INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Selman Chevrolet's 401(k) Savings Plan
Orange, CA

We were engaged to audit the accompanying statements of net assets available for benefits of the Selman Chevrolet's 401(k) Savings Plan as December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets held for investment purposes at year end as of December 31, 2010. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Bank of America NA (Bank of America), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SELMAN CHEVROLET'S 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010

Note 1 - Description of the Plan

The following description of the Selman Chevrolet's 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution plan with a 401(k) arrangement covering substantially all employees of Selman Chevrolet Company (the Company or the employer) who have completed a minimum of six months of service and attained the age of 18 years. Participants may elect to contribute from 1% to 10% of their eligible compensation for the year. Highly compensated participants may elect to contribute from 1% to 7% of their eligible compensation for the year. Eligible participants may enter the Plan on the first day of each calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Participants Accounts - Each participant's account is credited with the participant's salary deferral contributions, an allocation of the Company's discretionary matching contributions and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

C. Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer discretionary matching contributions is based on years of continuous service. Participants vest in these accounts at a rate of 20% per year of service and are fully vested after five years of service.

D. Participant Loans - As of March 1, 1999, the initiation of new participant loans is no longer permitted.

E. Payment of Benefits - Upon termination of service, a participant can receive benefits equal to the value of his or her vested account balance through a single lump-sum payment, periodic installments or rollover into another qualified plan.

F. Forfeited Accounts – Forfeitures of terminated participants' non-vested accounts arising from Company contributions and related Plan earnings will be utilized first to reduce employer contributions, second to pay Plan expenses and third as distributions to participants. Forfeitures available to reduce future employer contributions at December 31, 2010 totaled $20,219. No forfeitures were applied to employer contributions or plan expenses for the year ended December 31, 2010.

G. Participant Investment options – Upon enrollment in the Plan, participants must direct their salary deferral contributions and their allocated share of employer contributions into various investment options as made available and determined by the Plan Administrator. The investment options are more fully described in the Plan's literature.

Note 2 - Summary of Significant Accounting Policies

A. Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would

Note 2 - Summary of Significant Accounting Policies (continued)

receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Estimates - The preparation of the Plan financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting periods. Accordingly, actual results could differ from those estimates.

C. Investment Valuation - The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted closing market prices, which represent the Net Asset Value (NAV) of shares held by the Plan at the end of the year. Common/collective trust funds are stated at the fair value of the underlying investments of the trust, which represents the value of the units held by the Plan.

D. Payment of Benefits - Benefits are recorded when paid.

E. Subsequent Events – The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

Note 3 – Funding Policy

Each year the Company may contribute to the Plan a matching amount, if any, which the Company's Board of Directors determines at its discretion. The contribution can be in an amount up to 20% of each participants' first 6% of compensation contributed as an elective deferral for the Plan year. For January, 2010 the Company's discretionary matching contribution was established at the maximum of 20% of the first 6% of compensation, as previously described. Effective February 1, 2009 the Company suspended the matching contribution. Participants may contribute from 1% to 7% of their eligible compensation for the year. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Generally, any participant who makes a contribution to the Plan, other than a rollover, is eligible for the discretionary matching contribution. The total employer match was $- for the year ended December 31, 2010.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. As of February 1, 2009 the Company discontinued its matching contributions.

Note 5 – Information Certified by Bank of America N.A.

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent

accountants not to perform any auditing procedures with respect to the following information certified by Bank of America N.A. (Bank of America), trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the participant-directed investments in this Plan that was certified by Bank of America as complete and accurate. Single investments representing more than 5% of the Plan's net assets are separately identified.

Note 6 - Tax Status

The Company has adopted a non-standardized form of a prototype plan sponsored by Merrill Lynch Pierce Fenner & Smith, Inc. The prototype plan has received a favorable opinion letter from the Internal Revenue Service dated June 4, 2002. The Company has not adopted any provisions outside the scope of the prototype plan and the Company believes that the Plan and the Trust established under the Plan are designed and are currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the Unites States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7 – Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such functions. Certain administrative expenses for the Plan are paid directly by the Company or from Plan income.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Investment – Common/Collective Trusts

The plan invests in the Bank of America, N.A. Retirement Preservation Trust (formerly the Merrill Lynch Retirement Preservation Trust) (the "Retirement Preservation Trust" or "Fund"). On October 6, 2010 this investment changed from a stable value fund to a short term bond fund with the approval of a Resolution to terminate the trust and commence liquidation of the assets. The most significant change was the elimination of the Fund's wrap contracts and change from contract value to fair value accounting. The Trust terminated operations on February 28, 2011 and was liquidated on March 1, 2011 though an in-kind distribution to unit holders. All Trust units were redeemed or exchanged at the net asset value per unit of $1.00, which terminated the trust.

Therefore, as of October 6, 2010, the Retirement Preservation Trust was a common collective trust fund with underlying investments in short-term U.S. Government Obligations and is valued at fair value. The Fund seeks to preserve principal, maintain high liquidity and earn an appropriate market return. There is no unfunded commitment. In addition there is no redemption notice period and redemption frequency is immediate. There are no other redemption restrictions in the Fund. Individual participant accounts invested in the common collective trust fund are maintained on a unit value bases. Participants do not have beneficial ownership in specific underlying securities or other assets in the Fund, but have an interest there in represented by units valued daily. Issuances and redemptions of units are made on such days based upon the net assets value per unit. The Fund earns dividends and interest which are automatically reinvested in additional units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Prior to October 6, 2010 the Retirement Preservation Trust was a stable value fund that invested primarily in a broadly diversified portfolio of Guaranteed Investment Contracts and in wrapped portfolios of high-quality money-market securities. The Fund was a collective trust that seeks to maintain a $1 net asset value per share, although achievement of that objective cannot be assured. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the stable value fund, plus earnings, less participant withdrawals and administrative expenses.

Note 9 – Investment – Common/Collective Trusts (continued)

Certain events may limit the ability of the stable value fund to transact at contract value. Specifically, events outside the normal operation of the stable value fund which cause a withdrawal from an investment contract might result in a negative market value adjustment. Examples of such events include partial or complete termination of the stable value fund or a unit-holder, tax disqualification of the stable value fund or a unit-holder, and certain stable value fund amendments if issuers' consent is not obtained.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC)* 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common/Collective Trusts: Valued at the fair value of the underlying investments.

Mutual Fund: Valued at the net asset value (NAV) of shares held by the plan at year end.

Note 10 – Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not by indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

December 31, 2010

	Level 1	*Level 2*	*Level 3*	*Total*
