Notes to Financial Statements

December 31, 2010 and 2009

NOTE A--DESCRIPTION OF PLAN

The following description of the TAG Family of Companies (the "Company") Premier 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Document for more complete details of the Plan's provisions.

General
The Plan is a defined contribution plan covering all full-time employees of the Company who have three (3) months of service and are eighteen years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a matching contribution to the Plan; however, it is not required to do so. The percentage of contributions to be matched is to be determined by the Company and allocated to participants at the end of the Plan year. Participants must be employed on the last day of the year in order to receive matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each participant. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and reduced by allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

NOTE A--DESCRIPTION OF PLAN--Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. The loans are collateralized by the balance in the participant's account and bear interest at rates equal to the current prime rate plus one percentage point. The interest rates on outstanding loans ranged between 4.25% and 9.25% for the years ended December 31, 2010 and 2009. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service for any reason (death, disability, termination or retirement), a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $722 and $2,233, respectively. These accounts may be used to reduce future employer contributions, if amounts are available. Also, in 2010, employer contributions were reduced by $2,233 from forfeited nonvested accounts.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate, and mutual funds. The value of these investments is based on the market value of its underlying investments and is not a publicly-quoted price in an active market.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Administrative Expenses

Substantially all expenses of the Plan are paid by the Company. Certain expenses related to participant loans and distributions are paid by participants through a reduction of their participants' account.

Recently Issued Accounting Pronouncements

Accounting Standards Update (ASU) No. 2010-25, *"Plan Accounting - Defined Contribution Plans,"* requires that the Plan classify participant loans as notes receivable and that such loans be measured at their unpaid principal balances plus any accrued but unpaid interest. The Plan has adopted these amendments for the year ended December 31, 2010 and they have been applied retrospectively to all prior periods presented.

NOTE C--FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE C--FAIR VALUE MEASUREMENTS--Continued

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted prices in less active, dealer or broker markets. Fair values are primarily obtained from third party pricing services for identical or comparable assets.

Level 3 Fair Value Measurements

The guaranteed interest accounts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest account is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit-worthiness of the issuer. The following table provides further details of the Level 3 fair value measurements.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009.

NOTE D--INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Principal Life Insurance Company for the years ended December 31, 2010 and 2009, and was not subjected to any auditing procedures:

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in value, as follows:

	2010	2009
Pooled Separate Accounts	$ 263,358	$ 286,345
Guaranteed Interest	1,191	319
	$ 264,549	$ 286,664

NOTE D--INVESTMENTS--Continued

The Plan assets at December 31, 2010 are maintained by Principal Life Insurance Company under the following types of accounts:

Separate accounts are a discretionary type of investment vehicle. A separate account is established for each participant, whereby each participant has the option of choosing from a wide selection of Principal Life Insurance Company sponsored mutual funds.

The guaranteed interest funds are held in Principal Life Insurance Company's general account. The principal and compounded interest are guaranteed over a defined term, either three or five years. Interest rates in 2010 on the funds offered ranged from 0.59% to 4.23% depending on the term selected.

NOTE E--PLAN TERMINATIONS

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE F--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan and related trust, under Principal Life Insurance Company, are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H--RELATED PARTY TRANSACTIONS

The Plan invests in shares of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee, custodian, and recordkeeper of the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.
