DFT, Inc. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

A. DESCRIPTION OF PLAN

The following description of the DFT, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. GENERAL - The Plan is a defined contribution plan covering all employees of the company who are age eighteen or older, except non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. EMPLOYEE CONTRIBUTIONS - Participants can elect to contribute from 2% to 100% of their annual salaries. A participant can elect to defer up to 50% of any bonus. The total of the employee's contributions plus the employer's matching contribution cannot exceed $16,500 for participants under 50 and $22,000 for participants who have attained age 50 by year-end. This is due to an additional catch-up contribution of $5,500 for those participants.

3. EMPLOYER MATCHING CONTRIBUTIONS - On a quarterly basis, the Company will match the employee's contribution as follows:

   Dollar for dollar matching if employee funds under 3%
   3.00% matching if employee funds 3.00%
   3.50% matching if employee funds 4.00%
   4.00% (maximum) matching if employee funds 5.00%

4. PARTICIPANT ACCOUNTS - Each participant's account is credited with the participant's contribution and applicable allocation of plan earnings (losses). Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

5. VESTING - Participants are immediately vested (100%) in their accounts for any and all of the participant contributions. However, the employer's matching contribution follows the below listed 6 year graded vesting schedule:

0-1 year of service	0%
2 years of service	20%
3 years of service	40%
4 years of service	60%
5 years of service	80%
6 years of service	100%

A. DESCRIPTION OF PLAN (continued)

6. INVESTMENT OPTIONS - Participants direct the way their funds are invested in any of twenty investment options. Changes may be made on a daily basis, to the extent administratively feasible.

7. PAYMENT OF BENEFITS - On termination of service, immediate distributions may be made at the participant's election. Distributions under the plan are made in lump sums. No annuities are allowed.

8. PARTICIPANT LOANS - Loans to participants are not permitted from the plan.

9. ADMINISTRATIVE COSTS - The Company absorbs all administrative costs for the plan.

10. PLAN TERMINATION PROVISIONS - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to the participants' accounts will continue to be 100% vested. The Company will make the distributions of the participants' accounts in a manner permitted by the Plan and as soon as practicable.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the plan are prepared using the accrual method of accounting.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

D. INCOME TAX STATUS

The Plan is an adoption of a prototype Plan, which has been approved via an opinion letter dated March 31, 2009 by the Internal Revenue Service as acceptable under Section 401 of the Internal Revenue Code. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

E. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

E. FAIR VALUE MEASUREMENTS (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

E. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

F. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
