Yash Technologies Inc. 401 (k) Profit Sharing Plan
Notes to Financial Statements and Schedules
December 31, 2009 and 2008

Note 1 – **Description:**

The following description of the Yash Technologies 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan document.

General
The Plan is a defined contribution plan established by Yash Technologies, Inc. (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. All employees of the Company are eligible to participate, provided they are at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Administration
The Plan is administered by Company Management which is appointed by the members of the Company. The Plan's trustee, Nationwide Insurance Company (the "Trustee"), is responsible for the custody and management of the Plan's assets. The Pension Specialists Ltd. is a third party service provider that provides pension administration services for the Plan.

Contributions
Eligible employees can contribute any amount of their compensation as defined by the Plan, subject to certain limitations under the IRC. The Company provides matching contribution, which may be made on a discretionary basis, dependent on the Company's operating results. The participant contributions and the Company contributions are allocated to funds as the participant directs.

Vesting
Participants are fully vested in their contributions and the earnings thereon. Vesting in employer matching contributions and the earnings thereon is based on years of continuous service. A participant vests according to the following schedule:

Less than one year	0%
One year	25%
Two years	50%
Three years	75%
Four years	100%

Forfeitures are allocated to employees based on asset balances.

Note 1 – **Description: (Continued)**

Payment of Benefits
On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participants vested account balance. In addition, hardship distributions are permitted if certain criteria are met.

Participant Accounts
Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of income and expenses are based on the proportion that each participant's account balance bears to the total of all participant account balances.

Participant Loans
A participant may borrow from his or her account a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest to be determined by the administrator. Principal and interest are paid through payroll deductions.

Note 2 – **Summary of Significant Accounting Policies:**

Basis of Accounting and Use of Estimates
The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Income Recognition
Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Investment Valuation
The Plan's investments are stated at a fair value. If available, quoted market prices are used to value investments.

Note 2 – **Summary of Significant Accounting Policies: (Continued)**

Net Appreciation and Depreciation in Fair Value of Investments
Net realized and unrealized appreciation is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Net realized and unrealized depreciation is recorded in the accompanying statement of changes in net assets available for benefits as net depreciation in fair value of investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Concentration of Credit Risk
Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holding in the Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
All expenses of maintaining the Plan are paid by the Company.

Note 3– **Investments:**

The Plan's investments are held in a pooled separate account at Nationwide Life Insurance Company. Participants are allowed to allocate contributions to a selection of mutual funds or money market account in the pooled separate account. The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2009.

Janus Forty S	$	176,897
Nationwide Money Market Inst	$	577,678
Janus Overseas Fund S	$	117,140

Note 4– **Fair Value Measurements:**

As of the beginning of the Plan year ended December 31, 2008, the Plan implemented FASB 157, *Fair Value Measurements*. FASB 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB 157 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Note 4– **Fair Value Measurements (cont.):**

Pooled Separate Accounts: Valued at the fair value of the underlying securities held by the Plan at the end of the year.

Mutual Funds: Valued at the net asset value of shares held by the plan at year end.

Participant Loans: Valued at their outstanding balances, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2009.

Total Plan investments at fair value classified within level 3 were $3,462, as of December 31, 2009, which consists of the Plan's loans to participants. Such amounts were approximately 0.2% of total investment assets on the Plan's statements of net assets available for benefits at fair value as of December 31, 2009.

Description	12/31/09	Level 1	Level 2	Level 3
Pooled Separate Accounts:	$ 1,796,658	$ 1,796,658	$ 0	$ 0
Loans to Participants	3,462	0	0	3,462
	$ 1,800,120	1,796,658	0	3,462

	12/31/08	Level 1	Level 2	Level 3
Pooled Separate Accounts:	$ 1,328,963	$ 1,328,963	$ 0	$ 0
Loans to Participants	9,393	0	0	9,393
	$ 1,338,356	$ 1,328,963	$ 0	$ 9,393

Note 5– **Tax Status:**

The Plan utilizes the Pension Specialists Ltd. prototype non-standardized profit sharing plan with CODA. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 indicating that the Pension Specialists, Ltd. prototype plan is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the prototype plan and therefore in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2009 and 2008.

Note 6– **Plan Termination:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.
