REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator
Moshay, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Moshay, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules of Schedule H, line 4(i)-Schedule of Assets (Held At End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 8, which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Plan provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General - The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Moshay, Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Moshay, Inc. (the "Company") is the Plan's sponsor and serves as plan administrator.

Eligibility - Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing six months of service. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer paid profit sharing contributions.

Contributions - Each year, participants may contribute a percentage or dollar amount of pretax annual compensation, after tax annual compensation, or combination of the two, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company may elect to make discretionary matching and profit sharing contributions to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. The Company matches 10% of employee contributions, up to 6% of eligible compensation deferred to the Plan. There were no profit sharing contributions for the year ended December 31, 2010. Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participant's vest 20% per year beginning in year one until 100% vested after five years of credited service.

Note 1 - Description of Plan (Continued)

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's accounts. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Trustee. Principal and interest is paid ratably through bi-weekly payroll deductions. As of December 31, 2010, the rates of interest on outstanding loans ranged from 5.25%-9.50% with various maturities through January 2014.

Payment of benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures - Forfeitures are the non-vested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2010 and 2009, forfeited nonvested accounts totaled $1,720 and $1,119, respectively. For the year ended December 31, 2010, Company matching contributions were not reduced from forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements.* The new guidance requires additional disclosures about transfers between levels within the fair value hierarchy and clarifies existing disclosure requirements regarding classes of assets and liabilities measured at fair value. The new guidance requires the Plan to: (a) disclose separately the amounts of significant transfers into and out of each level of the fair value hierarchy and describe the reasons for those transfers, (b) the Plan's policy for determining when transfers between levels of the fair value hierarchy are recognized, and (c) present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 reconciliation disclosures which are effective for reporting periods beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010. See Note 4.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans* which amends existing guidance by requiring participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments to the Accounting Standards Codification included in ASU 2010-25 are effective for fiscal years ending after December 15, 2010. The Plan has adopted this guidance effective December 31, 2010 and has reclassified participant loans of $52,062 and $43,426 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee, John Hancock Life Insurance Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable.

Payment of benefits - Benefits are recorded when paid.

Expenses - All expenses of maintaining the Plan are paid by the Company. Certain transaction fees are paid by the Plan.

Excess contributions payable - Excess contributions payable represent amounts refunded to participants after year end to comply with regulatory contribution limitations.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through October 10, 2011, which is the date the financial statements were issued.

Note 3 - Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2010	2009
John Hancock USA Lifestyle Balanced	$ 290,795	$ 193,327
John Hancock USA Lifestyle Moderate	91,110	62,668
John Hancock USA Lifestyle Conservative	67,892	51,605
John Hancock USA Lifestyle Growth	68,357	50,612
John Hancock USA Mid Cap Index Fund	62,723	45,971

Note 3 - Investments (Continued)

During 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value by $138,068.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

Note 4 - Fair Value Measurements (Continued)

Pooled separate accounts: Units held in pooled separate accounts are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Many of the accounts invest exclusively on one underlying mutual fund traded on an established market, and accordingly, the pooled separate accounts are classified with level 1 of the valuation hierarchy.

The Plan invests in the following pooled investment funds:

JH Lifestyle Growth – The Portfolio seeks long-term growth of capital. Current income is also a consideration. To pursue this goal, the Portfolio, which is a fund of funds, normally invests approximately 80% of its assets in underlying funds that invest primarily in equity securities, and approximately 20% in underlying funds that invest primarily in fixed-income securities. The Portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

JH Lifestyle Aggressive – The Portfolio seeks long-term growth of capital. Current income is not a consideration. To pursue this goal, the Portfolio, which is a fund of funds, normally invests approximately 100% of its assets in underlying funds that invest primarily in equity securities. The Portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

JH Lifestyle Balanced – The Portfolio seeks a balance between a high level of current income and growth of capital, with a greater emphasis on growth of capital. To pursue this goal, the Portfolio, which is a fund of funds, normally invests approximately 60% of its assets in underlying funds that invest primarily in equity securities and approximately 40% in underlying funds that invest primarily in fixed-income securities. The Portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

JH Retirement Living at 2040 – The fund primarily invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire within a few years of 2040. It allocates approximately 90% of assets to stocks and 10% to bonds. The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease as a percentage of assets in bonds and other fixed income investment increases.

Note 4 - Fair Value Measurements (Continued)

JH Lifestyle Moderate – The Portfolio seeks long-term growth of capital. Current income is also a consideration. To pursue this goal, the Portfolio, which is a fund of funds, normally invests approximately 40% of its assets in underlying funds that invest primarily in equity securities and approximately 60% in underlying funds that invest primarily in fixed-income securities. The Portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

JH Retirement Living at 2035 – The Portfolio seeks high total return until its target retirement date. To pursue this goal, the Portfolio, which is a fund of funds, invests, under normal market conditions, substantially all of its assets in Underlying Funds using an asset allocation strategy designed for investors expected to retire in 2035.

JH Retirement Living at 2045 – The Portfolio seeks high total return until its target retirement date. To pursue this goal, the Portfolio, which is a fund of funds, invests, under normal market conditions, substantially all of its assets in Underlying Funds using an asset allocation strategy designed for investors expected to retire in 2045.

Note 5 - Guaranteed Investment Contract with John Hancock Life Insurance Company

The plan entered into a benefit-responsive guaranteed investment contract with John Hancock Life Insurance Company (John Hancock). John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $42,589 and $54,915, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a monthly basis for resetting.

Note 5 - Guaranteed Investment Contract with John Hancock Life Insurance Company (Continued)

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Traditional GICs are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The crediting rate on this product is typically fixed for the life of the investment.

Accounting standards require that the Plan provide the following disclosures regarding certain investments in guaranteed investment contracts:

	Average Yield		Crediting Interest Rate		Investments at Fair Value	Adjustment to Contract Value
	2010	2009	2010	2009		
John Hancock Life Insurance Company						
Guaranteed Investment Contract (3 Year)	0.86%	1.45%	0.44%	1.03%	$ 30,359	$ (86)
Guaranteed Investment Contract (5 Year)	2.63%	3.24%	1.01%	1.66%	12,230	(204)
Total					$ 42,589	$ (290)

The average yield is based upon annualized earnings of the investment, which may differ from the crediting interest rate, which is based upon the annualized earnings credited to participant accounts.

Note 6 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009.
- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 9 - Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by John Hancock Life Insurance Company. John Hancock is the trustee of the Plan, therefore, transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were $12,020 for the year ended December 31, 2010.

Note 10 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 11 - Reconciliation to Form 5500

The following are reconciliations of net assets available for benefits between the financial statements and the Form 5500 as of December 31:

	2010	2009
Net assets available per the financial statements	$ 1,162,144	$ 995,365
Add: Current year excess contributions payable	-	3,498
Add: Difference between fair value and contract value of GICs	(926)	1,003
Net assets available per the Form 5500	$ 1,161,218	$ 999,866

The following is a reconciliation of Plan change in assets for the year ended December 31, 2010:

Change in net assets (Plan net income) per financial statements	$ 166,779
Add: GIC adjustment to contract value	(1,929)
Less: Change in excess contributions payable	(3,498)
Net Income in Plan assets per Form 5500	$ 161,352
