Wilen Media Corp. 401(k) Employee Savings Plan
Notes to Financial Statements
December 31, 2010

NOTE 1: DESCRIPTION OF PLAN

The following description of the Wilen Media Corp. 401(k) Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Wilen Media Corp. (the "Company") who have attained the age of 21 and older and have completed 12 months of continuous service, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 70% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company contributes 25 % of the first 6 % of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions and the qualified non-elective contributions from the Company plus actual earnings thereon. Vesting in the other Company's contribution portion of their accounts is based on years of continuous service, as defined. A participant is 100 percent vested after six years of credited service, as defined.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the participant's vested account balance and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Notes to Financial Statements
December 31, 2010

NOTE 1: DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will be automatically 100% vested in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account. Distributions under the Plan will be paid according to the Plan document options, in an amount equal to the value of the vested portion of the participant's account.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $9,725 and $5,362, respectively. These accounts will be used to reduce future employer contributions. In 2010, no forfeited non-vested accounts were used to reduce employer contributions.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America and under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Some of the Plan's administrative expenses are paid by the Company, which consists primarily of professional fees.

The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Recent Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board ("FASB") issued an update for Investment in Certain Entities that Calculate Net Asset Value per Share. This update provides guidance on estimating fair value of a company's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investments net asset value as practical expedient to determine fair value. This guidance also requires additional disclosure of the attributes of these investments such as the nature of any restrictions on the reporting entity's ability to redeem its investment, the unfunded commitments, and the investment strategies of the investees. This guidance is effective for periods ending after December 31, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations.

In January 2010, the FASB issued updated guidance to improve disclosures regarding fair value measurements. This updated guidance requires separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers and clarified existing disclosure requirements related to the level of disaggregation of the fair value measurements for each class of assets and liabilities. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. The new disclosures and clarifications of existing disclosures were adopted by the Plan as of January 1, 2010 and did not have a material impact on the financial statements.

In addition, this updated guidance also requires disclosure on a gross basis of purchases, sales, issuances, and settlements within Level 3 rather than as one net amount. This requirement is effective for Plan years beginning after December 15, 2010. The Plan's management does not expect the adoption to have a material impact on the Plan's financial statements.

In September 2010, the FASB issued updated guidance that requires participant loans to be classified as "notes receivable from participants", which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required by the guidance, the plan has applied the guidance retrospectively. The Plan has reclassified participant loans receivable to be a part of total receivables in the statements of net assets and removed the participant loans receivable from the fair value measurements disclosure. The adoption of this guidance did not have a material impact on the financial statements. For the year ended December 31, 2009, participant loans of $108,949 were reclassified from participant-directed investments to notes receivable from participants.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) , Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds:

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based upon quoted market prices determined in an active market.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

NOTE 5: EXCESS CONTRIBUTIONS PAYABLE

Subsequent to December 31, 2010, certain 2010 participant contributions were deemed to be excess contributions under the Code. Such contributions, which totaled $34,125, and the related investment earnings thereon were refunded to plan participants in 2011.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by DWS. DWS is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Dividends income received by the Plan is net of fees charged to the mutual funds by the Trustee or its affiliates. Fees paid by the Plan for the investment management services amounted to $5,261 for the period ended December 31, 2010.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated July 9, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

NOTE 8: TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
