INDEPENDENT AUDITOR'S REPORT

October 11, 2011

Radiology Associates, L.L.P. 401(K) Profit Sharing Plan
Corpus Christi, Texas

We were engaged to audit the financial statements of Radiology Associates, L.L.P. 401(K) Profit Sharing Plan as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedules as of and for the years ended December 31, 2010 and 2009 as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Charles Schwab Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the December 31, 2010 and 2009 financial statements and supplementary schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee, as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RADIOLOGY ASSOCIATES, L.L.P
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

Note 1 - DESCRIPTION OF PLAN

The financial statements of the Radiology Associates, L.L.P. 401(k) Profit Sharing Plan (the "Plan") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to employee retirement plans and in accordance with the terms of the trust agreement. The Plan is designed to hold and invest Plan assets for retirement benefits of the Plan participants. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution plan covering all employees of Radiology Associates, L.L.P., who have attained the age of 19 and completed one year of service. The Plan became effective April 1, 1982. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company contributes on behalf of each participant an amount elected by the participant in his or her salary modification agreement. The Plan provides for discretionary employer matching contributions. Additionally, the Plan provides for discretionary employer contributions. Amounts forfeited during the Plan year shall be used to reduce matching contributions.

The Plan adopted the Automatic Deferral Provision of the Pension Protection Act of 2006. Under the Automatic Deferral Provision, an Eligible employee is automatically enrolled in the Plan at a specific pretax contribution percentage (Automatic Deferral Amount) unless the employee specifically opts out. The minimum permitted elective deferral amount for each Eligible participant is set at one percent of the employee's compensation.

Participant Accounts

Each participant's account is credited with an allocation of participant contributions, the employer contribution and Plan earnings. Allocations of discretionary employer contributions, if any, will be allocated to participants, based on the ratio of each participant's compensation to total compensation of all eligible participants. Allocations of Plan earnings are based upon the ratio of each participant's average account balance to the total of all participants' average account balances, except for self-directed accounts. Each self-directed account is allocated its earnings on its separately maintained brokerage account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Note 1 - DESCRIPTION OF PLAN - (Continuation)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Vesting

Participants are immediately vested in elective contributions, rollover contributions, and transfer contributions, plus or minus any earnings or losses. Any contribution not listed in the previous sentence will vest as follows:

YEARS OF SERVICE	VESTING PERCENTAGE
1	0%
2	40%
3	60%
4	80%
5	100%

Payment of Benefits

Benefits are distributable upon termination or retirement. Normal retirement age under the Plan is sixty-five. Benefits are normally paid in a lump sum. The participant may elect an alternative form of payment.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $18,606 and $11,140 respectively. These accounts will be used to reduce future employer contributions.

Note 2 – SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 11, 2011, which is the date the financial statements were available to be issued.

Application of Recent Accounting Pronouncement

Financial Accounting Standards Board (FASB) Accounting Standards Codification ASC 962-310 states that for reporting purposes participant loans should be classified as notes receivable from participants. Participant loans should be measured at their unpaid principal balance plus any accrued but unpaid interest. In addition, FASB ASC 825-10 states that the fair value disclosures for financial instruments are not required for participant loans. However, participant loans continue to be considered an investment for Form 5500 reporting purposes.

Note 2 – SUMMARY OF ACCOUNTING POLICIES - (Continuation)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Contract values are determined using a discounted cash flow valuation methodology where the interest rate is reset at least as frequently as annually.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

Gains and losses on the sale of investments in registered investment company funds are computed using the weighted average cost method.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses are paid by the Plan unless paid by the Employer.

Note 3 - INFORMATION CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the Trustee, Charles Schwab Trust Company:

	2010	2009
Investments:		
Common and Collective Trust, at Contract Value	851,442	883,750
Mutual Funds, at Fair Value	8,943,056	7,391,734

TOTAL INVESTMENTS	18,077,697	15,570,789
Investment Income	2,133,199	2,818,653

Note 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. Level 1 inputs include quoted prices for similar assets or liabilities in active markets; and quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2 inputs to the valuation methodology are other than quoted prices that are observable for the asset or liability. Level 2 inputs are inputs derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are inputs that are unobservable and significant to the fair value measurement.

Note 4 – FAIR VALUE MEASUREMENTS - (Continuation)

The Plan's investments at December 31, 2010 and 2009 are reported at fair value in the accompanying statement of net assets available for benefit.

Valuation Methodology

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – FAIR VALUE MEASUREMENTS - (Continuation)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at the end of the year. The fair value of the money market fund in the Self-Directed Retirement Accounts is based on a dollar for dollar value of the cash reserves in the account. The money market fund seeks to preserve the value on a $1 investment at $1 per share. The fair value of the common stocks and the Unit Investment Trust funds in the Self-Directed Retirement Accounts are based on available quoted market prices. The Unit Investment Trust funds are comprised of various Exchange Traded Funds (ETFs) which trade on stock exchanges much like stocks.

Level 2 Fair Value Measurements

The fair value of corporate bonds in the Self–Directed Retirement Accounts for which quoted market prices are not available are based on yields currently available on comparable securities of issuers with similar credit ratings.

The fair value of certain units of Common and Collective Trusts are based on significant other observable inputs. Underlying investments include corporate bonds, foreign corporate securities, asset-backed obligations, U.S. government agency securities, U.S. treasury obligations, and commercial paper. The fair value of the collective trust fund is the respective net asset values reported by the fund daily.

Level 3 Fair Value Measurement

The fair value of certain units of Common and Collective Trusts that are not actively traded and significant other observable inputs are not available is based on the fair value of the underlying wrap contracts (synthetic GICs) which is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 6). The fair value of the collective trust fund is the respective net asset values reported by the fund daily.

The shares of the limited liability partnership included in the Other Assets Outside of Schwab are not actively traded and significant other observable inputs are not available. The fair value of the limited liability partnership represents the related party issuer's estimate of the net cash that would be distributed if the partnership was liquidated. It is calculated by deducting the total debt from the estimated sale price net of selling costs estimated at 7% of the estimated sale price. The following table provides further details of the Level 3 fair value measurements.

Gains and losses for fair value measurements using level 3 inputs (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 and 2009, are reported in Realized and Unrealized Gain on Investments.

TOTAL INVESTMENTS	18,299,075	15,697,603

In 2010 and 2009, the Plan's investments whose fair values have been measured by quoted prices in active markets (including realized gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,824,912 and $2,344,699 respectively.

In 2010, the Plan's investments whose fair values have been otherwise determined (including realized gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $78,649 and depreciated by $80,011 in 2009.

Note 6 – COMMON AND COLLECTIVE TRUSTS

The Plan has a benefit-responsive investment contract with Charles Schwab Investment Management, Inc (Schwab Investment Management). Schwab Investment Management maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the trust statements at contract value and adjusted to fair value on the financial statements, as reported to the Plan by Schwab Investment Management. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Schwab Stable Value Fund provides a guarantee of principal and a guaranteed interest rate backed by the entire general account assets of Schwab Investment Management.

Note 6 - COMMON AND COLLECTIVE TRUSTS - (Continuation)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $873,409 and $889,848 respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent to ensure that participant's principal and accrued interest will be protected. Such interest rates are reviewed on a monthly or quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

	2010	2009
Average Yields:		
Based on Annualized Earnings (1)	2.26%	2.65%
Based on Interest Rate Credited to Participants (2)	2.73%	3.06%

(1) Computed by dividing the annualized earnings of all investments in the Fund, irrespective of the interest rate credited to participants in the Fund, by the fair value of all investments in the Fund for the year ended December 31, 2010 and 2009.

(2) Computed by dividing the annualized earnings of all investments in the Fund, with an adjustment to reflect the interest rate credited to participants in the Fund, by the fair value of all investments in the Fund for the year ended December 31, 2010 and 2009.

Note 7 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and collective investment trust funds managed by Charles Schwab Investment Management, Inc. and Charles Schwab Trust Company. Charles Schwab Trust Company is the Trustee for the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $4,235 for the year ended December 31, 2010.

Certain Plan investments held outside of Schwab are limited partnership investments brokered and managed by Sherron Associates on behalf of a Self-Directed Account participant. This investment relationship qualifies Sherron Associates as a party-in-interest.

Note 8- INVESTMENT PROGRAMS

All investments of the Plan are participant-directed. The Plan currently sponsors over thirty investment options for participants. Participants are allowed to change their investment election at any time.

Note 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or complete discontinuance of contributions, participants will become 100% vested in their accounts.

Note 10 - TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designated.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Company's evaluation was performed for the tax periods ended December 31, 2007 through December 31, 2010, the tax years which principally remain subject to examination by major tax jurisdictions as of December 31, 2010

Note 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13 – RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net increase in net assets per the financial statements for the years ended December 31, 2010 and 2009 to the Schedule H of Form 5500:
