employees with ten or more years of service who become totally and permanently disabled and eligible for disability retirement benefits shall receive annual disability benefits that are equal to their normal retirement benefit accumulated as of the date they become disabled. Disability retirement benefits are subject to offsets as described in the Plan agreement.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code. The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2010 and 2009 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Effective January 1, 2010, all future benefit accruals under the Plan were frozen. There will be no increases in benefits under the Plan and no new participants will be added to the Plan from and after January 1, 2010.

**MASCO CORPORATION
MASTER PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

A. Description of Plan, concluded:

Effective September 17, 2009, Masco Builder Cabinet Group - Rapid City, SD location was sold. Accrued benefits were calculated as of the participants' date of termination pursuant to the terms of the Plan.

During 2009 and 2008, the Company determined that the Plan had a partial plan termination due to the number of participants removed from the Plan as a result of Company headcount reductions. As a result, participants' accrued benefits were calculated pursuant to Plan provisions. In accordance with regulations, accrued benefits for non-vested termination participants were forfeited.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets ultimately consist of common and preferred stocks, limited partnerships, debt securities and short-term and other investment securities. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The Plan invests in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

**MASCO CORPORATION
MASTER PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

B. Accounting Policies, continued:

Plan contributions and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition

Investments represent the Plan's pro rata interest in the fair value of the net assets of the Masco Corporation Retirement Master Trust ("Master Trust"), as determined by The Northern Trust Company ("Trustee"), using closing quoted market prices with the exception of the limited partnership investments, which are based on estimated fair value and the Common Collective Trust Fund, which is based on amortized cost, as of December 31, 2010 and 2009.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the investment income from its interest in the Master Trust. The investment income is comprised of the net appreciation in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized appreciation of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Other

Certain administrative expenses incurred by the Plan are paid by the Company.

Subsequent Event

The Company has evaluated subsequent events through October 5, 2011, the date the Masco Corporation Master Pension Plan financial statements were available to be issued.

New Accounting Pronouncements

In May 2011, the FASB issued *Accounting Standards Update 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")*. This update is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The update is effective for annual periods beginning after December 15, 2011. Plan management is in the process of evaluating the impact of the adoption of this update on the Plan's financial statements and does not anticipate any significant impact to the Plan.

C. Investments:

The Plan's investments at December 31, 2010 and 2009 include its 24.7 and 24.2 percent participation in the Master Trust, respectively.

The following table presents the fair value of certain of the Master Trust's assets at December 31, 2010 and 2009 (in addition, see Securities Lending for assets held as collateral). Investments that represent five percent or more of the Master Trust are separately identified.

With respect to the Master Trust's investments in private equity funds, the Master Trust had, at December 31, 2010 and 2009, commitments to contribute up to \$16 million and \$21 million, respectively of additional capital to such funds representing the Master Trust's aggregate capital commitment to such funds less capital contributions made to date. The Master Trust is contractually obligated to make additional capital contributions to certain of its private equity funds upon receipt of a capital call from the private equity fund. The Master Trust has no control over when or if the capital calls will occur. Capital calls are funded in cash and generally result in an increase in the carrying value of the Master Trust's investment in the private equity fund when paid.

Securities Lending:

During 2006, Masco Corporation entered into an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest bearing accounts with The Northern Trust Company, valued based on the active market on which the securities are traded, or based on the active market for similar securities (Level 2). The total collateral for the securities loaned as of December 31, 2010 and 2009 was \$91,942,304 and \$161,329,451, respectively, of which \$520,024 and \$741 was non-cash for the years ended December 31, 2010 and 2009, respectively. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are fully collateralized at all times. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

The fair value of securities loaned by the Master Trust as of December 31, 2010 and 2009 was \$89,743,155 and \$156,477,173, respectively, as shown below by type of securities:

	<u>2010</u>	<u>2009</u>
Common stocks	\$ 84,978,037	\$150,647,210
Corporate debt securities	\$ 4,362,359	\$ 5,262,115
U.S. Government debt securities	\$ 402,759	\$ 567,848

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities during 2010 and 2009 was \$252,953 and \$475,050, respectively, net of bank fees of \$108,318 and \$156,420 for the years ended December 31, 2010 and 2009, respectively.

NOTES TO FINANCIAL STATEMENTS, Continued

C. Investments, concluded:

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowed securities will not be fully collateralized upon a sudden material change in the fair value of the loaned securities or the collateral. In 2010, based on improving market conditions, the Master Trust did not incur any liability related to the securities lending activities. In 2009, due to a decline in the fair value of the collateral, the Master Trust incurred a liability to the borrowers in the amount of \$437,436, classified in short-term and other investments in preceding tables. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which the Northern Trust Company, the Trustee, has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

Since Northern Trust has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables Northern Trust to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to Northern Trust or to a plan to which Equilend is a party-in-interest.

D. Fair Value Measurements:

On January 1, 2008, the Plan adopted accounting guidance regarding fair value for its financial assets and liabilities. Accounting guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Accounting guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Accounting guidance further defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

NOTES TO FINANCIAL STATEMENTS, Continued

D. Fair Value Measurements, continued:

Common and Preferred Stocks, Debt Securities, Government Securities and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities.

Private Equity Funds: Valued based on an estimated fair value. There is no active trading market for these investments and they are for the most part illiquid. Due to the significant unobservable inputs, the fair value measurements used to evaluate impairment are a Level 3 input.

Common Collective Trust Fund: Valued based on a unit value basis, which approximates fair value as of December 31, 2010 and 2009, respectively. Such basis is determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with this fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS, Continued

E. Income Tax Status:

The Internal Revenue Service determined and informed the Company by letter, dated September 9, 2002, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. The Company has applied for a new determination letter and currently awaits approval. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. Related Parties:

Certain plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions.

G. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited years of service. The accumulated benefits for active employees are based on their accumulated credited years of service ending on the date as of which the benefit information is presented. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

**MASCO CORPORATION
MASTER PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Concluded

G. Actuarial Present Value of Accumulated Plan Benefits, concluded:

The significant actuarial assumptions used in the valuation as of January 1, 2010 were (a) life expectancy of participants (the prescribed mortality assumption using the prescribed mortality assumptions under the Internal Revenue Code static tables for annuitants and non-annuitants was used), (b) retirement age assumption (the average retirement age was 63.5), (c) investment return (the assumed rate of return of 8.0 percent) and (d) withdrawal assumptions. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

H. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. To the extent unfunded vested benefits exist, such benefits will be paid by the Pension Benefit Guaranty Corporation, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

I. Summary of Financial Data Provided by the Trustee:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent auditors.

- a. Total investments, excluding private equity funds, as shown on the accompanying statements of net assets available for benefits of \$88,802,652 and \$83,210,839 as of December 31, 2010 and December 31, 2009, respectively.
- b. Total investment income, excluding private equity funds, as shown in the accompanying statements of changes in net assets available for benefits of \$9,294,042 and \$14,291,877 for the years ended December 31, 2010 and December 31, 2009, respectively.
- c. Total Master Trust assets, interest, dividend and net appreciation, excluding private equity funds, as shown in the accompanying footnote C.
