INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
BKF Engineers Money Purchase Pension Plan
Redwood City, California

We were engaged to audit the accompanying statement of net assets available for benefits of the BKF Engineers Money Purchase Pension Plan (the "Plan") as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2010. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statement of net assets available for benefits of the BKF Engineers Money Purchase Pension Plan as of December 31, 2009, and in our report dated October 15, 2010, we expressed our opinion that such financial statement presents fairly, in all material respects, the financial status of the BKF Engineers Money Purchase Pension Plan as of December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

1. Description of Plan

The following description of the BKF Engineers Money Purchase Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by BKF Engineers (the "Company") on April 1, 1975, and was most recently amended and restated effective September 1, 2009 to adopt the Charles Schwab Defined Contribution Plan and Trust No. 1. The Plan is a money purchase pension plan covering all full-time employees of the Company who are employed on the last day of the Plan year and who have worked 1,000 hours or more and have also completed twelve (12) months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and certain provisions of the Internal Revenue Code (IRC).

Plan Administration

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan (including the authority and responsibility to invest, manage, and control the assets of the Plan specifically allocated to the custodian). Charles Schwab Trust Company ("Schwab") is the appointed trustee for the Plan and acts at the direction of the Plan administrator.

Contributions

The Company's contribution is five percent (5%) of the employee's eligible compensation, net of the total amount of forfeitures of the participants who terminated during the year. The contribution may not exceed the amount which is deductible under the provisions of the IRC. The Company made contributions of approximately $830,000 for the year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the employer's contributions and Plan earnings or losses. Employer contributions are allocated based on the participant's eligible compensation. Plan earnings or losses are allocated based upon each participant's account balance. Certain fees are charged to fund investments and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits.

Participant Notes Receivable

Participants are allowed 1 loan at any time and may borrow from their fund accounts a minimum of $1,000 up to 50% of the value of their account balance, or $50,000, between all benefit plans. Loan terms range from 1 to 5 years, except for loans used to purchase a primary residence, which have a maximum term of 10 years. The loans are secured by no more than 50% of the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time the loan originates. The interest rate on participant loans at December 31, 2010 ranged from 1.75% to 3.25%. Principal and interest are paid in equal installments through semi-monthly payroll deductions.

Continued

1. Description of Plan, continued

Payment of Benefits

Distributions and withdrawals are payable upon termination of employment, death, disability, or attaining retirement age (62), as defined in the Plan. Distributions will be in the form of an annuity unless the participant elects to waive the annuity and receive the benefit in the form of a lump-sum. Any participant with a vested account balance which does not exceed $5,000 will automatically receive the benefit payment in the form of a lump-sum distribution.

Vesting

Vesting in the employer contributions is based on periods of service in accordance with a 6-year graded scale as follows:

Years of Service	Vested %
Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Forfeitures

The forfeited, non-vested portion of terminated participants' account balances are used to reduce the employer contribution to remaining participants. As of December 31, 2010 and 2009, forfeited non-vested accounts totaled approximately $8,000 and $38,000, respectively. In 2010, employer contributions were reduced by approximately $8,000.

Plan Administration Expenses

Expenses associated with administering the Plan, such as accounting and legal fees, are paid by the Sponsor Company and, therefore, are not reflected in the Plan's financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value approximated contract value as such no adjustment has been disclosed in these financial statements. (See note 6).

Continued

2. Summary of Significant Accounting Policies, continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $126,524 and $205,322 for the years ended December 31, 2010 and 2009, respectively, from investments to participant notes receivable. Net assets of the Plan were not affected by the adoption of the new guidance.

Investment Valuation and Income Recognition

All investments are recorded at fair value based upon active market values determined by investment advisors as required under ERISA regulations. Investments of the Plan are held in mutual funds, common/collective trusts, notes receivables secured by trust deeds, and an investment in a limited liability company (LLC).

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the valuation period. In accordance with the policy of stating investments at fair value, net realized and unrealized appreciation for the year is reflected in the statement of changes in net assets available for benefits.

Purchases and sales of securities are reflected on a trade date basis. Interest is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recognition of Benefit Payments

Benefits are recorded when paid.

Interest on participant notes receivable	$ 4,366

5. Fair Value Measurements

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under these accounting standards are described below:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: inputs are unobservable inputs for the asset or liability.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Asset at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

Real estate investments	-	-	185,872	185,872
Total assets at fair value	$ 405,812	$ 8,788,210	$ 185,872	$ 9,379,894

5. Fair Value Measurements, continued

	Asset at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Large Cap	$ 52,393	$ -	$ -	$ 52,393
Bond	45,738	-	-	45,738
Small Cap	26,304	-	-	26,304

Mid-Cap	9,539	-	-	9,539
Schwab common/collective trusts:

Stable value fund	-	38,232	-	38,232
Real estate investments	-	-	296,009	296,009
Total assets at fair value	$ 158,181	$ 6,925,873	$ 296,009	$ 7,380,063

The Plan's valuation methodology used to measure the fair values of mutual funds were derived from quoted market prices as substantially all of these instruments have active markets. The common/collective trusts are valued using a blend of the contract's rate of return and the liquidity component's daily rate based on the value of the underlying securities.

Investments with no readily market value include notes receivables secured by trust deeds and a LLC. The notes receivables secured by trust deeds are carried at the principal balance due on the notes and the investment in a LLC is stated at the value of the LLC's capital account adjusted for loan loss reserves of approximately $53,000 and $40,000 in 2010 and 2009, respectively.

Security transactions are accounted for on the trade date (date the securities are purchased or sold). Interest income is accounted for and reported on the accrual basis. Participants' units are admitted to or withdrawn from each Fund only on valuation dates. All income and loss recorded by the Funds, including unrealized gains and losses, are retained in the Funds to be included in the monthly calculation of unit valuations.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Loans Secured by Deeds of Trust	LLC
Balance as of January 1, 2010	$ 199,806	$ 96,203
Income, loss, issuances, repayments and settlements - net	(100,028)	(10,109)
Balance as of December 31, 2010	$ 99,778	$ 86,094

6. Investment Contracts with Schwab Trust Company

The Plan holds common/collective investment contracts (CCT) – the Schwab Stable Value Select Fund that invest in guaranteed investment contracts, which are considered benefit-responsive investment contracts. Schwab maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the contract at December 31, 2010 and 2009 was $12,747 and $38,232, respectively. The fair values approximated contract value as such no adjustment has been recorded in these financial statements.

For 2010 the average yield and crediting interest rates were 2.26% and 2.73%, respectively. For 2009 the average yield and crediting interest rates were 2.65% and 3.06%, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Fund to transact at contract value with contract issuers for participant benefit payments or investment transfers such as premature termination of the contract by the Plan or termination of the Plan, such events are not probable.

7. Related Party Transactions

Certain Plan investments in mutual funds and CCTs are managed by Schwab, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

8. Tax Status

The Plan is a defined contribution plan designed to qualify as a tax exempt plan under the IRC. The Plan has adopted a prototype Plan document which has obtained an opinion letter dated May 23, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving that opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed as described in the Plan agreement.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through October 10, 2011 the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2010 that require recognition or disclosure in such financial statements.
