SMOKIN JOES RETIREMENT PLAN
Notes to Financial Statements
December 31, 2010 and 2009

(1) Description of Plan

The following description of the Smokin Joes Retirement Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution 401(k) plan sponsored by Joseph M. Anderson d/b/a Smokin' Joe's (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees of the Company must be at least 21 years of age and have completed one year of service to be eligible to participate in the Plan.

(b) Contributions

The Plan provides for participant pre-tax contributions of compensation, as defined, up to the maximum annual limitations allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company has a discretionary matching contribution in which it contributes 25% of each participant's elective contribution, up to the first 6% of the participant's eligible compensation.

In addition, the Company may make a discretionary profit sharing contribution in an amount determined at the end of the Plan year by management. The profit sharing contribution is allocated to participants based upon their percentage of compensation to total participants' compensation. The Company did not make a discretionary profit sharing contribution for the years ended December 31, 2010 and 2009.

Participants direct all contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

(c) Participant Accounts

A separate account is established for each participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and charged with an allocation of investment and administrative expenses. Allocations are based on the participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum of $50,000, not to exceed 50% of the vested account balance. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant will be paid in one lump sum in the form of a cash distribution, direct rollover distribution, or a combination of cash and direct rollover distribution.

(g) Forfeited Accounts

Forfeitures of non-vested employer contributions, which remain after an employee has terminated employment, shall be used first to pay administrative expenses under the Plan and then to reduce future employer contributions payable to the Plan. Forfeitures for the years ended December 31, 2010 and 2009 amounted to $827 and $215, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes both the Plan's realized and unrealized gains and losses incurred during the year.

(2) Summary of Significant Accounting Policies, Continued

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

(g) Subsequent Events

The Plan has evaluated events after December 31, 2010, and through August 31, 2011, which is the date the financial statements were available to be issued, and determined that any events or transactions occurring during this period that would require recognition or disclosure are properly addressed in these financial statements.

(3) Investments

Individual investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

	2010	2009
Fidelity Advisor Equity Growth Fund	$ 224,749	158,822
Fidelity Advisor Growth and Income Fund	198,040	144,108
Fidelity Advisor Intermediate Bond Fund	145,081	130,741
Fidelity Advisor Balanced Fund	78,671	56,934
Fidelity Advisor Growth Opportunities Fund	73,916	55,783
Fidelity Advisor Small-Cap Fund	60,325*	46,912

* Under 5% threshold; for comparative purposes.

During the years ended December 31, 2010 and 2009, the Plan's investments (including gains and losses on securities bought, sold, as well as held during the years) appreciated in value by $131,292 and $160,406, respectively.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

(4) Fair Value Measurements, Continued

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

- Mutual funds - Valued at the net asset value of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Money market	$ 69,781	-	-	69,781
Equity funds	915,077	-	-	915,077
Fixed income fund	145,081	-	-	145,081
	$ 1,129,939	-	-	1,129,939

(4) Fair Value Measurements, Continued

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Fixed income fund	130,741	-	-	130,741
	$ 838,746	-	-	838,746

(5) Information Certified by the Plan's Trustee

The financial information relating to the Plan's assets at December 31, 2010 and 2009, as well as investment income and investment transactions for the years then ended, have been derived from information provided by Fidelity Management Trust Company (Fidelity) and have been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

	2010	2009
Mutual funds, at fair value	$ 1,129,939	838,746

The trustee also certified to the completeness and accuracy of $131,292 and $160,406 of net appreciation in fair value of investments and $9,721 and $7,274 of interest and dividend income related to the aforementioned investments for the years ended December 31, 2010 and 2009, respectively.

(6) Party-In-Interest Transactions

Fidelity is the trustee of the Plan. Investments include mutual funds sponsored by Fidelity; therefore, these transactions qualify as party-in-interest. Fees paid to Fidelity for the investment management services amounted to $1,225 and $1,375 for the years ended December 31, 2010 and 2009, respectively.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

(8) Tax Status

The Plan and related trust were established under a prototype plan that received a favorable tax determination letter dated January 28, 2002, from the Internal Revenue Service indicating the features of the Plan, as then designed, conform with the requirements of Section 401(k) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
