**WEST COAST ARBORISTS, INC.**
**401(k) SALARY SAVINGS AND PROFIT SHARING PLAN**
**NOTES TO FINANCIAL STATEMENTS**
**DECEMBER 31, 2010**

**NOTE A:** **Description Of The Plan** - The following description of the West Coast Arborists, Inc. 401(k) Salary Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(1) General - The Plan is a defined contribution plan which was adopted by West Coast Arborist, Inc., (the "Company") effective January 1, 1997, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA), and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed 1,000 hours of service.

(2) Contributions - Participants may elect to contribute pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 25 percent of the first 15 percent of base compensation that a participant contributes to the Plan. Also, the Company may make an additional discretionary contribution to the Plan.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(4) Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service.

(5) Notes Receivable From Participant – Participants may borrow against their plan account balance within plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000, but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through bi-weekly payroll deductions. The loans are secured by the vested account balance in the participant account.

**NOTE A:** **Description Of The Plan** - (Continued)

(6) Benefit Payments - Upon termination of service due to death, disability, or retirement at age 55 (with six years of vesting service), a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity over the life of the participant or designated beneficiary, as defined in the plan document. For termination of service for other reasons, a participant will received the value of the vested interest in his or her account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

(7) Forfeitures - Forfeitures of the Company's contributions are used to reduce administrative fees and future employer's contributions. At December 31, 2010, forfeited non-vested accounts totaled $1,782; there were no forfeitures at December 31, 2009. Also, in 2010, administrative fees were reduced by $1,925 from forfeited non-vested accounts.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Some of administrative expenses incurred by the Plan are absorbed by the Company.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.

**NOTE B:** **Summary Of Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis Of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

(2) Investment Valuation And Income Recognition - The Plan's investments are stated at fair value at December 31, 2010 and 2009. The Plan invests in pooled separate accounts and mutual funds consisting primarily of stocks and bonds which do not have guaranteed rates of return. The value of pooled separate accounts and mutual funds is determined by fair market value at quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.

**NOTE B:** **Summary Of Significant Accounting Policies** - (Continued)

(2) Investment Valuation And Income Recognition - (Continued)

Market values for each fund are valued by the Investment Accounting and Treasury Department (IAD).

The fair value of the guaranteed interest accounts are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The guaranteed interest accounts are non-benefit responsive contracts.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend rate. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains on pooled separate accounts.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

(3) Payment Of Benefits - Benefits are recorded when paid.

(4) Use Of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(5) Recent Accounting Pronouncements – In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-25, "*Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,*" which requires participant loans to be segregated from plan investments subject to fair value measurement, classified as notes receivable and measured at their unpaid principal balance plus accrued interest. The ASU requires retrospective application and applies to reporting periods beginning after December 15, 2010; early adoption is permitted.

**NOTE B:** **Summary Of Significant Accounting Policies** - (Continued)

(5) Recent Accounting Pronouncements – (Continued)

Accordingly, the Plan's participant loans have been reported as receivables in the statements of net assets available for benefits as of December 31, 2010 and 2009, and participant loan interest has been excluded from investment income in the related statement of changes in net assets available for benefits for the year and period ended December 31, 2010 and 2009, respectively. In addition, participant loans have been excluded from the fair value disclosures at Note F. Adoption of the ASU represents a reclassification within the financial statements and had no impact on net assets available for benefits or changes therein.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, *Improving Disclosures about Fair Value Measurements (Topic 820) - Fair Value Measurements and Disclosures* (ASU 2010-06), to add additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, and the activity in Level 3 fair value measurements. Certain provisions of this update will be effective in the year ending December 31, 2011 and the Plan is currently evaluating the impact of the pending adoption of ASU 2010-06 on the Plan's financial statements.

**NOTE C:** **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held substantially all of its assets with one institution. In the event of the institution's failure, the Plan is at risk of loss in any of its funds which could fail to the extent of the dollars invested in the funds.

**NOTE D:** **Investments** - The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent accountants not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company (Principal), except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedule.

**NOTE D:** **Investments** – (Continued)

The following table presents the fair values of the participant-directed investments in the Plan that are certified by Principal. Those investments that represent 5 percent or more of the Plan's net assets are separately identified.

**NOTE E:** **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

**NOTE F:** **Fair Value Measurements** – Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures,"* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

*Pooled Separate Accounts:* Valued at the closing price reported on the active market on which the individual securities are traded.

*Guaranteed Investment Contract:* Value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

**NOTE F:** **Fair Value Measurements** – (Continued)

*Mutual Funds:* Valued at the net asset value of shares held by the Plan at year end. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2010.

**NOTE F:** **Fair Value Measurements** – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2009.

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Guaranteed Interest | $ - | $ - | $ 228,591 | $ 228,591 |
| Pooled Separate Accounts | - | 3,430,751 | 180,304 | 3,611,055 |
| Total Assets At Fair Value | $ - | $ 3,430,751 | $ 408,895 | $ 3,839,646 |

**NOTE G:** **Withdrawn Participants** - At December 31, 2010 and 2009, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

**NOTE H:** **Tax Status** - The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

**NOTE I:** **Fidelity Bond** - ERISA requires that the Plan be covered by a fidelity bond. The amount of bond must be equal to the lesser of 10 percent of the funds handled or $500,000. For the year ended December 31, 2010, the Plan met the minimum bonding requirement.

**NOTE J:** **Party-In-Interest** - The Plan has investments that are offered through Principal Life Insurance Company. Principal Life Insurance Company is the custodian, as defined by the Plan and therefore, these investments qualify as party-in-interest transactions.

**NOTE K:** **Differences On Form 5500** - The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

| | 2010 | 2009 |
|---|---|---|
| Net Assets Available For Benefits Per The Financial Statements | $ 5,218,212 | $ 4,213,445 |
| Less: Employer Contributions Receivable | (153) | (153) |
| Participant Contributions Receivable | (610) | (610) |
| Net Assets Available For Benefits Per The Form 5500 | $ 5,217,449 | $ 4,212,682 |

**NOTE L:** **Subsequent Event** - Events occurring after December 31, 2010, have been evaluated for possible adjustment to the financial statements or disclosure as of September 16, 2011, which is the date the financial statements were available to be issued.
