NOTE 1 DESCRIPTION OF PLAN

The following description of South Denver Cardiology, P.C. 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of South Denver Cardiology Associates, P.C. (the Company) who have completed one year and 1,000 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Annually, participants may contribute up to 100% of pretax annual compensation as defined in the Plan agreement, up to the maximum annual contribution permitted by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows for Roth deferral contributions subject to the same contributions limitations as stated above.

Effective January 1, 2011, the Plan was amended to add an automatic enrollment provision whereby newly hired, eligible employees are enrolled automatically with a 3% tax-deferred contribution rate invested in the Plan's default investment option. Employees may opt out of the automatic enrollment, stop contributions, modify their contribution rate or change investment elections at any time.

The Company contributes 3% each year as a safe harbor non-elective contribution. A 3% top-heavy contribution was also required in 2010 and 2009 for those participants who did not receive the safe harbor contribution. For 2010 and 2009, the Company funded an additional discretionary contribution based upon a cross-tested formula as defined in the Plan agreement. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a participant-directed brokerage account options as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, earnings on the investments in their account and charged with an allocation of administrative fees. The benefit to which a participant is entitled is the vested balance in the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their employee contributions and the employer safe harbor contribution plus actual earnings thereon. Vesting in any Company discretionary contribution portion of their accounts is based on years of continuous service with vesting at a rate of 20% per year beginning with completion of the second year of employment. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon a participant's retirement, disability, death or termination of employment, a participant may receive a lump-sum payment equal to the value of the participant's vested interest in his or her account. Under certain circumstances, an employee may withdraw his or her vested account balance prior to the occurrence of these events.

Forfeitures

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $900 and $3,195, respectively. These amounts were used to reduce the 2010 and 2009 employer safe harbor contribution paid in the following year.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may only have one outstanding loan at a time. A participant must pay a loan fee at the time he or she applies for a loan and must pay annual loan maintenance fees until the loan is repaid. The loans are secured by the balance in the participant's account and bear interest at 2% over prime. During 2010, loans had fixed rates ranging from 5.25% to 10.25% for the term of the loan, not to exceed 5 years or 15 years if used for the purchase of a residence. Principal and interest are paid ratably through payroll deductions.

NOTE 2 SUMMARY OF ACCOUNTING PRINCIPLES AND POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF ACCOUNTING PRINCIPLES AND POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Net unrealized appreciation or depreciation represents the difference between the book value and the fair value of investments held at year-end. Book value is the fair value at the end of the previous fiscal year, or cost if the investment was purchased during the year.

Notes Receivable from Participants

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010. The Plan adopted ASU 2010-25 in the 2010 financial statements, applied retrospectively for all periods presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

A portion of the Plan's administrative expenses are paid directly by the Company. Other recordkeeping, administrative and purchase and redemption fees are paid by participants from their account balances.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

No investments held at December 31, 2010 or 2009 represented 5% or more of the Plan's net assets.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2010	2009
Pooled separate accounts	$ 723,278	$ 1,002,710
Participant-directed brokerage accounts:		
Mutual funds	488,635	794,489
Common stocks	426,337	177,097
Total	$ 1,638,250	$ 1,974,296

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards* Codification (ASC) 820, *Fair Value Measurements and disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year-end.

Money market funds: These funds are valued using amortized cost which approximates fair value.

Common stocks and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts: Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Quoted market prices of the underlying assets have been used to determine the fair value of investments in pooled separate accounts.

Life insurance: Valued at the net cash surrender value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There is no gain or loss for 2010 or 2009 included in changes in net assets attributable to the change in unrealized gains or losses relating to level 3 assets still held at the reporting date.

NOTE 5 PARTY-IN-INTEREST TRANSACTIONS

John Hancock Life Insurance Company (John Hancock) is the custodian of certain plan assets and record keeper to the Plan. Transactions with John Hancock qualify as party-in-interest transactions. Fees paid to John Hancock by the Plan for these services amounted to $27,081 and $22,287 for the years ended December 31, 2010 and 2009, respectively. John Hancock also deducts an asset fee which reduces the participant's investment return.

Certain Plan investments are managed by various other investment firms. Transactions with these firms qualify as party-in-interest transactions. Fees paid to these firms by the Plan for these services amounted to $25,688 and $21,894 for the years ended December 31, 2010 and 2009, respectively. These firms may also deduct an asset fee which reduces the participant's investment return.

NOTE 6 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements for the years ended December 31, 2010 and 2009 and supplemental schedules has been certified as complete and accurate by John Hancock, a custodian of the Plan:

	2010	2009
Investments, at fair value:		
Pooled separate accounts	$ 6,147,114	$ 4,939,776
Participant loans	$ 94,156	$ 123,377
Investment income	$ 703,693	$ 993,210

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions

NOTE 8 TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS. However, there are currently no audits for any tax periods in progress. The Plan sponsor believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
