1. Summary of Significant Accounting Policies

General

The Pacific Rim Mechanical Contractors, Inc. 401(k) Plan (the "Plan") financial statements are prepared using the accrual basis of accounting in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Investments

The Plan's investments are stated at fair value. Accounting Standards Codification Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted market prices for similar assets in active markets.

Quoted prices for identical or similar assets in inactive markets.

Inputs other than quoted market prices that are observable for the asset.

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes to the methodologies used at December 31, 2010 and 2009.

Investments in registered investment companies are valued at the net asset value of shares held by the Plan at year-end.

Investments in group annuity contracts are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2010 and 2009:

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Assets at Fair Value as of December 31, 2010 | | | | |

Notes Receivable From Participants

Notes receivable from participants are valued at unpaid principal plus any accrued, but unpaid, interest. Interest income is recognized as it is earned. Notes receivable from participants are determined to be uncollectible if the note has been in default for over 90 days. Uncollectible notes receivable from participants are treated as distributions to the participants.

Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events and Transactions

The Plan has evaluated events and transactions through September 14, 2011 (the date the financial statements were available to be issued), for items which might require recognition or disclosure in the financial statements.

2. Plan Description

General

The following description of the Plan provides only general information. The Plan Agreement provides a complete description of the Plan. The Plan is a defined contribution plan covering eligible employees of Pacific Rim Mechanical Contractors, Inc. (the "Employer").

Eligibility

Employees become eligible to participate in the Plan upon the attainment of 18 years of age and the completion of two months of service.

Contributions

Participants may elect to contribute a percentage of their compensation each year. The Plan provides for automatic participant contributions equal to 4% of compensation. The Employer may elect to make matching discretionary contributions and other discretionary contributions. The Plan provides for classification based matching contribution rates.

For the years ended December 31, 2010 and 2009, the employer made matching discretionary contributions for field hourly employees equal to 50% of the participants' contributions based on up to 4% of the participants' compensation. For the year ended December 31, 2009, the employer made matching discretionary contributions for office and salaried employees equal to 50% of the participants' contributions based on up to 4% of the participants' compensation. For the year ended December 31, 2010, the employer made no matching discretionary contributions for office and salaried employees.

For the years ended December 31, 2010 and 2009, the employer made other discretionary contributions under the Davis Bacon Act of $1,015,638 and $654,395, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching discretionary contributions, other employer discretionary contributions and Plan earnings or losses. Allocations of other employer discretionary contributions are based on compensation, as defined. Allocations of Plan earnings or losses are based upon account balances, as defined. Participants may direct transfers of amounts in their account between various investment alternatives.

Vesting

Participants are fully vested with respect to employee deferral contributions and employer contributions under the Davis Bacon Act. Participants vest in the remainder of their account as follows:

| Years of Service | Percentage Vested |
|---|---|
| 1 | 25 |
| 2 | 50 |
| 3 | 75 |
| 4 | 100 |

Notes Receivable From Participants

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. Notes receivable from participants are secured by the balance in the participant's account and are due in equal weekly or bi-weekly payments of principal and interest. Notes receivable from participants outstanding at December 31, 2010, bear interest at rates ranging from 4.25% to 9.25% and mature at various dates through November 2025.

Distributions

Upon attaining age 59.5 participants may elect to receive a distribution of their account balance. Participants who terminate employment prior to retirement may also elect to receive a distribution of the vested portion of their account balance. Participants may elect to receive either a lump-sum amount, or installments over a period of time not to exceed the participant's life expectancy or the life expectancy of the participant's spouse.

Forfeitures

The portion of a participant's account that is not vested as of the date of the participant's termination of employment is forfeited. Forfeitures may be used to pay Plan expenses or may be applied as employer contributions. Unallocated forfeitures totaled $81 and $210 as of December 31, 2010 and 2009, respectively. Forfeitures of $32,325 and $66,371 were applied against employer contributions for the years ended December 31, 2010 and 2009, respectively.

Expenses

Plan administration expenses paid by the Employer were $38,005 and $37,863 for the years ended December 31, 2010 and 2009, respectively.

3. Investments

The following investments exceed 5% of the net assets available for plan benefits at either December 31, 2010 or 2009:

| | December 31, | |
|---|---|---|
| | 2010 | 2009 |
| Participant-Directed Investments in Registered Investment Companies | | |
| American Funds Euro Pacific Growth R3 | $1,131,960 | $1,087,448 |
| Maxim Aggressive Profile II | 2,426,044 | 1,906,929 |
| Maxim Moderate Profile II | 3,977,327 | 3,230,818 |
| Participant-Directed Investments in Group Annuity Contracts | 2,215,072 | 2,172,196 |

4. Group Annuity Contracts

Group annuity contracts represent investment contracts with Great-West Life & Annuity Insurance Company (the "Insurance Company") and are comprised of the following:

| | December 31, | |
|---|---|---|
| | 2010 | 2009 |
| Fully benefit-responsive investment contract | $2,215,072 | $2,171,309 |
| Non benefit-responsive investment contract | - | 887 |
| | $2,215,072 | $2,172,196 |

The Insurance Company maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contracts have certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The Insurance Company may not terminate the contracts at any amount less than contract value.

The Insurance Company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the Insurance Company, but may not be less than 0%. The interest rate is reset quarterly.

The fair market value of the group annuity contracts is equal to the contract value. The average yield earned by the Plan on the fully benefit-responsive investment contract was 2.43% and 2.96% for the years ended December 31, 2010 and 2009, respectively

5. Net Assets Available for Plan Benefits

Net assets available for plan benefits includes $801,982 and $966,026 due to terminated participants at December 31, 2010 and 2009, respectively.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to discontinue its contributions at any time and to terminate the Plan subject to provisions of the Employee Retirement Income Security Act of 1974. Upon Plan termination, all participants would become fully vested.

7. Plan Qualification

The Plan has received a letter of determination from the Internal Revenue Service stating that the Plan meets the qualification standards of Internal Revenue Code Section 401. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
