NOTE 1 – DESCRIPTION OF PLAN

Chemtrusion, Inc. 401(k) Savings and Profit Sharing Plan (the "Plan") is a qualified retirement plan adopted by Chemtrusion, Inc. (the "Company") originally effective on October 1, 1985, and is maintained for the exclusive benefit of eligible employees of the Company to provide them with the opportunity to save for retirement on a tax-advantaged basis. The Plan has been amended since this date to comply with current tax laws and regulations. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Significant provisions of the Plan in effect as of December 31, 2010 are summarized below. Participants should refer to the legal Plan document for a more complete description of the Plan's provisions.

A. Eligibility – Generally, all employees of the Company who have attained the age of twenty-one (21) and completed six (6) months of service are eligible to participate in the Plan. An employee may enter the Plan on the first day of a payroll period coinciding with or next following the date the eligibility requirements are satisfied. The Company may exclude certain groups of employees from participating in the Plan.

B. Contributions – Participants may elect to defer up to fifty percent (50%) of compensation not to exceed a dollar limit established by the Internal Revenue Service ("IRS"). Participants age fifty (50) or older before the end of a calendar year may elect to defer additional amounts as catch-up contributions. Participants may modify or revoke their salary deferral election during the Plan year. Participants may also contribute amounts representing rollovers from other plans and certain individual retirement accounts ("IRA").

   The Company will make a safe harbor matching contribution to each participant equal to the sum of one hundred percent (100%) of each participant's salary deferrals which do not exceed three percent (3%) of compensation plus fifty percent (50%) of salary deferrals between three percent (3%) and five percent (5%) of compensation. Additionally, discretionary nonelective contributions may be made to the Plan and allocated to eligible participants based on compensation. For the year ended December 31, 2010, the Company did not make any discretionary contributions to the Plan.

C. Participant Accounts – Each participant's account is credited with the participant's contributions, rollovers, employer contributions and investment earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. A participant's account is segregated for purposes of determining the earnings or losses on these investments and does not share in the investment performance of other participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

D. Investment Options – Participants direct the investment of their entire interest in the Plan into various investment options offered by the Plan. The Plan currently offers one guaranteed investment contract and several mutual funds as investment options. Participants may reallocate and transfer their interests into and out of the investment options at any time.

E. Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of their vested interest. The loan is adequately secured by the balance in the participant's account and shall be charged a reasonable rate of interest. Principal and interest payments are paid at least quarterly over a term not to exceed five (5) years, unless the loan was obtained to acquire a principal residence. If a participant fails to make payments when they are due under the terms of a loan, the participant loan will be considered to be in default.

F. Vesting – Participants are immediately fully vested in their elective salary deferral, catch-up, and rollover contributions, safe harbor contributions, qualified contributions, and any income or loss thereon. Other types of employer contributions are subject to a six-year graded vesting schedule, based on years of service. Upon death, disability, or reaching normal retirement age, participants become fully vested in their accounts.

G. Forfeitures – The non-vested portion of a terminated participant's account balance remains in the Plan as a forfeiture. Forfeitures may first be used to pay any administrative expenses or reduce matching contributions. Forfeited non-vested accounts totaled $1,316 and $1,062 at December 31, 2010 and 2009, respectively. There were no withdrawals from the forfeitures holding account for the years ended December 31, 2010 and 2009.

H. Payment of Benefits – A terminated participant (or beneficiary in the case of death) may elect to receive a single lump-sum payment in cash equal to the value of the participant's vested account balance or have benefits paid directly to another plan which qualifies under Section 401(a) of the Internal Revenue Code ("IRC").

If a participant's vested account balance is not greater than $1,000 upon termination of employment, it will be paid automatically in a lump-sum payment in cash. If a participant's vested account does not exceed $5,000, but exceeds $1,000, and the terminated participant does not elect to either receive or rollover the distribution, the Company will directly rollover the amount to an IRA on the participant's behalf.

Generally a participant may receive a distribution from certain accounts prior to termination of employment provided any of the following conditions are satisfied: attained age fifty-nine and one-half (59½), incurred a financial hardship, or incurred a disability.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

B. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

C. Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures About Fair Value Measurements*. ASU 2010-06 amends the FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*. This amendment requires new disclosures on the value of and the reasons for transfers in and out of Levels 1 and 2 of the fair value hierarchy and additional disclosures about purchases, sales, issuances and settlements within Level 3 fair value measurements. ASU 2010-06 also clarifies existing disclosure requirements on levels of disaggregation and about input and valuation techniques. This is effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Plans*. ASU 2010-25 amends the FASB ASC Topic 962-325, which required most investments held by the Plan, including participant loans, to be presented at fair value. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This is effective for fiscal years ending after December 15, 2010.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Net appreciation in fair value of investments includes gains and losses on investments sold during the year and unrealized appreciation or depreciation of investments held at year-end. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

E. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

F. Payment of Benefits

Benefits are recorded when paid. As of December 31, 2010, there were no amounts owed to participants who had elected to withdraw from the Plan but had not yet been paid.

G. Administrative Expenses

The Plan permits the payment of Plan expenses to be made from the Plan's assets. The expenses charged to the Plan may be charged pro rata to each participant in relation to the size of each participant's account balance or may be charged equally to each participant. In addition, some types of expenses may be charged only to some participants based upon their use of a Plan feature or the receipt of a Plan distribution. Finally, the Plan may charge expenses in a different manner as to participants who have terminated employment with the Company versus those participants who remain employed with the Company.

H. Subsequent Events

The Plan has evaluated subsequent events through September 28, 2011, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair *Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.

- Level 2 – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Mutual funds are stated at fair value based upon quoted market prices of the net asset value ("NAV") of shares held by the Plan at year-end.

Guaranteed Investment Contract: The reported value for the guaranteed investment contract is reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Collective Trust Fund: Valued at the NAV of shares of bank collective trust held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 3 – FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2010			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 2,336,393**	**$ -**	**$ -**	**$ 2,336,393**
Guaranteed investment contract	**-**	**616,951**	**-**	**616,951**
TOTAL	**$ 2,336,393**	**$ 616,951**	**$ -**	**$ 2,953,344**

	December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,855,493	$ -	$ -	$ 1,855,493
Collective trust fund	-	538,526	-	538,526
TOTAL	$ 1,855,493	$ 538,526	$ -	$ 2,394,019

There were no significant transfers between Level 1 and Level 2 investments during the year ended December 31, 2010.

In 2009, assets held by the Plan included the US Bank Stable Asset Fund, a fully benefit-responsive stable value collective trust fund that employs traditional fixed-income management strategies and invests primarily in high-quality fixed-income securities paired with 'book value wraps' and investment contracts from highly rated financial institutions. This fund attempts to maintain a weighted-average maturity between 2.5 to 3.5 years and generate a return of one percent (1%) to two percent (2%) above money market rates over a full market cycle while seeking to provide safety and stability of principal. The US Bank Stable Asset Fund is adjusted by the issuer to contract value. Contract value represents contributions made to the fund, plus earnings or losses, less participant withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (UNAUDITED)

The Plan has a non benefit-responsive investment contract, the guaranteed portfolio fund, with Great West Life & Annuity Insurance Company ("Great West"). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Per the certified trust statements, fair value of the investment contract, prior to contract termination, equals the contract value (ending balance). The contract is included in the financial statements at fair value as reported to the Plan by Great West. Contract value represents contributions made under the contract, plus earnings and interest, less participant withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the investment contract. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against the investment contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 is $616,951. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero (0%) percent. Such interest rates are reviewed on a quarterly basis for resetting.

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Orchard Trust Company, LLC (the "Trustee") except for comparing such information to the Plan's financial statements and supplemental schedules.

The Trustee certified to the completeness and accuracy of Plan investments totaling $2,953,344 and $2,394,019 for the years ended December 31, 2010 and 2009, respectively. The Trustee also certified to the completeness and accuracy of $271,339 of net appreciation in fair value of investments and $40,124 of interest and dividends for the year ended December 31, 2010.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are funds managed by Putnam Investments, LLC, an affiliate of the Trustee for the Plan and Great West. These transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. There have been no known prohibited transactions with parties-in-interest. Fees paid by the Plan for the investment management services are netted against net appreciation in fair value of investments.

NOTE 7 – INVESTMENTS (UNAUDITED)

At December 31, 2010 and 2009, all investments of the Plan were participant-directed. The following presents investments that represented five percent (5%) or more of the Plan's net assets at December 31:

	2010	2009
Fidelity Advisor Equity Growth T	**$ 275,787**	$ 234,021

* Indicates party-in-interest
** Represented less than five percent (5%) of the Plan's net assets as of December 31.

The following table presents the net appreciation (including investments bought, sold and held during the year) for each of the Plan's investment categories for the year ended December 31, 2010:

Mutual funds	$ 261,158
Collective trust fund	10,181
NET APPRECIATION IN FAIR VALUE OF INVESTMENTS	$ 271,339

NOTE 8 – PLAN TERMINATION

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become one hundred percent (100%) vested. The Company will direct the distribution of participants' accounts in a manner permitted by the Plan as soon as practicable.

NOTE 9 – TAX STATUS

The Plan has adopted a prototype nonstandardized profit sharing plan with cash or deferred arrangement sponsored by Orchard Trust Company, LLC. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the IRS stated that the form of the prototype plan is acceptable under section 401 of the IRC for use by employers for the benefit of their employees.

NOTE 9 – TAX STATUS (CONTINUED)

Although the Plan has been amended subsequent to the date of the opinion letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax provisions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Company has analyzed the tax provisions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax year in progress. The Company believes it is no longer subject to income tax examinations for years that are closed for tax filing purposes.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Schedule H of Form 5500:
