1. Summary of Accounting Policies

Basis of Accounting

The financial statements of the LSBZ, Inc. ZaZu 401(k) Plan (the "Plan") have been prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States.

New Accounting Prononucements

Effective January 1, 2010, the Plan adopted the Financial Accounting Standards Board ("FASB") guidance that requires participants' loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principle balance plus any unpaid interest. The Plan has reclassified participant loans of $80,917 and $84,697 at December 31, 2010 and 2009, respectively, from investments to notes receivable from participants.

In January 2010, the FASB issued guidance that requires reporting entities to make new disclosures about recurring or nonrecurring fair value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurement and information on purchases, sales, issuance, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The guidance is effective for annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures that are effective for periods beginning after December 15, 2010. The adoption of this guidance did not have a material impact on the financial statements. The guidance also clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan evaluated subsequent events through September 27, 2011 the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Investments and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market price, which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at the outstanding loan balances, plus accrued interest, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to mutual fund investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

1. **Summary of Accounting Policies (Continued)**

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted ("GAAP") in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Administrative Expenses

The costs incurred in the administration of the Plan are paid for by the Plan.

2. **Plan Description**

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by LSBZ, Inc. (Plan Administrator and Sponsor) on March 1, 1999. The Plan Administrator maintains all necessary employment records and determines participant eligibility.

Participation and Vesting

Substantially all employees of LSBZ, Inc., Za-Zu Designs, Inc., Zazu Design, Inc., SAM LLC, and Hush LLC (collectively the "Company") become eligible to participate in the Plan beginning on the first day of January, April, July or October; following attainment of twenty-one years of age and completion of one year of service. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. Vesting begins with 20% after one year of service and continues to vest in 20% increments for each year of service thereafter, with full vesting after five years of service.

Payments of Benefits

Upon termination of services due to death, disability, or retirement, participants may elect to take a lump-sum distribution, a series of equal installments over a period not exceeding participant's life expectancy or joint life expectancies of the participant and his or her beneficiaries. Benefits are recorded when paid. Returns of excess contributions are recorded as a liability in the year of contribution, and are treated as benefits paid.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, and (b) Plan earnings/ (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options

During 2010, the Plan has changed third party administrators and investment custodians. As of December 31, 2010, the Company maintains investment funds with Mid Atlantic Trust Company. A participant may maintain their entire account in one of the investment funds or may elect to split their account among investment funds in accordance with the terms of the Plan.

2. **Plan Description (Continued)**

Company Contribution

The Plan allows for contributions to be made at the discretion of Company management. For the year ended December 31, 2010, the Company made no additional contributions.

Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, subject to the maximum allowable contribution as established by the Internal Revenue Code ("the Code"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers eighteen mutual funds as investment options for participants.

Forfeitures

Forfeitures are determined as of the end of the Plan year, during which the former participant received full payment of their vested account balance. These accounts will first be used to reduce the Company's matching contribution. Any remaining forfeitures will be added to the Company's matching contribution. Finally, any remaining forfeitures will be used to offset Plan administration expenses. At December 31, 2010 and 2009 forfeited non-vested accounts totaled zero.

Participant Loans

The Plan allows participants to take out loans secured by their vested account balance. Participants may borrow from a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans will be charged the prime interest rate plus 2%, and must be repaid within five years, unless used to purchase the participant's principal residence.

3. **Investments**

The following table presents the fair value of investments at December 31 that represent 5% or more of the Plan's net assets. The Plan does not have any non-participant directed investments.

	2010	*2009*
Investments at Fair Value:		
Schwab Retirement Money	$ *	$ 68,601
Pioneer Cullen Value	*	108,026

Black Rock Equity	154,282	*

* - Represents less than 5% of Net Assets

During 2010, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $161,983.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs consist of significant unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. At December 31, 2010 and 2009 all of the Plan's investments were valued using Level 1 inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds and interest bearing cash is based on quoted net asset values of the shares held by the Plan at year-end.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

Assets at fair value at December 31, 2010:

	Level 1	Level 2	Level 3	Total

Balanced funds	8,925	-	-	8,925
Total	$1,215,507	$ -	$ -	$1,215,507

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Income Tax Status

Effective April 1, 2010, the Plan adopted a non-standardized prototype plan of Paychex, Inc. The prototype plan has received a letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status; determining that the Plan is designed in accordance with applicable laws with the Code. The Plan has since been amended since receiving the determination letter, however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

In line with GAAP, the Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs consist of significant unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. At December 31, 2010 and 2009 all of the Plan's investments were valued using Level 1 inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds and interest bearing cash is based on quoted net asset values of the shares held by the Plan at year-end.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Income Tax Status

Effective April 1, 2010, the Plan adopted a non-standardized prototype plan of Paychex, Inc. The prototype plan has received a letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status; determining that the Plan is designed in accordance with applicable laws with the Code. The Plan has since been amended since receiving the determination letter, however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

In line with GAAP, the Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
