Report of Independent Auditors

To the Participants and Benefits Administrative Committee of the
Equistar Chemicals, LP Retirement Plan

We were engaged to audit the financial statements of Equistar Chemicals, LP Retirement Plan (the "Plan") at December 31, 2010 and December 31, 2009 and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and December 31, 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Effective December 31, 2010, the Plan was merged with and into the LyondellBasell Retirement Plan. The impact of this merger is described in Note 1 to the financial statements.

EQUISTAR CHEMICALS, LP
RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. Description of Plan

General – The Equistar Chemicals, LP Retirement Plan ("Plan") is a noncontributory defined benefit pension plan for non-represented employees of Equistar Chemicals, LP ("Equistar" or "Company"), a wholly owned subsidiary of Lyondell Chemical Company ("Lyondell"). The Plan is subject to the provisions of ERISA. Participants should refer to the Plan document for a complete description of the Plan provisions. On December 31, 2008, the Plan was frozen. Effective January 1, 2009, the non-represented employees of Equistar became eligible to participate in the LyondellBasell Retirement Plan.

On January 6, 2009, Equistar and Lyondell were included among the debtors who filed voluntary petitions for relief under Chapter 11 of the U.S. Bankruptcy Code ("Chapter 11") in the U.S. Bankruptcy Court. The bankruptcy cases were jointly administered in the U.S. Bankruptcy Court under the caption "In re Lyondell Chemical Company, et al." The Plan of Reorganization provided that Equistar would continue to maintain the Plan. On April 30, 2010, Equistar and Lyondell emerged from Chapter 11 bankruptcy protection.

Effective December 31, 2010, the Plan merged with and into the LyondellBasell Retirement Plan, and the Plan's net assets and benefit obligations were transferred to the LyondellBasell Retirement Plan. These financial statements are the final financial statements to be filed for the Plan.

Pension Benefits – Participants are entitled to monthly pension benefits upon retiring on or after the normal retirement age of 65, as defined in the Plan document. The Plan also permits early retirement at a reduced benefit level for participants retiring after reaching age 55 with ten or more years of membership service. If a participant terminates employment with at least five years of service but prior to eligibility for normal or early retirement, the participant is eligible for a deferred pension benefit commencing at age 65 or, if the participant terminates with ten or more years of membership service, as early as age 55, subject to reduction for early commencement. Participants receive their accumulated plan benefits as a monthly benefit or in an actuarially equivalent optional form available under the Plan.

Death Benefits – If a participant dies, death benefits, as described in the Plan document, are paid to the participant's beneficiary.

Contributions – The Plan is a noncontributory defined benefit pension plan. All contributions are made by the Company and participant contributions are not permitted under the terms of the Plan.

Administration – The Plan is administered by the Benefits Administrative Committee ("BAC"). Mercer is the Plan's recordkeeper and actuary. Plan assets are maintained in the Lyondell Chemical Company Retirement Master Trust ("Master Trust") under the custody of The Bank of New York Mellon ("Trustee"). Management of portfolio assets is directed by external investment managers hired and monitored by the Benefits Finance Committee ("BFC"). Both the BAC and BFC consist of individuals appointed by the Lyondell Board of Directors.

On August 17, 2006, the Pension Protection Act of 2006 ("PPA"), a comprehensive pension reform legislation which revised many rules surrounding defined benefit plans, was signed into law. The Plan was timely amended in 2009 as required under the PPA.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP").

Reclassifications – Certain reclassifications have been made to the presentation of certain investments within the Master Trust.

Accounting and Reporting Changes – In January 2010, the Financial Accounting Standards Board (the "FASB") issued additional guidance on improving disclosures regarding fair value measurements. The Accounting Standards Update ("ASU") 2010-06 amends Accounting Standards Codification ("ASC") 820-10, *Fair Value Measurements and Disclosures*. This update requires entities to disclose the amounts of significant transfers between Level 1 and Level 2 of the fair value hierarchy and the reasons for these transfers, as well as the reasons for any transfer in or out of Level 3. The Company has adopted all of the amendments regarding fair value measurements except for a requirement to disclose information about purchases, sales, issuances, and settlements in the reconciliation of recurring Level 3 measurements on a gross basis. The requirement to separately disclose purchases, sales, issuances, and settlements of recurring Level 3 measurements does not become effective for the Company until 2011 and will have no impact on the Plan's financial statements as these are the Plan's final financial statements.

In May 2011, the FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS.* ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011 and will have no impact on the Plan's financial statements as these are the Plan's final financial statements.

Subsequent Events – The Company has evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued.

Changes in Fair Value Levels – Management reviews the disclosures regarding fair value measurements annually at year end. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified as Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is reclassified as Level 3.

Use of Estimates – The preparation of the Plan's financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the changes in net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – A separate account for the Plan is maintained by the Master Trust reflecting the Plan's share of the Master Trust. Interest in the Master Trust is determined on a monthly basis and is based upon the beginning of the month value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and an allocation of administrative expenses. Investments of the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to

transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

From time to time the Master Trust's investment managers may use derivative financial instruments including forward exchange contracts and future contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment mix in the portfolio. The Master Trust's interest in funds which utilize such financial instruments is not considered significant to the Plan's financial statements.

Purchases and sales of securities by the Master Trust are accounted for on a trade date basis (the date the order to buy or sell is originated). Gains or losses on the sale or distribution of securities are computed on a first-in, first-out basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. The net appreciation or depreciation in the fair value of investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments, is included in "Investment income from the Lyondell Chemical Company Retirement Master Trust" in the Statements of Changes in Net Assets Available for Benefits.

Interest and dividends earned, net appreciation or depreciation in the fair value of investments, and expenses incurred under the collective investment accounts of the Master Trust are allocated to the Plan based upon the average monthly investment balance in the Master Trust of each plan participating in the trust.

Risks and Uncertainties – The Master Trust invests in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, convertible securities, and U.S. government securities. Investment securities are exposed to various risks, such as market and credit risks. Changes in the values of investment securities will continue to occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Transfer Activity – Transfer activity includes transfers to and from other plans participating in the Master Trust. See Note 5 for discussion of transfer activity.

Benefits Paid to Participants – Benefit payments to participants are recorded upon distribution and are paid by the Master Trust.

Administrative Expenses – Certain administrative expenses are paid by the Plan and Plan sponsor.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered, as of the beginning of the plan year. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. The Plan was frozen as of December 31, 2008; thus, participants do not accrue additional benefits after that date.

The 2009 actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer. The actuarial method used to determine the present value of accumulated plan benefits is the projected unit credit actuarial cost method. The more significant assumptions underlying the actuarial valuation are as follows:

	December 31, 2009
Investment return	8.0% per year
Interest rate	8.0% per year
Mortality table	RP-2000 Combined healthy mortality table for males and females with no collar adjustment, projected to 2017
Assumed average retirement age	61 years of age

In the Statement of Changes in Accumulated Plan Benefits, the change in actuarial assumptions was $4,292,277. This amount represents actuarial assumption changes since January 1, 2009 and includes changes to the assumption used to determine the minimum lump sum, the salary scale and the mortality assumption.

The accumulated plan benefits reported at December 31, 2009 are the accumulated plan benefits of the Plan at that date. If the merger of the Plan into the LyondellBasell Retirement Plan had occurred as of the beginning of the plan year effective January 1, 2010, the benefits obligation of $158,432,682 would have been transferred from the Plan to the LyondellBasell Retirement Plan.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Funding Policy

The funding policy of the Company is to satisfy legal minimum funding requirements, as determined under the standard unit credit method, as adopted January 1, 2008, under the PPA, with the discretion to make additional contributions from time to time. Fluctuations in the return (interest, dividends, and net appreciation or depreciation in fair value) on investments of the Plan from the assumed rate serve to reduce or increase the future contributions required to provide for the benefits defined under the Plan.

Under the provisions of ERISA and the Internal Revenue Code of 1986 (the "Code"), each as amended by the PPA, the Plan's actuaries determined that no contributions were required for the years ended December 31, 2010 or 2009.

5. Transfer Activity

Transfer to the LyondellBasell Retirement Plan – On December 31, 2010, the Plan merged with and into the LyondellBasell Retirement Plan. As a result, net assets of $156,112,065 and the benefit obligations were transferred to the LyondellBasell Retirement Plan. The benefits received by the participants of the Plan remained the same.

6. Plan Termination

Although it has not expressed any intention to do so, Equistar has the right, under the terms of the Plan document, to discontinue its contributions at any time and to terminate the Plan, subject to the applicable provisions of ERISA and the Code.

Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation ("PBGC"). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements of ERISA and the Code.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

7. Tax Status

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions of the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The IRS issued a determination letter dated February 29, 2008, stating that the Plan and related Master Trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the BAC believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision is made for federal income taxes.

8. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following unaudited data included in the accompanying financial statements are complete and accurate:

- Plan interest in the Master Trust, at fair value
- Investment income from the Master Trust
- Investment amounts as shown in Note 9 and Note 10

9. Interest in Lyondell Chemical Company Retirement Master Trust

The Master Trust is a pooled investment trust composed of the beneficial interests of certain participating defined benefit plans ("Master Trust Plans") of Lyondell and certain of its subsidiaries and affiliates. The Master Trust consists of a portfolio of investments in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, convertible securities, and U.S. government securities.

On April 1, 2009, the net assets of the Basell Retirement Income Plan, Basell Pension Plan, and Pension Plan for Hourly Employees at Edison, New Jersey, totaling $139,514,011, were transferred from the Basell Master Trust to the Master Trust.

Master Trust Plans do not own specific securities or other assets in the Master Trust but have an undivided interest in the Master Trust. At December 31, 2010 and 2009, the Plan's undivided interest in the investment holdings of the Master Trust, consisting of total investments, receivables from sales of securities, accrued interest, dividends and payables from purchases of securities, and other payables and receivables, was zero and approximately 13%, respectively. Investment income related to the Master Trust is allocated to the Master Trust Plans based upon each plan's average monthly investment balance in the Master Trust.

The net assets of the Master Trust as of December 31, 2009 are as follows:

	December 31, 2009

10. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are

not available, fair value is based upon internally-developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Valuation methodologies used for major investment types measured at fair value include:

Common and preferred stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Fixed income securities – Certain securities are valued at the closing price reported on the active market on which the individual securities are traded. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Commingled funds – Valued based upon the unit values of such collective trust funds held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from, or corroborated by, observable market data by correlation or other means.

Short-term investments – Valued at the quoted prices for similar assets or liabilities in active markets.

Real estate – Valued on the basis of a discounted cash flow approach, which includes the future rental receipts, expenses, and residual values as the highest and best use of the real estate from a market participant view as rental property.

Convertible securities – Valued at the quoted prices for similar assets or liabilities in active markets.

U.S. government securities – Certain securities are valued at the closing price reported on the active market on which the individual securities are traded. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the investments of the Master Trust at fair value as of December 31, 2009:

The following table sets forth a summary of changes in the fair value of the Master Trust Level 3 assets for the year ended December 31, 2010:

	Real Estate
Balance, beginning of year	$ 36,372,346
Realized gains	2,219,045
Unrealized gains relating to instruments still held at the reporting date	1,978,798
Purchases, sales, issuances, and settlements, net	1,344,709
Balance, end of year	$ 41,914,898

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

11. Related-Party Transactions

The Plan, through its interest in the Master Trust, holds shares of short-term investment and S&P Index funds managed by Mellon Capital, a subsidiary of Bank of New York Mellon, the Trustee of the Plan. These transactions fall under the definition of a party-in-interest transaction; however, the Company does not believe that they give rise to prohibited transactions under ERISA. The Company pays certain costs of administering the Plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Statement of actuarial assumptions/methods (continued)

Asset methods – effective January 1, 2009

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The market value is the amount reported in the year end audited asset statement.

The asset valuation method is an annual average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset valuation method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than market.

Participant methods – effective January 1, 2008

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants if the disability occurred on or after July 1, 2002 and with the liabilities for actives otherwise. Participants who became disabled prior to July 1, 2002 and before retirement continue to earn credited service during their disability, but no later than December 31, 2008.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for active participants.

Schedule SB, Part V – Statement of actuarial assumptions/methods (continued)

Benefits included or excluded – effective January 1, 2008

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 1/2.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Sections 401(a)(17) and 415(b):** The limitations of Internal Revenue Code Sections 401(a)(17) and 415(b) have been incorporated into our calculations, as applicable.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

Minimum funding method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **accrued liability** is the present value of benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **normal cost** is the present value of the benefit deemed to accrue in the plan year. If multiple decrements are used, the accrued liability and the normal cost for an individual are the sum of the component accrued liabilities and normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual normal costs, and the plan's **funding target liability** is the sum of the accrued liabilities for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target liability. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected accrued liability** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the accrued liability for an individual is the sum of the component accrued liabilities associated with the various anticipated separation dates.
- The plan's **projected funding target liability** is the sum of the projected accrued liabilities for all participants under the plan.

Schedule SB, Part V – Summary of plan provisions

Please note that LyondellBasell Industries filed for bankruptcy on January 6, 2009, triggering benefit restrictions on accelerated forms of payment.

Effective date and plan year	January 1, 1998. Last amended effective January 1, 2010.
Status of the plan	The plan has frozen benefit accruals and new employees are not eligible to participate in the plan.
Covered employees	All salaried, non-union employees.
Participation date	The completion of one year of eligibility service. Immediate participation is provided for: (i) an employee who was previously employed by Lyondell Chemical Company or Millennium Chemicals, Inc. and became an employee on January 1, 1998; (ii) an employee who was previously employed by Occidental Petroleum Corporation and became an employee on June 1, 1998; (iii) any employee of Equistar Chemicals, LP as of June 30, 2002; and (iv) any employee of Equistar Chemicals, LP as of December 31, 2008. Plan frozen at December 31, 2008. Any employee hired after December 31, 2008 is not eligible.
Normal retirement date	First of month coincident with or next following the attainment of age 65.
Membership service	All employment with the Company while a member of the plan, including: (i) any period during military or other types of leave of absence granted by the Company; (ii) the period of a layoff due to lack of work or economic or industrial reasons not to exceed one year. Membership service was frozen as of December 31, 2008.
Eligibility service	The same definition as membership service; however, service with prior employers, including Lyondell Chemical Company, Millennium Chemicals, Inc., or Occidental Petroleum Corporation, is generally included. Participants continue to accrue eligibility service after December 31, 2008.
Vesting	Participants of the plan on or before June 30, 2002 are fully vested as of their Participation date. On or after December 31, 2008, participants are vested after completion of three years of eligibility service.

Schedule SB, Part V – Summary of plan provisions (continued)

Transition participant	Both age 50 or older and at least five years of eligibility service as of June 30, 2002.
Monthly earnings	Base pay of an employee for services rendered to the Company during a particular month.
Final average earnings	The average of the highest thirty-six consecutive calendar months of monthly earnings during the participant's last one-hundred and twenty calendar months of eligibility service prior to December 31, 2008 times 12.
Part A minimum benefit (lump sum form)	The product of (a), (b), and (c): (a) Membership service up to June 30, 2002; (b) Final average earnings as of June 30, 2002; (c) Benefit percentage at age of benefit commencement: **Age** — **Benefit percentage** Under 35 — 3% 35 – 39 — 4 40 – 44 — 5 45 – 49 — 6 50 – 54 — 9 55 – 59 — 13 60 and over — 15
Part A growth benefit (lump sum form)	The product of (a), (b), and (c): (a) Membership service up to June 30, 2002; (b) Final average earnings as of December 31, 2008 less final average earnings as of June 30, 2002; (c) Benefit percentage at age 65 of 15%.
Part A regular benefit (lump sum form)	The product of (a), (b), and (c): (a) Membership service up to June 30, 2002; (b) Final average earnings as of December 31, 2008; (c) Benefit percentage at age of benefit commencement: **Age** — **Benefit percentage** Under 35 — 3% 35 – 39 — 4 40 – 44 — 5 45 – 49 — 6 50 – 54 — 9 55 – 59 — 13 60 and Over — 15

Schedule SB, Part V – Summary of plan provisions (continued)

Part B benefit	1.45% of final average earnings as of December 31, 2008 times membership service accrued between June 30, 2002 and December 31, 2008.
Monthly accrued benefit	The sum of (a) and (b): (a) Part A regular benefit at age 65 converted to a monthly annuity, (b) Part B benefit.
Normal retirement	Retirement at normal retirement date.
Postponed retirement	Retirement after normal retirement date.
Early retirement	Retirement before age 65 after both attaining age 55 and completing ten years of membership service.
Vested benefit	Termination for reason other than death or retirement after vesting date.
Survivor benefit	Death with a surviving spouse or designated beneficiary.
Normal retirement benefit	Monthly accrued benefit determined as of retirement date.
Early retirement benefit	**Non-transition participants** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A regular benefit determined as of early retirement date; (b) Monthly Part B benefit determined as of early retirement date, reduced 4/12 of 1% per month that the member's early retirement date precedes age 65 for the first five years, and 3/12 of 1% per month for the next five years. *For benefits paid as a lump sum: the sum of (a), (b) and (c)* (a) Part A minimum benefit determined as of early retirement date; (b) Actuarially reduced Part A growth benefit; (c) Actuarial present value of the Part B benefit. **Transition participants** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A regular benefit determined as of early retirement date; (b) Monthly Part B benefit determined as of early retirement date, reduced 4/12 of 1% per month that the member's early retirement date precedes age 65 for the first five years, and 3/12 of 1% per month for the next five years.

Schedule SB, Part V – Summary of plan provisions (continued)

Early retirement benefit (continued)	*For benefits paid as a lump sum: the sum of (a) and (b)* (a) Part A regular benefit; (b) Actuarial present value of the Part B benefit.
Vested benefit for non-transition participants	**Less than 10 years of service:** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A regular benefit (Part A minimum benefit may commence at termination); (b) Part B benefit payable at age 65. *For benefits paid as a lump sum:* ▪ Part A minimum benefit. (May only be taken as a lump sum at termination. All deferred benefits must be taken as a monthly annuity). **More than 10 years of service:** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A minimum benefit; (b) Monthly Part A growth benefit plus the Part B benefit reduced using the following factors based on age at commencement: **Age** — **Rate** 55 — 40% 56 — 44 57 — 48 58 — 52 59 — 57 60 — 62 61 — 68 62 — 75 63 — 82 64 — 91 65 — 100 *For benefits paid as a lump sum:* ▪ Part A minimum benefit. (May only be taken as a lump sum at termination. All deferred benefits must be taken as a monthly annuity).

Schedule SB, Part V – Summary of plan provisions (continued)

Vested benefit for transition participants	**Less than 10 years of service:** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A regular benefit (may commence at termination); (b) Part B benefit, payable at age 65. *For benefits paid as a lump sum: the sum of (a) and (b)* (a) Part A regular benefit (may be taken at termination); (b) Actuarial present value of the Part B benefit, payable at age 65. **More than 10 years of service:** *For benefits paid as a monthly annuity: the sum of (a) and (b)* (a) Monthly Part A regular benefit (may commence at termination); (b) Monthly Part B benefit reduced using the following factors based on age at commencement: **Age** / **Rate** 55 / 40% 56 / 44 57 / 48 58 / 52 59 / 57 60 / 62 61 / 68 62 / 75 63 / 82 64 / 91 65 / 100 *For benefits paid as a lump sum: the sum (a) and (b)* (a) Part A regular benefit (may be taken at termination); (b) Actuarial present value of the Part B benefit.

Schedule SB, Part V – Summary of plan provisions (continued)

Disability benefit	*Disability before July 1, 2002* ▪ Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit at normal retirement date. *Disability on or after July 1, 2002* ▪ Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit determined one year from the date of disability.
Survivor benefits	▪ Service on or before June 30, 2002 – the amount the surviving spouse would have received if the participant had terminated and elected an immediate 50% joint and survivor benefit the day before his or her death. ▪ Service on or after July 1, 2002 – the amount the surviving spouse would have received if the member had terminated on his or her date of death, survived to their earliest retirement age (age 55 if more than 10 years of service, age 65 otherwise), elected an immediate 50% joint and survivor annuity, and died the next day. These benefits may be paid in one of the following forms: (i) an annuity beginning at the member's earliest retirement age or later; (ii) an actuarially equivalent lump sum payment as soon as practicable after the date of death; (iii) an annuity beginning as soon as practicable after the date of death. ▪ If a participant is unmarried, the benefit is payable to the beneficiary or estate only as an actuarially equivalent single cash payment as soon as administratively practicable.
Forms of payment	Survivor benefits are payable only as described above. Monthly pension benefits are paid in the form of a five-year certain and life annuity if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid as a 50% joint and survivor annuity. Other options are a single life annuity, 75% joint and survivor and lump sum payment, if retirement is on or before June 30, 2002. If retirement is after June 30, 2002 must be age 55 and have at least 10 years of membership service or be age 65 to receive a lump sum.

Schedule SB, Part V – Summary of plan provisions (continued)

Actuarial equivalence for alternate forms of payment

- Amount of an alternative form of benefit (other than a lump sum) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed using the following tables.

Age at benefit commencement	100% J&S	50% J&S	10 year Certain & Life	20 year Certain & Life
70 and older	.712	.832	.900	.800
69	.719	.837	.901	.800
68	.726	.841	.910	.800
67	.734	.846	.918	.800
66	.741	.852	.927	.800
65	.749	.857	.934	.800
64	.757	.862	.941	.800
63	.765	.867	.948	.801
62	.772	.871	.954	.817
61	.779	.876	.959	.832
60	.787	.881	.963	.846
59	.793	.885	.967	.859
58	.800	.889	.970	.871
57	.807	.893	.973	.882
56	.813	.897	.976	.893
55	.819	.900	.978	.902

- If member is more than five years older than the joint annuitant, the retirement factor shall be decreased as follows for each year over five that the member is older than the joint annuitant's age:

	100% J&S	50% J&S
Subtract:	.01	.0050

- If joint annuitant is more than five years older than the member, the retirement factor shall be increased (but never greater than 1.0) as follows for each year over five that the joint annuitant is older than the member:

	100% J&S	50% J&S
Add:	.01	.0050

Schedule SB, Part V – Summary of plan provisions (continued)

Actuarial equivalence for lump sum	PPA mortality and interest rates equal to the average of the 3-tiered minimum present value segment rate for the third, fourth and fifth months immediately preceding the first day of the calendar quarter during which the lump sum payment occurs and reflecting the appropriate phase-ins.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.
Changes in plan provisions since prior year	Maximum benefits were updated from 2009 to 2010.

Benefits included or excluded – effective January 1, 2009

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 1/2.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Sections 401(a)(17) and 415(b):** The limitations of Internal Revenue Code Sections 401(a)(17) and 415(b) have been incorporated into our calculations, as applicable.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

Schedule SB, Line 24 – Change in actuarial assumption

- The funding interest rate was changed from the full yield curve with 2-month lookback to the segmented yield curve with no phase-in and 4-month lookback.

Schedule SB, Line 25 – Change in method

- The assumption for converting the PEP benefit to the assumed optional forms of payment was changed to be consistent with the final regulations under PPA.
