Payment of Benefits

Benefits are recorded when payable.

Plan Expenses

Forfeited Accounts

Per the plan, forfeitures of employer matching contributions will be used to reduce administrative expenses then any remaining forfeitures will supplement employer contributions. At December 31, 2010 forfeited non-vested accounts totaled $514.

Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
