1. Description of the Plan

The following description of the Austin Bank, Texas, N.A. Employees' Profit Sharing Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of the participating companies as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting and Participation

Employees become eligible for participation after completing one year of service, as defined by the Plan.

All participant contributions are fully vested and non-forfeitable. Employer contributions vest to participants immediately based upon safe harbor provisions adopted effective January 1, 2008, as more fully discussed below. A participant is 100% vested after three years of continuous service for profit sharing purposes, or in the event of death or disability, as defined by the Plan.

Contributions

Participants may elect to defer a portion of his or her pretax compensation subject to certain maximum limitations imposed by the Internal Revenue Code ($16,500 and $15,500 for 2010 and 2009, respectively).

Effective January 1, 2008, the participating employers adopted certain provisions to become eligible to qualify as a "safe harbor plan." Under these provisions, the participating employers will make matching contributions at the rate of 4% per participating employee, and such matching contributions immediately vest.

Participant Accounts

Each participant's account is credited with the participant's contributions and discretionary contributions, and an allocation of plan earnings. Each participant's account is also charged for distributions and direct expenses such as life insurance premiums on policies purchased for his/her exclusive benefit. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate of 1% plus the prime rate in effect when the loan is made (4.25% to 9.25% at December 31, 2010). Principal and interest is paid ratably through monthly payroll deductions. The loans mature at various dates ranging from March 2011 through December 2027.

Forfeitures

Forfeitures represent the portion of non-vested benefit payments remaining in the Plan for all terminated employees. Forfeitures are either utilized to reduce employer's matching contributions or allocated to the participants in the same manner as employer contributions. Forfeitures in the approximate amounts of $29,000 and $58,000 were utilized to reduce employer's matching contributions during 2010 and 2009, respectively.

Payment of Benefits

After a participant's normal retirement date or on termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his/her vested account, or equal installments which are paid-out over the balance of the participant's account. Benefits are recorded when paid.

Plan Termination

While there is no intention to do so, the employers reserve the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of the Employee Retirement Income Security Act of 1974.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements for 2010 and 2009 have been prepared from information supplied by the Plan's trustee and custodian, Prudential Trust Company (Prudential). Such information has been certified as complete and accurate by the respective trustees.

The financial statements of the Plan are presented on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Therefore, interest and dividend income on a significant portion of investments was not accrued as of December 31, 2010 and 2009. Purchases and sales of securities are recorded on a trade date basis.

Estimates

The preparation of financial statements in conformity with a comprehensive basis of accounting other than generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. The amounts shown in Note 3 for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at fair value. In general, however, common stocks are valued by a qualified independent appraisal which considers current interest rates, earnings and dividend trends of investees, book value of the stock and various economic factors. The fair values of notes and mortgages are based on their estimated collectible principal balances. Investments in Registered Investment Companies are recorded at fair value as determined by Prudential.

Investment contracts held by the Plan are required to be reported at fair value as stated above. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administration Expenses

Certain administrative functions are performed by officers, employees, or affiliates of Austin Bank, Texas, N.A. However, no such officer or employee receives compensation from the Plan. A portion of administrative expenses of the Plan are paid by the participating employers. The participating employers paid expenses of approximately $33,000 for the year ended December 31, 2010.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through the date these financial statements were issued.

3. Certified Financial Information

The following is a summary of unaudited information as of December 31, 2010 and 2009, included in the Plan's financial statements that was prepared by Prudential and furnished to the Plan Administrator. The Plan Administrator has obtained certification from Prudential that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

4. Insurance Contracts

Prior to certain amendments and modifications to the Plan, participants had the option of allocating all or a portion of their vested contributions to purchase life insurance contracts. While no longer an option, participants remaining in the Plan who previously had exercised such election have their account balances reduced by the amount of annual premiums paid by the Trustee and other related costs and increased by earnings on the individual policies. Each policy reserves to the participants all incidents of ownership, rights, options and benefits provided by the policy.

5. Income Taxes

The Plan, as amended, obtained a favorable determination letter from the Internal Revenue Service, dated July 2, 2010. The Plan sponsor believes that the Plan continues to qualify and to operate as designed. As a qualified plan, it is exempt from taxation pursuant to the appropriate sections of the Internal Revenue Code.

6. Plan Modifications

Effective May 1, 2006, the plan was modified to allow for an additional form of payment of a participant's vested account balance. The modification allows for distributions to be made in designated sums from time to time as elected by the participant on the date or dates during a calendar year that are designated by the Plan, but no less frequently than annually.

7. Investment Contract with Insurance Company

A portion of the Plan's investments represent benefit-responsive guaranteed investment contracts with Prudential. Prudential maintains the contributions in a common collective trust fund. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2010 and 2009 was $9,588,733 and $8,902,925, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Prudential. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following table represents a summary of average yields of the investment contract as of and for the year ended December 31, 2010:

Average yields:	
Based on actual earnings	2.38%
Based on interest rate credited to participants	2.90%

9. Fair Value Disclosures

The fair value of an asset or liability is the price that would be received to sell that asset or paid to transfer that liability in an orderly transaction occurring in the principal market (or most advantageous market in the absence of a principal market) for such asset or liability. In estimating fair value, the Plan utilizes valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Such valuation techniques are consistently applied. Inputs to valuation techniques include the assumptions that market participants would use in pricing an asset or liability. ASC Topic 820, "Fair Value Measurements and Disclosures," establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

- *Level 1 Inputs* - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

- *Level 2 Inputs* - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.

- *Level 3 Inputs* - Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Plan's creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Furthermore, the reported fair value amounts have not been comprehensively revalued since the presentation dates, and therefore, estimates of fair value after the balance sheet date may differ significantly from the amounts presented herein.

Assets and liabilities measured at fair value at December 31, 2010 and 2009 are as follows:

	Fair Value Measurements Using		
	Level 1	Level 2	Level 3
December 31, 2010:			
Investments (1)	$ -	$ 33,172,681	$ -
December 31, 2009:			
Investments (1)	$ -	$ 29,239,531	$ -

(1) Investments are measured at fair value on a recurring basis, generally monthly.
