INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants in the
Cooper-Standard Automotive FHS –
Newlex Hourly Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Cooper-Standard Automotive FHS – Newlex Hourly Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule H, line 4(i) – schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by PNC Bank, N.A., the current custodian of the Plan, and Wystar Global Retirement Solutions, a division of Wachovia Bank, N.A., the former custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the current custodian as of and for the period from October 1, 2010 to December 31, 2010, and the former custodian from January 1, 2010 to September 30, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the current and former custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NEWLEX HOURLY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

Note 1-Description of the Plan

The following description of the the Cooper-Standard Automotive FHS - Newlex Hourly Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated effective January 1, 2010 is a defined contribution plan covering all employees of Cooper-Standards Automotive FHS (the "Plan Sponsor") – Newlex division who are union members of UAW Local 1686 become eligible to participate in the Plan on the first day of the month immediately following the completion of 90 days of service. Certain net assets of the Plan are held in a Master Trust established by Cooper-Standard Automotive. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute 2% to 25% of their base salary. A participant may designate savings as before-tax savings, after-tax savings, or any combination of the two. Participants direct their contributions to any of the Plan's investment fund options.

The Plan Sponsor contributes a "fixed matching contribution" of 45% on the first 6% of a participant's contribution.

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings.

Vesting

The participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion plus earnings thereon is based on years of continuous service. The participants are vested in the Plan Sponsor's contributions at 20%, 40%, 60%, 80% and 100% after 1, 2, 3, 4, and 5 years of credited service, respectively.

Participant withdrawals

In the event of retirement, attainment of age 59 ½, death, termination, total and permanent disability or other severance from employment, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Payment of benefits may be taken in a lump sum distribution or in installments.

In the event of hardship, as defined, participants may take a distribution from their accounts, in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

NEWLEX HOURLY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2010 and 2009**

Note 1-Description of the Plan—continued

Notes receivable from participants

Participants may borrow the lesser of 50 percent of the vested value of their entire account or \$50,000. Only two outstanding notes receivable are permitted at any time and the note receivable repayment schedule can be no longer than 5 years or for less than \$1,000. The interest rate is established based on the Prime Rate. Principal and interest is paid ratably through payroll deductions. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest.

Termination of the plan

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Reorganization of the Plan Sponsor

On August 3, 2009, the Plan Sponsor filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. The Plan Sponsor obtained a commitment of Debtor in Possession Financing in order to continue normal operations. Effective May 27, 2010, the Plan Sponsor's reorganization plan was approved and the Company successfully exited Chapter 11 bankruptcy. The Plan Sponsor does not believe the reorganization will have any impact on its ability to make required contributions to the Plan.

Note 2-Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Participant withdrawals are recorded upon distribution.

Valuation of Investments and Income Recognition

Money market funds are valued using amortized cost which approximates fair value. Mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year end.

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements for the underlying assets of the Master Trust.

**COOPER-STANDARD AUTOMOTIVE FHS –
NEWLEX HOURLY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2010 and 2009**

Note 2-Summary of significant accounting policies—continued

Valuation of Investments and Income Recognition—continued

The Plan also invests in fully benefit-responsive investments which include the ABN AMRO Income Plus Fund. Financial Accounting Standards Board (FASB) guidance, “Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide” and “Defined-Contribution Health and Welfare and Pension Plans” require that investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FASB guidance, the statement of net assets available for benefits presents the fair value of the investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fully benefit-responsive investment fund and investment contracts are recorded at fair value and adjusted to contract value. Contract value represents investment contracts at cost plus accrued interest income less amounts withdrawn to pay benefits.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Accounting for uncertainty in income taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

New accounting pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended FASB Accounting Standards Codification (ASC) Topic, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. The adoption of this standard did not have a material impact on the Plan’s financial statements.

In September 2010, the FASB issued Accounting Standards Update 2010 – 25, *Reporting Loans to Participants by Defined Contribution Plans* (ASU 2010-25). ASU 2010-25 amended FASB ASC Topic, *Plan Accounting – Defined Contribution Pension Plans*, to clarify the classification and measurement of participant loans by defined contribution pension plans. This guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This guidance was effective for periods ending after December 15, 2010, with early adoption permitted. This guidance requires retrospective application to all periods presented.

This guidance was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting the new guidance. The adoption resulted in a reclassification of participant loans totaling \$108,378 and \$84,997 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Subsequent events

The Plan Sponsor has evaluated all events subsequent to the statement of net assets available for benefits date of December 31, 2010, through September 28, 2011, which is the date these financial statements were issued, and has determined there are no subsequent events that require disclosure under the FASB ASC Topic, *Subsequent Events*, that have not been disclosed.

Reclassification

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation. These reclassifications have no effect on the previously reported net assets available for benefit.

As of December 31, 2010, and for the period from October 1, 2010 through December 31, 2010, the assets of the Plan are held by the current custodian, PNC Bank, N.A. As of December 31, 2009, and for the period from January 1, 2010 to September 30, 2010, the assets of the Plan were held by Wyster Global Retirement Solutions, a division of Wachovia Bank, N.A., former custodian.

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2010, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest, dividends and other for the year ended December 31, 2010, were obtained or derived from information supplied to the Plan Sponsor and certified by the current and former custodian, as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

FASB ASC Topic, *Fair Value Measurements*, defines fair value, establishes a framework on measuring fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan accounts for certain financial assets at fair value under various accounting literature.

Note 3-Investments-continued

In accordance with the standard, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into the three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within the different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the statement of net assets available for benefits are categorized based on the inputs to the valuation techniques as follows:

- Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.
- Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
- a. Quoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c. Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
 - d. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation of other means for substantially the full term of the asset or liability.
- Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4-Master Trust

Wachovia Bank, N.A. was the custodian of the Cooper-Standard Automotive Master Savings Trust ("Master Trust"). Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating Plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating Plans are maintained. The net investment income (loss) and administrative expenses of the investment assets is allocated by the custodian to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating Plans.

Certain of the Plan's participants previously participated in plans that were sponsored by either Cooper Tire & Rubber Company or ITT Industries. Those plans permitted investments in funds containing the sponsors' common stock. The Cooper-Standard Automotive Investment Savings Plan does not permit contributions to these stock funds.

All investments were transferred out of the Master Trust on May 4, 2010 and there were no assets held in the Master Trust at December 31, 2010.

Note 5-Fully benefit-responsive investment contracts

In December 2008, the Plan began investing in the Income Plus Fund, a sub-fund of the ABN AMRO Pooled Trust Fund for Employee Benefit Plans Income Plus Fund (ABN AMRO Fund), which is a fully benefit-responsive investment offered by the Plan and held outside the Master Trust. The ABN AMRO Fund has separately audited financial statements which provide additional information on this fully benefit-responsive investment fund. The ABN AMRO Fund primarily invests in guaranteed investment contracts (GICs), money market funds, money market instruments, repurchase agreements, private placements, bank investment contracts and synthetic GICs (wrapper contract). The ABN AMRO Fund is presented as the common/collective trust on the accompanying financial statements.

In a traditional GIC, the ABN AMRO Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Fund owns fixed-income investments and enters into a wrap contract from high-quality insurance companies, banks or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates.

Note 5-Fully benefit-responsive investment contracts-continued

Each wrap contract obligates the wrap provider to maintain the “contract value” of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement).

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the wrapper contract value are represented on the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value". If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. And if the Adjustment from Fair Value to Contract Value figure is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the plan, a material adverse change to the provisions of the plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Rate Information

The average yield for the ABN AMRO Fund was approximately 2.05% for 2010. The ABN AMRO Fund crediting interest rate was approximately 2.19% and 2.37% at December 31, 2010 and 2009, respectively. The crediting interest rate reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

Note 6-Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated May 26, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Note 7-Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
