Service Net Warranty, LLC Retirement Plan

December 31, 2010 and 2009

Note A--Description of Plan

The following description of the Service Net Warranty, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General--The Plan was formed on September 1, 1994 and is sponsored by Service Net Warranty, LLC, (formally Service Net Solutions, LLC) (the "Company"). Effective June 1, 2009, the Plan's name was changed from Service Net Solutions, LLC Retirement Plan to Service Net Warranty, LLC Retirement Plan. The Plan is a defined contribution plan covering all employees of the Company who have met the eligibility requirements (attained age eighteen and completed one year of service). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and includes a deferred salary arrangement under Section 401(k) of the Internal Revenue Code.

Custodian--The Plan utilized JPMorgan Chase Bank ("JPMorgan") for management of Plan Assets through June 24, 2010. On June 25, 2010, the Plan engaged State Street Bank & Trust Company ("State Street") as custodian of the Plan. As custodians of the Plan, JPMorgan and State Street have the power to hold, invest, reinvest, control, and disburse funds in accordance with the Trustee Agreements.

Contributions--Participants may elect to contribute to the Plan from 1% to 75% of their eligible compensation, up to a maximum as prescribed by the Internal Revenue Code ("IRC"), for any calendar year. Participants may also contribute amounts representing distributions from other qualified plans. The Company match equals 50 percent of the first 4 percent of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations

Forfeited Accounts--The non-vested portion of former participants' accounts are used to reduce Company contributions. At December 31, 2010 and 2009, forfeited non-vested accounts approximated \$25,000 and \$21,000 respectively. During the Plan years 2010 and 2009, forfeitures totaling \$25,286 and \$2,096, respectively, were used to reduce the Company's matching contributions.

Participant Accounts--Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from that participant's account.

Vesting--Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Investment Options--Upon enrollment in the Plan, a participant may direct contributions to various investment options available as set forth in the Plan. Participants may change their investment options at any time during the year.

Note A--Description of Plan--Continued

Payment of Benefits--A participant who has become entitled to receive payment of benefits whether retired, disabled, death or terminated, may elect to receive either a lump-sum amount equal to the value of his or her account or receive monthly payments upon the purchase of a life annuity. Hardship withdrawals and in service withdrawals are also permitted upon meeting certain requirements.

Notes Receivable from Participants--A participant may request permission from the Plan Administrator to borrow a portion of such participant's vested accrued benefit under the Plan. Participants may borrow a minimum amount of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must bear a reasonable interest rate and be repaid over a reasonable period of time not to exceed five years, except when the loan is secured by a home mortgage. Principal and interest are paid ratably through payroll deductions at each regular pay period.

Note B--Summary of Accounting Policies

Basis of Accounting--The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates--The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants--Loans to participants are recorded at their unpaid principal balances plus any accrued unpaid interest.

Investment Valuation and Income Recognition--The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds and common/collective trusts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses--Certain administrative services were paid by the Plan during the year. Other expenses were paid directly by the Company.

Payment of Benefits--Benefits are recorded when paid.

Date of Management's Review--Subsequent events were evaluated through September 29, 2011, which is the date the financial statements were available to be issued.

Reclassification--Certain reclassifications were made to the 2009 financial statements to conform with the 2010 presentation. Such reclassifications had no effect on the net increase in net assets available for benefits.

Note C--Fair Value Measurements

The following table presents the fair value of investments at December 31, 2010 and 2009.

Note C--Fair Value Measurements--Continued

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair values are based on inputs other than quoted prices within *Level 1* that are observable for valuing the asset, either directly or indirectly. Observable inputs include the quoted price for similar assets in active or non-active markets. *Level 2* inputs may also include insignificant adjustments to market observable inputs. The fair value of the common/collective trust is determined by an external investment manager utilizing quoted prices for similar assets in both active and non-active markets.

Service Net Warranty, LLC Retirement Plan

Note F--Termination of the Plan

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, participants become 100% vested in their account balances.

Note G--Tax Status and Uncertain Tax Positions

The Internal Revenue Service has determined, and informed the Corporation by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended subsequent to receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's Form 5500, *Annual Return/Report of Employee Benefit Plan*, for 2007 through 2009 is subject to examination by the IRS, generally for three years after they were filed.

Note H--Related Party Transactions

Certain administrative services are provided by the Company at no cost to the Plan, and certain administrative costs incurred by the Plan are paid by the Company.

Certain Plan investments are shares of mutual funds managed by the Custodian. As such, the transactions qualify as party-in-interest. Administrative fees paid to the Custodians were \$3,590 and \$4,318 for 2010 and 2009, respectively.

Note I--Risks and Uncertainties

The Plan provides for various investment options in any combination of various mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
