INDEPENDENT AUDITOR'S REPORT

To The Brannan Sand and Gravel Company
Savings Plan
Denver, Colorado

We were engaged to audit the Statement of Net Assets Available for Benefits-Modified Cash Basis of Brannan Sand and Gravel Company Savings Plan as of December 31, 2010 and 2009, and the Statement of Changes in Net Assets Available for Benefits-Modified Cash Basis and the supplemental schedule as of and for the year ended December 31,2010 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Standard Insurance Company, the custodian of the plan assets, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian, as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Brannan Sand and Gravel Company Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Brannan Sand and Gravel Company, LLC who have ninety-days of service and are age twenty-one or older unless they are a union employee covered by a collective bargaining agreement, a leased employee or a non-resident alien with no U.S. source income. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). This plan is a 401(k) profit sharing type plan.

Contributions. Each year, participants may contribute up to the maximum amount allowed by law of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company at its discretion may make matching contributions. This contribution can match elective participant deferrals up to 6% of eligible compensation. The Company contributed 25% of the first 6% of eligible compensation that a participant contributes to the Plan.

Participant accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits. On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount, substantially equal installments or partial withdrawals of a minimum of $1,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account using the same payment methods.

Notes Receivable from Participants Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's account balance and bear interest at rates ranging from 3.25% to 8.25%. The maximum loan term is sixty months. Principal and interest is paid ratably through payroll deductions at least quarterly.

Forfeited Accounts. At December 31, 2010 and 2009, forfeited non-vested accounts totaled $42,841 and $38,959 respectively. These amounts will be used to offset future plan administrative expenses and employer contributions. In 2010, $9,339 of forfeited non-vested accounts was used to pay administrative expenses, and reduce employer contributions. Effective January 1, 2009 forfeitures are to be disposed of in the year the forfeiture occurs.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the modified cash basis of accounting. That basis differs from generally accepted accounting principles primarily because the Plan has not recognized accounts receivable from participants or the Company and accounts payable to participants or administrators and their related effects on earnings. Interest income on participant loans are recognized when received. Accordingly, the financial statements are not intended to present the net assets available for benefits and changes in net assets available for benefits of the Plan in conformity with the accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note #3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the cash basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses.

The Employer absorbs the cost of legal and accounting services necessary to administer the Plan. However, the contract administrator fee is paid by the Plan.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liability in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued by a pricing service used by the Custodian of the plan assets and should be similar to the net asset value (NAV) of shares held by the plan at year end.

Deposit Administration contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (See Note #5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the plan's asset as of December 31, 2010 and 2009.

NOTE 4 - INVESTMENTS

The accompanying December 31, 2010 and 2009 financial statements, supplemental schedule and the accompanying notes to the financial statement were prepared in part or entirety from information certified by the Custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974. The information certified includes the following:

	2010	2009
Investments at fair value	$3,926,347	$3,300,390
Investments at contract value	$1,838,566	$1,773,521
Same Investments at fair value	$1,893,723	$1,770,151
Interest income	$ 73,668	$ 67,054
Net appreciation (depreciation) in fair value of investments	$ 504,393	$ 750,723

The following presents investments at December 31, 2010 and 2009 that represent 5 percent or more of the Plan's net assets:

	2010	2009
Standard Insurance Pooled Separate Accounts, at fair value		
Vanguard Wellington Admiral	$ 356,165	$ 307,080
Vanguard PrimeCap	331,423	*
Columbia Acorn 2	351,221	*
Rainer Small/Mid Cap Equity 1	*	292,502
Standard Insurance Deposit Administration Contract Guaranteed Interest Fund, at fair value	1,893,723	1,770,151

* - Represents less than 5 percent.

The Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held, during the year) appreciated by $504,393 in 2010 and depreciated by $750,723 in 2010.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2001 the Plan entered into a benefit-responsive investment contract with The Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face value of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $1,893,723 and $1,770,151, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with The Standard. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	3.66%	3.25%
Based on interest rate credited to participants	3.66%	3.25%

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions to ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by The Standard Insurance Company. The Standard is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $18,070 and $15,152 for the years ended December 31, 2010 and 2009 respectively.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated by certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amount reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 3, 2011 the date when the financial statements were available to be issued.
