INDEPENDENT AUDITORS' REPORT

The Administrative Committee
Micro Analog, Inc. 401(k) Plan
La Verne, California

We were engaged to audit the accompanying statement of net assets available for benefits of Micro Analog, Inc. 401(k) Plan (the "Plan") as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H line 4i – Schedule of Assets Held (At End of Year). These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan for the year ended December 31, 2009 were audited by other auditor, whose report dated September 24, 2010 expressed a disclaimer opinion on those financial statements.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company® (AUL), a OneAmerica® company, custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from custodian as of December 31, 2010, and for the year then ended that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Micro Analog, Inc.'s (the "Company") 401(K) Plan (the "Plan") provides general information only. Participants should refer to the Plan agreement for more complete description of the Plan's provisions:

1. *General*. The Plan is a defined contribution plan covering all employees who worked at least 1,000 hours during the 12-month period and are twenty-one years of age or older. The Plan is subject to the provisions of Employee Retirement Income Security Act (ERISA). The Plan engaged American United Life Insurance Company® (AUL), a OneAmerica® company, as its plan custodian and record keeper.

2. *Contributions*. Participants may contribute 1% to 20% of annual salary, as defined in the Plan, subject to the maximum amount permitted by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a group annuity contract as investment options for participants. The Company may make a discretionary matching contribution equal to a uniform percentage of participant's salary deferrals which was determined each year. The Company may make a matching contribution of up to 25% of the participant's elective deferral and is limited to 6% of participant's compensation. The matching Company contribution is invested directly into the Plan. Additional amounts may be contributed at the option of the Company's board of directors and invested in portfolio investments as directed by the participants. Contributions are subject to certain limitations.

3. *Participant Accounts*. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting*. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested with respect to the Company's matching contribution after 6 years of credited service.

5. *Participant Loans*. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of vested interest in the Plan or $50,000, reduced by the excess, if any, of the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date of the new loan over the current outstanding balance of loans as of the date of the new loan. The loans are secured by the balance in the participant's account and bear interest at 5.5%, which commensurate with local prevailing rates as determined periodically by the Plan Administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

6. *Payment of Benefits*. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or any of the payment options as defined in the Plan. The distribution will be made, at the option of the participant, as soon as administratively feasible. For termination of service for other reasons, the participant may receive the value of the vested interest in the Plan as a lump sum distribution. The distribution will be made, at the option of the participant, as soon as administratively feasible.

7. *Forfeited Accounts*. At December 31, 2010 and 2009, there were no forfeited nonvested accounts. These accounts will be used to reduce future employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by defined-contribution plan are required to be reported at fair-value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would received if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

Preparation of the financial statements in accordance with generally accepted accounting principles require the use of management estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the accounting period. Actual results could differ from those estimates and disclosures in these financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company. Plan expenses paid by the Company amounted to $0 and $1,749 for the years ended December 31, 2010 and 2009, respectively.

Subsequent Events

The Company evaluated subsequent events through October 5, 2011, the date the financial statements were available to be issued.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements to conform to the 2010 presentation. These changes have no impact on previously reported net assets available for benefits.

Note 3. Investments - Continued

All investments are participant directed. During 2010, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $100,086.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2010.

Mutual funds. Valued at the net asset value (NAV) of shares held by the plan at year end.

Group annuity contract. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 5.

Participant loans. Valued at amortized cost, which approximates fair value.

The preceding methods described may produce fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 951,668	$ -	$ 951,668
Group annuity contract	-	110,027	-	110,027
Oustanding participant loans	-	-	3,424	3,424
	$ -	$ 1,061,695	$ 3,424	$ 1,065,119

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 759,920	$ -	$ 759,920

Oustanding participant loans	-	-	5,000	5,000
	$ -	$ 838,997	$ 5,000	$ 843,997

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Participant loans
Balance, beginning of year	$ 5,000
Realized gains/(losses)	-
Unrealized gains/(losses) relating to instruments still held at the reporting date	-
Purchases, sales, issuances, and settlements, net	(1,576)
Balance, end of year	$ 3,424

Note 5. Guaranteed Investment Group Annuity Contract with American United Life Insurance Company

In 2001, the Plan entered into a benefit-responsive guaranteed investment group annuity contract with AUL. AUL maintains unallocated contributions in a general fixed interest account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserved against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $110,027 and $79,077, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2010	2009
Based on actual earnings	3.26%	3.56%
Based on interest rate credited to participants	3.00%	4.01%

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

Note 7. Tax Status

The Company adopted a prototype plan and trust sponsored by AUL, on April 2, 2001 effective for the plan year starting January 1, 2001. The Internal Revenue Services, (IRS) has ruled that the prototype plan that the Company adopted, qualifies under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is not subject to tax under present income tax laws. Employee contributions qualify as "cash or deferred" contributions under Section 401(k) of the IRC. Once qualified, the Company who adopted the prototype plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. The Company believes the Plan continues to qualify under IRC and the related trust is tax exempt.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
