REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator of the
Albany Molecular Research, Inc. 401(k) and Profit Sharing Plan

We were engaged to audit the financial statements of the Albany Molecular Research, Inc. 401(k) and Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 — PLAN DESCRIPTION

The following description of the Albany Molecular Research, Inc. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Albany Molecular Research, Inc. (the "Company"). Employees become eligible when they have completed 30 days of service and have reached 20-1/2 years of age. Interns and temporary employees are considered ineligible unless they satisfy certain age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan allows employees to make pre-tax contributions subject to certain limitations, under Section 401(k) of the Internal Revenue Code.

Contributions

Each eligible employee can elect to make salary deferral contributions into the Plan up to 100% of their eligible compensation, subject to IRS limitations. The Company may make a matching contribution equal to 50% of the participant's elective contributions. This matching contribution cannot exceed 5% of the employee's total eligible compensation. The Company can also make a voluntary contribution for the benefit of eligible employees. A participant will generally share in the Company contribution for any month in which the participant also made an elective contribution. Forfeitures of employer matching contributions are used to reduce the employer contribution or used to pay Plan expenses. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contribution, if any, (b) the Company's matching contribution on their deferrals, if any, (c) Plan net earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral and rollover contribution accounts, and net earnings thereon. Vesting in the Company's matching contributions and related Plan net earnings is based on years of continuous service. After completing two years of credited service, a participant vests in the Company matching contribution at the rate of 20% per year, becoming 100% vested after six years of credited service. Terminated participants who are rehired within five years are credited with prior service years. Participants also become 100% vested in the Company's matching contributions and related Plan net earnings upon a participant's termination due to a change in control of the Company.

Participant Loans Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 or (b) 50 percent of their vested account balance. Loan terms range up to five years or longer when for the purchase of a primary residence. The loan is collateralized by the balance in the participant's account and bears interest commensurate with local prevailing rates as determined by the plan administrator. Interest rates on existing loans range from 4.25% to 9.25% at December 31, 2010. Principal and interest is paid ratably through payroll deductions.

NOTE 1 — PLAN DESCRIPTION (Continued)

Forfeitures

At December 31, 2010 and 2009, forfeited accounts totaled $479,718 and $345,756, respectively. These amounts will be used to pay future administrative expenses and reduce future employer contributions. During the year ended December 31, 2010 $750 of forfeited accounts were used to pay plan administrative expenses.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant's distribution will be in the form of a lump-sum distribution of the participant's vested interest in his or her account, or an alternate form of payment, if permitted by the Plan, at the time of the distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Pooled separate accounts, which have various investment options, are valued at the unit value of shares held by the Plan in the separate investment accounts at year-end. The investment contract with an insurance company is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations. The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of its investments includes realized gains or losses and unrealized appreciation (depreciation) on those investments.

Participant Loans Receivable

Participant loans receivable are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The plan sponsor pays for all plan fees except as noted below and also pays the plan audit fees. The fees paid from the Plan assets are loan initiation charges and participant activity charges which include benefit processing, installment payment charges, and annuity payment charges.

Recent Accounting Pronouncement

In September 2010, the Financial Accounting Standards Board issued guidance that requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as receivables from participants. Previously, participant loans were measured at fair value and classified as investments. The adoption of this guidance did not have a material effect on the financial statements. As a result of the adoption of the new guidance, the Plan retrospectively classified participant loans as receivables from participants.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2011, the date the financial statements were available to be issued.

NOTE 3 — PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of pooled separate accounts managed by an insurance contract with Massachusetts Mutual Life Insurance Company (MassMutual). The Plan also has an investment contract with MassMutual. MassMutual is the Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loan transactions also qualify as party-in-interest.

NOTE 4 — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of a termination, participants will become 100% vested in their account balance.

NOTE 5 — INFORMATION CERTIFIED BY PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009 and the schedule of assets held for investment purposes as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE 5 — INFORMATION CERTIFIED BY PLAN'S TRUSTEE (Continued)

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Year ended December 31, 2010
Pooled separate accounts	$ 6,463,559

Investment Contract with Insurance Company

The Plan has entered into a benefit responsive investment contract with MassMutual in order to provide a guaranteed interest investment option. As described in Note 2, because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported by MassMutual, represents contributions, plus earnings, less withdrawals. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rates are set semi-annually, based on the assets of the underlying general investment account of MassMutual. The minimum crediting interest rate included in the contract is 3%. Certain events limit the ability of the Plan to transact at contract value with MassMutual. Such events include but may not be limited to: partial or complete termination of the Plan, plan disqualification, breaches of a provision of the investment contract by the Company or notification of premature termination of the investment contract by the Company or MassMutual. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Participant-initiated events are ordinarily treated at contract value. The Plan's investment contract with MassMutual had an average yield based on actual earnings for the years ended December 31, 2010 and 2009 of 3.00% and 3.50%, respectively, and an average yield based on interest rate credited to participants of 3.00% and 3.50%, respectively.

NOTE 6 — FAIR VALUE MEASUREMENTS

The fair value of an asset or liability is defined in guidance issued by the FASB as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. Current accounting guidance establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety.

NOTE 6 — FAIR VALUE MEASUREMENTS (Continued)

The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs are based upon unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs are based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, other significant observable inputs, or other inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

See Note 2 for a description of the valuation methodologies used for the Plan's assets that are measured at fair value.

The following table presents the Plan's assets measured at fair value and the level within the fair value hierarchy in which the fair value measurements fell as follows:

		Fair value measurements as of December 31, 2010 using		
	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Pooled separate accounts	$48,719,266	$ -	$48,719,266	$ -

	$47,846,485	$ -	$40,292,463	$7,554,022

NOTE 6 — FAIR VALUE MEASUREMENTS (Continued)

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Investment contract with insurance company
Balance, beginning of year	$7,554,022
Net unrealized gains	306,183
Purchases, sales, issuances and settlements (net)	1,920,031
Balance, end of year	$9,780,236

NOTE 7 — TAX STATUS

On May 11, 2009, the Internal Revenue Service (IRS) stated that the volume submitter adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC); however, the volume submitter has been amended since that date. The Plan has requested but not yet received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

The U.S. Department of Labor (DOL) conducted an examination of the Plan and activities of the Company, as a Plan fiduciary, covering plan years 2006 through 2009. Pursuant to DOL Regulation 29 CFR Section 2510.3-102, the plan sponsor is required to segregate employee contributions to the plan from its general assets as soon as is practical but in no event more than 15 business days following the end of the month in which amounts are withheld from wages. The DOL examination identified that the Company could reasonably have remitted employee contributions to the Plan within 3 business days after the pay date, and that during plan years 2006 through 2009 there were 35 instances for a total of $5,394,500 in which participant contributions and loan repayments were remitted to the Plan within 4 to 9 business days after the pay date, which is considered to be in violation of DOL regulations. Further the Company identified 4 instances in 2010 for a total of $727,100 in which participant contributions and loan repayments were remitted to the Plan within 4 to 9 business days after the pay date, which is considered to be in violation of DOL regulations. In March 2010, the Company completed remedial actions to correct this matter including corrective contributions to the Plan, approximating $3,600, to compensate participants for lost earnings.

NOTE 8 — RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 as follows:
