Notes to Financial Statements

1 - Description of Plan

The following description of the Jefferson Dental Clinics 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution 401(k) plan covering substantially all employees of Jefferson Dental Clinics (the "Sponsor"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is intended to be a qualified retirement plan under the Internal Revenue Code.

B. Plan Amendment - The plan initially became effective January 1, 2005 and complies with regulations set forth under Internal Revenue Code Section 415.

C. Contributions - Participants may voluntarily contribute to the Plan up to an annual maximum of 50% of eligible compensation, pursuant to a salary reduction arrangement. Total participant contributions in any calendar year are restricted to the applicable limit under Internal Revenue Code Section 402(g). The applicable limit for the plan year ended December 31, 2010 is $16,500 with an additional $5,500 catch-up provision for participants age fifty or older. The Sponsor's matching contribution, if any, is equal to that percentage of each Contributing Participant's Elective Deferral which the Sponsor determines year to year. There was no Sponsor matching contribution for the year ended December 31, 2010. The participants direct the investment of the employee deferral and the Sponsor matching contribution to the various investment options offered by the Plan.

D. Expenses of Administrating the Plan - Administrative expenses recorded in the financial statements represent expenses that were absorbed by participants related to the administration of the Plan.

E. Participants' Accounts - Each participant's account is credited with the participant's contributions, the Sponsor's matching contributions and an allocation of Plan gains and losses. Allocations for Plan gains and losses are based upon the ratio of each participant's account to the total participants' accounts. The benefit to which a participant is entitled is the vested amount in the participant's account.

F. Eligibility and Vesting - Employees of the Sponsor become eligible to participate in the Plan once they have completed six months of service with the Sponsor.

Participants' contributions plus actual earnings thereon are 100% vested at all times. Vesting of Sponsor contributions plus earnings thereon is based upon six full years of credited service allowing for various severance periods as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant is 100% vested upon termination by reason of retirement, death, or disability. Upon termination, any amount in which the participant is not vested shall be forfeited. Forfeitures may be applied to reduce future Sponsor contributions.

1 - Description of Plan (continued)

G. Notes Receivable from Participants **-** Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The loans bear interest at variable rates and are secured by the balance in the participant's account. Principal and interest payments are redeposited in the participants' accounts based on their current allocation elections within the Plan. Participants may have no more than one loan outstanding at any one time.

H. Payment of Benefits **-** Upon termination of service or retirement, a participant entitled to payment under the Plan will have the option of receiving a lump sum distribution equal to their vested account balance or rolling their distribution over to an IRA or other qualified retirement plan.

2 - Summary of Significant Accounting Policies

A. Basis of Accounting **-** The financial statements of the Plan are prepared under the accrual basis of accounting. Therefore, revenues are recognized when earned, and expenses are recognized when the obligation is incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

B. Valuation of Investments - Investments are stated at fair value as determined and certified by Lincoln National Life Insurance Co., (the "Trustee"). Purchases and sales of securities are recorded on a trade-date basis.

C. Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

D. Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

E. Reclassifications - Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

F. Subsequent Events - Subsequent events have been evaluated through July 28, 2011, the date the financial statements were available to be issued.

3 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

JEFFERSON DENTAL CLINICS
401(k) PROFIT SHARING PLAN
Notes to Financial Statements

4 - Income Tax Status

The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

6 - Investments (Information Certified by Trustee – Unaudited)

The following is a summary of the Plan's investment information regarding the Plan as of December 31, 2010 and 2009, included in the Plan's financial statements and supplemental schedule of assets held for investment purposes that was prepared by or derived from information prepared by the Trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustee that such information is complete and accurate for the years ended December 31, 2010 and 2009.

7 - Fair Value Measurements

As required by the Fair Value Measurements topic of the Financial Accounting Standards Board *Accounting Standards Codification* ("FASB ASC"), all financial assets and liabilities are measured at fair value on a recurring basis. The topic establishes a framework for measuring fair value and enhances disclosure requirements for fair value measurements. The topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The topic establishes market or observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The topic establishes a hierarchy for grouping these assets and liabilities, based on the significance level of the following inputs:

Level I – Quoted prices in active markets for identical assets or liabilities.

Level II – Quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant drivers are observable.

Level III – Significant inputs to the valuation model are unobservable.

The following is a listing of assets and liabilities required to be measured at fair value on a recurring basis and where they are classified within the hierarchy as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level I	Level II	Level III	Total
Interests in pooled separate accounts	$ -	$ 884,687	$ -	$ 884,687
Funds in insurance company general account	-	-	49,707	49,707
Total assets at fair value	$ -	$ 884,687	$ 49,707	$ 934,394

	Assets at Fair Value as of December 31, 2009			
	Level I	Level II	Level III	Total
Interests in pooled separate accounts	$ -	$ 664,604	$ -	$ 664,604
Funds in insurance company general account	-	-	34,285	34,285
Total assets at fair value	$ -	$ 664,604	$ 34,285	$ 698,889

Interests in pooled separate accounts consist of investments in various mutual funds and are valued based on the net asset value of the units held by the Plan at year end. Funds held in insurance company general account are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 8).

The preceding methods described may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

JEFFERSON DENTAL CLINICS
401(k) PROFIT SHARING PLAN
Notes to Financial Statements

7 - Fair Value Measurements (continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level III assets for the year ended December 31, 2010:

	Funds held in Insurance Company General Account
Balance at 12/31/2009	$ 34,285
Issuances and settlements (net)	14,103
Interest income	1,319
Balance at 12/31/2010	$ 49,707

8 - Investment Contract with Insurance Company

Prior to the year ended December 31, 2010, the plan entered into a benefit-responsive investment contract with Lincoln National Life Insurance Company ("LNLIC"). LNLIC maintains the contributions in a general account where they are invested in accordance with LNLIC's general account investment policy. The objective of the investment policy is to maximize long-term, risk-adjusted returns. LNLIC's general account assets are predominately fixed-income investments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by LNLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average gross credited rate for the guaranteed account of the LNLIC product for the years ending December 31, 2010 and 2009 was approximately 3.71% and 3.96%, respectively. The contract value of the investment contract at December 31, 2010 and 2009 was $47,621 and $34,234, respectively.
