Williams Company Employee Stock Ownership Plan and Trust
Orlando, Florida

We have audited the accompanying statements of net assets (deficit) available for benefits of the Williams Company Employee Stock Ownership Plan and Trust as of December 31, 2010 and 2009, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 PLAN DESCRIPTION

The following brief description of the Williams Company Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

Williams Construction Group, Inc. (the Company) established the Plan effective January 1, 2007. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company's two majority stockholders are the Plan's Trustees.

The Plan purchased Company common stock using the proceeds of a loan from the Company (see Note 7), and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of nine years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010 present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated stock (allocated), and

(b) stock not yet allocated to employees (unallocated).

Eligibility – Employees of the Company aged twenty-one or older are generally eligible to participate in the Plan after three months of service providing they worked at least 250 hours during such period. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits – No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

NOTE 1 PLAN DESCRIPTION – Continued

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Notwithstanding the foregoing, no distribution of Company Stock that was acquired with the proceeds of an "exempt" loan will be made until the close of the Plan Year in which the loan is fully repaid.

Subsequent to December 31, 2010, the Plan was amended to allow payments to terminated participants with account balances of less than $10,000.

Voting Rights – The Trustees shall vote all Company stock held by it as part of the Plan assets. Notwithstanding the foregoing, each participant or beneficiary in the Plan shall be entitled to direct the Trustees as to the manner in which voting rights on shares of Company stock which are allocated to the Company stock account of such participant or beneficiary are to be exercised with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Plan Termination – The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the plan administrator shall direct the Trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting – If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service after two years of service and are 100 percent vested after six years of service.

NOTE 1 PLAN DESCRIPTION – Continued

Put Option – Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Participant Accounts and Forfeiture – Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation of all participants for the Plan year. No cash or shares of stock were forfeited during the year ended December 31, 2010. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash – Cash, which consists of bank deposits, may exceed federally insured limits.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition – The shares of Company common stock are valued at estimated fair value. See Note 6 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses – All expenses of maintaining the Plan may be paid from the Plan unless paid by the Company. Such expenses are deducted from participant accounts pro-rata based on ending cash balances. During 2010, administrative expenses totaling $24,668 were deducted from participant accounts.

Subsequent Events – The Company has evaluated subsequent events through September 09, 2011, the date which the financial statements were available to be issued.

NOTE 3 TAX STATUS

The Internal Revenue Service has determined and informed plan management by letter dated June 16, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 4 ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Williams Construction Group, Inc. common shares, are held by the Trustees of the Plan.

Company contributions are held and managed by the Trustees, which invest cash received, interest, and dividend income and make distributions to participants. The Trustees also administer the payment of interest and principal on the loan, which is reimbursed to the Trustees through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 5 INVESTMENTS

At December 31, 2010 and 2009, the Plan's investments are presented in the following table:

	2010	
	Allocated	Unallocated
Williams Construction Group, Inc. common shares:		
Number of shares	856,667	643,333
Cost	$ 2,570,001	$ 1,929,999
Market value	$ 856,666	$ 643,334

	2009	
	Allocated	Unallocated
Williams Construction Group, Inc. common shares:		
Number of shares	523,334	976,666
Cost	$ 1,570,001	$ 2,929,999
Market value	$ 429,133	$ 800,867

NOTE 6 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

The fair value of the Company's common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of company assets and liabilities.

NOTE 6 FAIR VALUE MEASUREMENTS – Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

	December 31, 2010		December 31, 2009	
	Level 3	Total	Level 3	Total
Investment in sponsor company common stock	$ 1,500,000	$ 1,500,000	$ 1,230,000	$ 1,230,000
Total assets at fair value	$ 1,500,000	$ 1,500,000	$ 1,230,000	$ 1,230,000

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Investment in sponsor company common stock
Balance, beginning of year	$ 1,230,000
Unrealized gains/(losses) relating to instruments still held at the reporting date	270,000
Balance, end of year	$ 1,500,000

NOTE 7 LOAN PAYABLE

In 2007, the Plan entered into a $4,500,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. The loan bears interest at 6% per annum. The agreement provides for the loan to be repaid over a period of nine years.

NOTE 7 LOAN PAYABLE – Continued

At December 31, 2010, the loan payable matures as follows:

2011	$ 500,000
2012	500,000
2013	500,000
2014	430,000
	$ 1,930,000

NOTE 8 EMPLOYER CONTRIBUTIONS

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's earnings from dividends and interest, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.
