Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following description of Dunlap Community Hospital 403(b) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that provides benefits to all eligible employees of Dunlap Community Hospital (the "Hospital") as determined according to the provisions of the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants are eligible to contribute to the Plan immediately. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan also permits rollover contributions subject to approval by the plan administrator.

The Plan provides for employer matching contributions of 50 percent of the participant's contribution not to exceed 6 percent of the employee's deferred compensation. The Hospital may also make a discretionary contribution to the Plan. Employees are eligible to receive employer matching and discretionary contributions upon reaching age 18 and completing one month of service.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Vesting in the Hospital's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Hospital 20 percent after one year of service, an additional 20 percent after two years of service, and another 20 percent per year thereafter until they become fully vested after five years of service. Participants are immediately 100 percent vested in employee and rollover contributions and any income or loss thereon.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description (Continued)

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

The Plan allows for distributions pertaining to hardship and in-service withdrawals. A participant must be 100 percent vested in order to receive an in-service withdrawal.

Forfeitures - If a participant is not fully vested on his or her termination date, the non-vested portion of the account is forfeited. Forfeitures are used to reduce future Hospital contributions or expenses paid. At December 31, 2010 and 2009, forfeited account balances totaled \$6,530 and \$681, respectively.

Termination - While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The money market funds are valued at their outstanding balances, which approximates fair value. The mutual funds are valued at fair value based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Hospital.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 21, 2011, which is the date the financial statements were available to be issued.

New Accounting Pronouncement - During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard would be adopted retroactively; however, the Plan had no outstanding participant notes receivables as of December 31, 2009. Therefore, the adoption of this standard had no impact on the Plan's net assets as of December 31, 2009.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Note 3 - Unaudited Information

Reliance Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related investment transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments are as follows:

	2010	2009
Mutual funds:		
American Beacon Large Cap Value Fund I	\$ 288,413	\$ 164,202
American - The Growth Fund of America R4	283,959	164,077

Metropolitan Total Return Bond Fund	399,229	202,498
Vanguard 500 Index Fund Investor	230,378	113,869

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Dunlap Community Hospital 403(b) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 4 - Fair Value Measurements (Continued)

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's policy is to recognize transfers in and transfers out of the Level 1, 2, and 3 fair value classifications as of end of the reporting period.

(1) Short-term investments are valued at \$1.00/unit, which approximates fair value. Amounts are generally invested in interest-bearing accounts.

Note 5 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for 403(b) plan determination letters. The plan administrator has indicated the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 6 - Late Contributions

During 2011, the Plan identified approximately \$145 of participant contributions which were remitted to the Plan after the Department of Labor's required timeframe. The plan sponsor remitted in 2011 a total of \$240 to the Plan, which consisted of the \$145 of participant contributions, \$89 for the related employer match contributions, and \$6 of loss earnings.
