NOTE 1 - DESCRIPTION OF PLAN:

The following description of the Anderson Pacific Engineering Construction, Inc. ("Company") Money Purchase Pension Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company, except employees covered by a collective bargaining agreement, certain nonresident aliens and leased employees, with eligibility commencing on the date of hire. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, the Company must make an annual contribution of 10% of eligible compensation.

Participant Accounts - Each participant's account is credited with (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - A participant that terminated prior to January 1, 2008 is subject a six year graded vesting schedule.

Effective January 1, 2008, participants will have a fully vested and nonforfeitable interest in their respective participant account at all times.

Participant Notes Receivable - Participants may borrow from their fund accounts up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Participant loans must be repaid within 5 years (unless the loan is to be used in acquiring the participant's principal residence). The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is generally paid ratably through weekly payroll deductions, but must be made at least quarterly.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a joint and survivor annuity, or other specified alternative forms of payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Effective January 1, 2008, payment of distribution will be made as soon as administratively feasible after the end of the Plan year and after all contributions have been allocated to all participant accounts relating to the Plan year the participant account balance becomes distributable.

Forfeitures - Any forfeitures remaining due to participants terminating employment before becoming fully vested will, per the Plan amendment effective January 1, 2006, will be allocated to all participants eligible to share in the allocations in the same proportion that each participant's compensation for the Plan year bears to the compensation of all participants for such year.

NOTE 1 - DESCRIPTION OF PLAN (continued):

Subsequent Events – Management of the Company has evaluated events and transactions subsequent to December 31, 2010 for potential recognition or disclosure in the financial statements. The Company did not have subsequent events that required recognition or disclosure in the financial statements for the year ended December 31, 2010. Subsequent events have been evaluated through the date the financial statements became available to be issued, October 10, 2011.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Corporate stocks, U.S. government securities, corporate debt instruments and mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at cost that approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefit payments are recorded when paid.

Risks and Uncertainties – The Plan assets are invested in various investment options in money market funds, government securities, corporate bonds, common stock, preferred stock, and other assets. These investment options are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with these investment options and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term that could materially affect the participants' account balances and the amounts reported in the accompanying financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS:

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset of liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Corporate stocks, U.S. government securities, corporate debt instruments and mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Other Assets: Other investments are valued at the estimated amount as of the year end as reported by each respective other investment. These investments were acquired through Morgan Stanley.

Notes Receivable from Participants: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies of assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

NOTE 3 - FAIR VALUE MEASUREMENTS (continued):

	Level 1	Level 2	Level 3
Corporate Stocks, U.S. Government Securities, Corporate Debt Instruments, and Mutual Fund	$6,317,550		
Other Assets			$656,347
Participants' Loans			$167,418

Corporate Stocks, U.S. Government Securities, Corporate Debt Instruments, and Mutual Fund	$5,319,596		
Other Assets			$631,982

NOTE 5 - PLAN TERMINATION:

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of the Employee Retirement and Income Security Act (ERISA). In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 - TAX STATUS:

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated February 12, 2010, that the prototype Plan document and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
