Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following description of The Minacs Group, (USA) Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established effective February 1, 1999. It is a defined contribution plan covering all permanent employees of The Minacs Group USA, Inc. (the "Company") who are age 21 or older and who are not Canadian expatriates or residents of Puerto Rico, as defined in the Plan. Employees must have three months of service to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 60 percent of pretax annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan also provides an employer discretionary matching contribution equal to a percentage determined by the board of directors. It was declared by the board of directors not to make employer contributions after December 11, 2008. Contributions are subject to certain limitations.

During 2010, the Company remitted certain employee deferrals to the Plan after the Department of Labor's required timeframe. A contributions and lost earnings were remitted to the Plan subsequent to year end for contributions made during 2010.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after two years of credited service. During 2009, a partial plan termination occurred which resulted in the affected participants becoming 100 percent vested (see Note 7).

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

The Minacs Group, (USA) Inc. 401(k) Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description (Continued)

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon attainment of age 59½ and without terminating employment, a participant will be entitled to receive a distribution of all or any portion of the participant's vested interest in his or her account.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and the ERISA. In the event the Plan should terminate, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions. The balance at December 31, 2010 and 2009 of forfeited account balances totaled \$20,147 and \$37,564, respectively.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund. The common collective trust fund is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. Investments in mutual funds are stated at fair value using quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

The Minacs Group, (USA) Inc. 401(k) Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses - Certain administrative expenses of the Plan are paid by the Company.

New Accounting Pronouncement - During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable and the 2009 interest income has been reclassified from investment income to interest from participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 15, 2011, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 3 - Unaudited Information (Continued)

Investments that exceed 5 percent of end of year net assets are as follows:

	2010	2009
Mutual funds - At fair value:		
Fidelity OTC Portfolio Fund	\$ 835,524	\$ 768,135
Fidelity Blue Chip Growth Fund	1,160,093	954,165
Fidelity Diversified International Fund	1,663,781	1,744,319
Fidelity Dividend Growth Fund	1,165,174	1,040,196

Fidelity Freedom 2030 Fund	813,618	806,913
Fidelity Capital & Income Fund	959,659	604,597
Common collective trust fund - At contract value -		
Fidelity Managed Income Portfolio	3,054,300	3,521,404

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than those on Form 5500 at December 31, 2010 by \$25,038 and higher than those on Form 5500 at December 31, 2009 by \$64,286. Additionally, the changes in net assets on Form 5500 for the years ended December 31, 2010 and 2009 are higher than that on the financial statements by \$89,324 and \$180,569, respectively.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

The Minacs Group, (USA) Inc. 401(k) Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 6 - Fair Value Measurements (Continued)

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (1) This class represents investments in an actively managed common collective trust fund that invests in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, asset-backed securities, interest rate swaps, options, and futures. Investments are valued at the fair value multiplied by the number of shares held as of the measurement date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2010.

Note 7 - Partial Plan Termination

During 2009, the Company had a workforce reduction that impacted participants in the Plan. As a result of this reduction, the Company concluded that a partial plan termination occurred. Accordingly, the affected participants became 100 percent vested in their account balances. The participants that were not affected by the workforce reduction or terminated prior to the partial plan termination remain subject to the applicable vesting rules at the time of termination.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than those on Form 5500 at December 31, 2010 by \$25,038 and higher than those on Form 5500 at December 31, 2009 by \$64,286. Additionally, the changes in net assets on Form 5500 for the years ended December 31, 2010 and 2009 are higher than that on the financial statements by \$89,324 and \$180,569, respectively.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

The Minacs Group, (USA) Inc. 401(k) Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 6 - Fair Value Measurements (Continued)

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (1) This class represents investments in an actively managed common collective trust fund that invests in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, asset-backed securities, interest rate swaps, options, and futures. Investments are valued at the fair value multiplied by the number of shares held as of the measurement date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2010.

Note 7 - Partial Plan Termination

During 2009, the Company had a workforce reduction that impacted participants in the Plan. As a result of this reduction, the Company concluded that a partial plan termination occurred. Accordingly, the affected participants became 100 percent vested in their account balances. The participants that were not affected by the workforce reduction or terminated prior to the partial plan termination remain subject to the applicable vesting rules at the time of termination.
