ONE STEP UP, LTD. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF PLAN

The following description of the One Step Up, Ltd. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan, which became effective on January 1, 1998, is a defined contribution plan covering substantially all employees of One Step Up, Ltd., Kidz Concepts, LLC, ACHS Management Corp., and ADJFAM Management Company (collectively, the "Company") who have completed three months of service and are age twenty or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Each year, participants may voluntarily elect to contribute up to 33% of their annual compensation, not to exceed the amount limited by the Internal Revenue Code ("IRC"). The Company matched employee contributions of up to 6.5% of an employee's annual compensation on a continuous basis through February 2, 2009 when the decision was made to discontinue matching employee contributions. The Company may, at its option, make additional discretionary contributions.

Investment Options
Participants direct the investment of their accounts into various funds offered by the Plan. Investment options include mutual funds and pooled separate accounts by Principal Life Insurance Company ("Principal").

The Pension Protection Act created the Qualified Default Investment Alternative ("QDIA"). The QDIA provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. The Plan has selected the appropriate Principal LifeTime portfolios as its QDIA.

Participant Accounts
Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's contribution, and an allocation of Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1 - DESCRIPTION OF PLAN (Continued)

Vesting and Forfeitures

Participants are immediately vested in their voluntary contributions and the Company's safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service.

Forfeitures of terminated participants' nonvested accounts may first be used to pay Plan expenses. Any remaining amounts will be used to reduce employer contributions. There was $13,531 and $25,072 in forfeited nonvested accounts at December 31, 2010 and 2009, respectively. Employer administrative expenses of $15,966 were paid from forfeited nonvested accounts for the year ended December 31, 2010.

Participant Loans

Participants may borrow a minimum of $500 and a maximum of the lesser of $50,000 or 50% of their vested account balance, subject to certain other restrictions. Loan terms cannot exceed five years, but may extend longer for the purchase of a primary residence, as defined. The loans are secured by the participant's account and bear interest at rates ranging from 4.25% to 10.25%.

Payment of Benefits

On termination of service, a participant is entitled to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period not to extend beyond the life expectancy of the participant or the joint life expectancy of the participant and his or her beneficiary.

Hardship Withdrawals

Prior to termination of employment, a participant may withdraw, subject to the Plan's notice requirements, all or a portion of the value of his or her participant account and the vested value of his or her Company contribution account if the participant has attained age 59-1/2 or becomes totally and permanently disabled, or all of a portion of the value of his or her participant account in the event of demonstrated financial hardship, subject to the Plan's provisions. Withdrawals to which a participant is entitled are the amounts that can be provided by the contributions and income thereon (including net realized and unrealized investment gains and losses) allocated to each participant's account, less allocated expenses.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates
The plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of net assets available for benefits, reported changes in net assets available for benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a deemed distribution is recorded.

Investment Valuation
Generally accepted accounting principles ("GAAP") define fair value, provide guidance for measuring fair value and require certain disclosures. GAAP discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect management's own assumptions.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation (Continued)

Mutual Funds

Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Mutual funds are classified as Level 1 investments.

Pooled Separate Accounts

Pooled separate accounts are proprietary pooled funds created by Principal which invest in a single mutual fund, multiple securities or other pooled separate accounts balanced at a predefined target allocation. Fair value of the pooled separate accounts is determined by referencing the fair value of their underlying investments. The pooled separate accounts are classified as Level 2 investments.

Income Recognition

Net appreciation in fair value of investments includes both realized and unrealized gains and losses on securities bought and sold as well as held during the year, based on the value of assets at the beginning of the year or at the time of purchase during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned.

Management Fees and Operating Expenses

Management fees and operating expenses charged to the Plan for investments in mutual funds and pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees are reflected in net depreciation in fair value of such investments.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Plan expenses not paid by the Company may be paid out of Plan assets provided that such payment is consistent with ERISA.

New Accounting Pronouncements

Effective January 1, 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to notes receivable from participants. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events
These financial statements were approved by management and available for issuance on September 20, 2011. Management has evaluated subsequent events through this date.

5 - EXCESS PARTICIPANTS' CONTRIBUTIONS PAYABLE

Benefit distributions of $352,295 for the Plan year ended December 31, 2010 include payments of $9,284 made to certain active participants to refund excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statements of net assets available for benefits as excess participant contributions payable at December 31, 2010.

6 - PARTY-IN-INTEREST TRANSACTIONS

The Plan holds units of pooled separate accounts managed by Principal. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. The Company pays these individuals' salaries and other administrative expenses. These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory and administrative exemptions from the IRC and ERISA rules on prohibited transactions.

During 2009, the Company remitted participant contributions after the time period permitted by ERISA. This constitutes a prohibited transaction as defined by ERISA. A nominal amount of $4.48 for rate of return loss on the late payments in 2009 for the number of days late, using a rate determined by the Department of Labor (based on the IRC), was paid by the Company in August 2011. The Company is in the process of implementing procedures to remit participant contributions in accordance with ERISA regulations.

7 - INCOME TAX STATUS

Effective September 1, 2008, the Plan adopted the Principal Financial Group Prototype Basic Savings Plan (the "Prototype"). The Prototype obtained its latest determination letter on July 22, 2003 in which the Internal Revenue Service has determined that the plan document is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Participants may invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.
