NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the Nestlé USA C&S Savings Plan (the Plan) is provided for general information only. Participants should refer to the plan document for more complete information.

(a) General

The Plan is a defined contribution plan, which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was established to assist employees in adopting a regular savings program and to provide employees with additional security upon retirement.

(b) Eligibility

Employees become eligible to participate in the Plan immediately upon hire. Employees will be automatically enrolled in the Plan approximately 30 days after they become eligible if they do not log on the record-keeper's Web site or call the record-keeper's call center to voluntarily enroll or decline enrollment. Employees who are enrolled automatically will have a contribution rate of 4%, invested 100% in Pre-set Portfolio 60. Employees may decline auto enrollment within 30 days of the date appearing on their Automatic Enrollment Notification.

(c) Contributions

The Plan provides for contributions by participants. Each participating employee elects to enter into a telephonic or electronic agreement with Nestlé USA, Inc. (the Company and the Plan Sponsor), thereby contributing to his or her account a percentage of eligible compensation. The participants designate a percentage between 1% and 25% of their annual eligible compensation as their elective contribution rate (subject to Internal Revenue Code (IRC) limitations of \$16,500 in both 2010 and 2009). Certain highly compensated employees are limited to a maximum contribution of 13% of eligible compensation.

The Company makes matching contributions to the Plan equal to 50% of each participant's contributions, which are not in excess of 6% of their eligible compensation. In addition, the Company may make a discretionary employer basic contribution to the Plan. The discretionary employer basic contribution recorded in 2010 and 2009 totaled \$1,382,661 and \$1,657,429, respectively. These amounts are recorded as contributions to the Plan in the year of approval by the President of the Company's Confections & Snacks Division. The Company contributions are limited to the maximum amount deductible under the provisions of IRC.

In accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), the Plan allows employees age 50 and older during the calendar year to elect to make up to an additional \$5,500 catch-up contribution during both 2010 and 2009. Catch-up contribution amounts are not eligible for Company matching contributions.

Notes to Financial Statements

(d) Participant Account Balances

Participant contributions are credited to accounts established for each participant and, along with related investment gains and losses, are fully vested and nonforfeitable.

Contributions by the Company (if any) are credited to the participant's account, and the participants vest in their account as specified in the plan document. Participants are fully vested in their employer match account after the earlier of three years of vesting service or upon attaining age 65. Participants are fully vested in their employer basic contribution after three years of vesting service.

Forfeitures represent the nonvested portion of Company matching contributions or employer basic contributions plus earnings thereon, which are not distributable to participants who terminate employment before they are vested. Forfeitures are applied either to the payments of expenses incurred by the plan administrator in connection with administering the Plan or to reduce employer contributions. Forfeited nonvested amounts during 2010 and 2009 totaled \$7,713 and \$31,147, respectively.

(e) Funds

The Plan provides for the establishment of investment funds, which are administered within the Nestlé in the USA Savings Trust (Master Trust) (see note 5). The Master Trust was established by the Company for the pooled investment of assets. The Master Trust investments, investment returns, and plan expenses are allocated to participating plans, based on the underlying equity in each plan. The Company has the sole discretion to determine or change the number and nature of investment funds. The funds established under the Plan as of December 31, 2010 are as follows:

- The Core Stable Investment Fund, which is invested in bonds and real estate, with insurance contracts that “wrap” the bond and real estate investments (see note 3). The underlying investments of this fund can also be loaned out under a securities lending arrangement with the trustee, in exchange for cash collateral.
- The Core Bond Fund, which is primarily invested in a balanced mix of government securities, mortgage-backed securities, and corporate bonds.
- The Core Common Stock Fund, which is primarily invested in stocks of companies contained in the S&P 500 index.
- The Core International Stock Fund, which is primarily invested in stocks of non-U.S. companies.
- The Core Small Company Stock Fund, which is primarily invested in stocks of smaller U.S. companies.
- The Active Bond Fund, which is primarily invested in government securities, corporate bonds, and mortgage-related securities.
- The Active Large Cap Value Fund, which is primarily invested in undervalued large U.S. companies.

NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

- The Active Large Cap Growth Fund, which is primarily invested in higher growth potential large U.S. companies.
- The Active International Stock Fund, which is primarily invested in stocks of non-U.S. companies.
- The Active Small Company Stock Fund, which is primarily invested in stocks of smaller U.S. companies.
- The Mutual Fund Window, which is an investment offering of retail mutual funds.

Participants specify the desired allocation of their contributions (including the related Company matching contributions) to the Core and Active Funds noted above and to four Pre-set Portfolios, which contain percentages of the aforementioned Core Funds. The percentage breakdown of each of the four portfolios – Conservative, Moderate, Moderately Aggressive, and Aggressive – varies according to degrees of risk. Participants can refer to the Summary Plan Description for more detailed descriptions of each portfolio. The allocation percentages are limited to increments of 1% and may be changed daily. To the extent participants fail to direct the investment of amounts credited to their accounts, such amounts were invested in Pre-set Portfolio 60.

(f) Distributions and Withdrawals

Distributions are due to a participant's retirement, death, total and permanent disability, or termination of employment, subject to conditions stated in the Plan. A terminated participant may elect to receive his or her distribution as a single lump-sum payment or as a partial distribution.

If a terminated participant's vested account balance is \$5,000 or less but greater than \$1,000 and he or she did not timely elect to receive his or her distribution in cash or directly roll over his or her distribution to an IRA or eligible retirement plan, the account balance was transferred from the Plan to a Citibank Rollover Individual Retirement Account. If a participant's vested account balance is \$1,000 or less and he or she does not timely elect to roll over his or her distribution to an IRA or eligible retirement plan, he or she automatically received his or her total vested account balance as a single lump-sum payment.

The Plan also provides for nonhardship withdrawals, grandfathered withdrawals (if a participant was in a predecessor plan that contained the right to make certain nonhardship withdrawals under that plan), and hardship withdrawals, which are subject to conditions stated in the Plan.

(g) Loans

Loans of up to the lesser of 50% of a participant's vested account value or \$50,000 (less the highest outstanding loan balance in the past 12 months) may be obtained from the Plan. All loans are subject to the terms and conditions prescribed by the plan administrator in accordance with the Plan. Principal and interest amounts repaid are invested based upon the participants' current investment elections. Loans to participants are recorded as an asset in the Loan Fund upon transfer from the appropriate investment funds. Interest rates on the loans vary between 4.25% and 9.25% with various maturity dates between 2011 and 2025. Participant loans are valued at amortized cost.

NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(h) Administrative Costs

All costs of administering the Plan are paid by the Company or the Plan, as determined by the Company, subject to limitations under ERISA. Expenses are allocated to the Plan based on its underlying interest in the Master Trust at the time the expense is incurred. The Plan's share of these expenses totaled \$157,021 and \$185,357 in 2010 and 2009, respectively.

(i) Plan-to-Plan Transfers

Participant accounts may be transferred between plans within the Master Trust. The plan for which the participant's account will be transferred to or from is based on the participating company to which the participant is relocating.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Fully Benefit-Responsive Investment Contracts

The Plan follows the guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Fully Benefit-Responsive Investment Contracts*. ASC 962 requires the statement of net assets available for plan benefits present the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The statement of changes in net assets available for plan benefits is prepared on a contract value basis for the fully benefit-responsive investment contracts.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and to disclose contingent assets and liabilities. Actual results could differ from these estimates.

(d) Payment of Benefits

Benefit payments to participants are recorded upon distribution of assets from the Plan.

(e) Valuation of Investments

Plan assets are held in the Master Trust, which is maintained by the State Street Bank and Trust Company (SSB), as trustee. The Master Trust investments are stated at fair value. The Master Trust investments, investment returns, and plan expenses are allocated to participating plans based on the underlying equity of each plan in each investment fund administered through the Master Trust. All allocations are participant-directed.

NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments represents both realized and unrealized gains and losses. Refer to note 2(f), *Fair Value Measurements*, for further information related to the valuation of Master Trust investments.

(f) Fair Value Measurements

The Plan has adopted the guidance in ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

- Level 1 – Assets or liabilities that are valued based on quoted prices in active markets that are accessible at measurement date.
- Level 2 – Assets or liabilities that are valued based on inputs other than quoted prices that are observable, including quoted prices for similar assets or liabilities and other pricing models (which use observable inputs).
- Level 3 – Assets or liabilities that are based on unobservable inputs, including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.

NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

The valuation methodologies utilized by the Master Trust for the above investments as of December 31, 2010 and 2009, are as follows:

- (a) Exchange-traded real estate investment trusts.
- (b) Investments in fully benefit-responsive investment contracts are presented at fair value, and are adjusted to contract value in accordance with the ASC 962 (note 2(b)). The insurance contracts are backed primarily by fixed income investments that are valued on a market basis. Certain fixed income pricing is on a bid evaluation basis. Institutional bid evaluations are estimated prices. Pricing vendors use models, which are generally proprietary, to arrive at the estimated prices. These prices represent the price a dealer would pay for a security. Model inputs vary depending on the type of security, but typically include trade data, institutional bids, comparable trades, dealer quotes, and news media. Market data is provided by multiple independent sources, including primary and secondary dealers, portfolio managers, and research analysts.
- (c) Investment in real estate funds are based on the net asset values (NAVs) reported to the Company and trustee on a periodic basis by the general partners of the fund. These NAVs are based on fair value of the underlying portfolio investments held by the real estate fund. These fair values are valued at appraised values plus undistributed rental and interest income. Management has used the NAV as a practical expedient to estimate fair value of the real estate fund. All real estate investments allow redemptions and, upon notice, the funds are typically paid out on a quarterly basis, over multiple quarters. There are no gates or lock ups that would substantially impact the liquidity of the Core Stable Investment Fund. Redemptions occur at fair value, which is based on the most recent NAV prior to the redemption. The Company currently has no intention of selling any of these investments at an amount other than the NAV.
- (d) Registered investment companies (i.e. mutual funds), equities, futures and options are exchange traded and valued at quoted market prices. Other investments comprised of cash operating accounts.
- (e) Commingled Funds are valued based on the NAV of the fund as determined by the investment manager based on quoted and/or industry market prices. The NAV is the market value of all of the securities owned by a fund, minus its total liabilities divided by the number of shares issued. The funds held in the trust can be redeemed on a daily basis with no redemption restrictions.

Notes to Financial Statements

December 31, 2010 and 2009

A summary of changes in the fair value of Level 3 assets for the years ended December 31, 2010 and 2009 are as follows:

	Level 3 assets

Nestlé in the USA Savings Trust Assets:		
Insurance contracts:		
Fair value of investments at December 31, 2008	\$ 41,678,487	3,475,502

Purchases (sales)	(15,089,099)	—
Fair value of investments at December 31, 2010	\$ 11,507,651	626,323

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2, or 3.

(3) Guaranteed Investment Contracts (GICs)

The Master Trust holds fully benefit-responsive investment contracts, such as synthetic investment contracts (GICs) through the Core Stable Investment Fund with various third parties (i.e., insurance companies and banks). A GIC provides for a fixed return on principal over a specified period of time through wrapper contracts issued by a third party, which are backed by underlying assets owned by the Plan. All investment contracts are reset quarterly. The wrapper contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value.

Contract value represents contributions made to the investment contracts, plus earnings, less participant withdrawals and administrative expenses. Fair value of the GICs generally equals the quoted market price of the underlying assets on the last business day of the plan year. The fair value of the wrapper contract for the GIC is determined using a discounted cash flow model which considers recent rebids, as determined by recognized dealers, and the duration of the underlying portfolio.

December 31, 2010 and 2009

The value of the GICs held by the Master Trust as of December 31, 2010 and 2009 was as follows:

		<u>\$ 861,748,553</u>	<u>856,892,663</u>	<u>5,173,246</u>	<u>4,855,890</u>

(1) Wrapper contracts fair value included within investments at fair value above.

The fair value of the wrapper contracts and GICs, as well as the adjustment from fair value to contract value, was allocated to the Plan based upon the Plan's underlying share of the Core Stable Investment Fund as of December 31, 2010 and 2009.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average crediting interest rates for the years ended December 31, 2010 and 2009 were 3.87% and 4.85%, respectively, with the range of interest rates varying from 3.45% to 4.29% in 2010 and 4.27% to 5.44% in 2009. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero.

Certain events, such as layoffs or early retirement incentives, may limit the ability of participants to access their investments at contract value. The Company believes the likelihood of such events is not probable. There are certain scenarios in which the contract issuers may terminate the GICs and settle at an amount different from the contract value. The Plan may experience losses if the issuer becomes insolvent and cannot pay their liabilities. If the Plan is unable to find a replacement contract, and the market value of the Plan's asset pool is below contract value, there could be losses. The Plan has multiple issuers in place in order to minimize the exposure to this risk. Also, the issuer can terminate the contract if the Master Trust fails to meet the terms of the contract.

NESTLÉ USA C&S SAVINGS PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to alter, suspend, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts would become fully vested and nonforfeitable. In addition, a complete distribution of the Plan's assets would be made to participants after payment of administrative and termination expenses.

(5) Investment in Master Trust

The Plan's proportionate interest in the investments held by the trustee is approximately 1.6% at December 31, 2010 and 2009. The following is financial information with respect to the Master Trust (excluding participant loans) that has been certified by the trustee as complete and accurate (refer to note 6):

(6) **Trustee Certifications**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from SSB, trustee, as of and for the years ended December 31, 2010 and 2009, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes thereto and supplemental schedule, as to investments and investment income is presented based upon those certifications. The auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(7) **Parties in Interest**

During 2010 and 2009, the Plan Sponsor, State Street Bank as trustee, and ING as record-keeper all qualify as parties-in-interest. The Plan's share of fees paid by the Master Trust to these parties in interest was \$68,212 and \$53,397 during 2010 and 2009, respectively.

(8) **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(9) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 28, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). In accordance with IRS procedures, in December 2009 the Company adopted an amended and restated Plan document effective January 1, 2009. The Company submitted a determination letter ruling request with the IRS in January 2010 for the amended and restated Plan document with regard to EGTRRA and other items identified on the 2008 Cumulative List of Changes in Plan Qualification Requirements in IRS Notice 2008-108. The IRS has not yet issued a ruling on the request through the date of this report; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.
