INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Golden Peanut Company 401(k) Plan
Alpharetta, GA

We were engaged to audit the accompanying financial statements and supplemental schedule of the Golden Peanut Company 401(k) Plan (the Plan) as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Branch Banking and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GOLDEN PEANUT COMPANY 401(k) PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Note 1 - Description of plan:

The following description of the Golden Peanut Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Golden Peanut Company (the Company). The Plan is a defined contribution plan covering all full-time salaried employees of the Company, excluding non-resident aliens with no U.S. source income, who have completed 30 days of service and all part-time salaried employees who have completed 1,000 hours of service in a consecutive 12-month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company was owned 50/50 by Alimenta (USA) Inc. (Alimenta) and Archer-Daniels-Midland Company (ADM). Effective December 31, 2010, ADM acquired Alimenta and as a result of the transaction, now owns 100% of Golden Peanut.

Contributions

Employees may elect to defer a percentage of annual wages or any dollar amount up to allowed limits prescribed by the Internal Revenue Code (the Code). Participants who are expected to reach age 50 or older during the calendar year and are making the maximum pre-tax contribution per the Code may elect to make a separate election to take advantage of the catch-up contribution. Effective January 1, 2010, the Plan also allows Roth 401(k) deferrals as an option for participants. The Company matches a discretionary percentage of the participant contributions. The Company match is determined by the Company's prior year profits. If the Company profit is less than \$10 million, the match is 25% of each participant's salary reduction contributions on the first 6% of base compensation deferred. If the Company profit is greater than \$10 million, the match is 50% of each participant's salary reduction contributions on the first 6% of base compensation deferred. For the year ended December 31, 2010, the Company match totaled \$551,615. Participants in the Plan may allocate their contributions and employer contributions made on their behalf into various investment options.

December 31, 2010 and 2009

Note 1 - Description of plan - continued:

Participant accounts

Each participant account is credited with the respective participant contributions, an allocation of the Company matching contribution, and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, and the related investment income on those funds. Vesting in the Company matching contributions and the earnings thereon is based on years of continuous service as follows:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	10%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

If the participant dies, becomes disabled, or reaches the early retirement age of 55 while still employed by the Company or if the Company terminates the Plan, all Company contributions and earnings allocated to the participant accounts become 100% vested.

Note 1 - Description of plan - continued:

Payment of benefits

Upon termination of service, the participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In general, required minimum distributions begin at the later of termination of employment or when the participant reaches age 70½. Participants with vested benefits greater than \$5,000 may elect to receive payment at any time. For payments that represent vested benefits between \$1,000 and \$5,000, where the participant does not make an affirmative election either to receive the distribution in a lump-sum payment or to roll over the distribution to an eligible retirement plan, the amounts are directly rolled over to an individual retirement account set up for the participant. For any vested balance below \$1,000, a lump-sum distribution is to be made as soon as administratively possible following the participant's termination, unless the participant makes an affirmative election either to receive the distribution in a lump-sum payment or to roll over the distribution to an eligible retirement plan.

Notes receivable from participants

The Plan contains a provision that allows participants to borrow funds against their account balances subject to certain terms. Participants may borrow up to 50% of their vested balances, not to exceed a maximum note amount of \$50,000. Note terms are generally for a period not exceeding five years and bear interest at an agreed upon percentage based on prevailing market rates. Notes are paid ratably through payroll deductions and are secured by the balance in the participant's account. Participants are allowed to elect one note per calendar year, up to a maximum of two notes outstanding at any given time.

Administrative expenses

The Company is generally responsible for the Plan's administrative expenses. Any expenses not paid by the Company will be deducted from Plan assets. Administrative expenses of \$13,924 were paid by the Plan during 2010.

Forfeited accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled \$20,543 and \$15,475, respectively. Forfeitures of terminated participant non-vested accounts are used to reduce the Company matching contributions for the Plan year. Forfeited amounts are maintained in the Vanguard Group Retirement Savings Trust Fund and are included in investments in the statements of net assets available for benefits. During 2010, the Company used \$3,317 in forfeited amounts towards matching contributions.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification or ASC). The Codification is the single source of authoritative generally accepted accounting principles in the United States (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with U.S. GAAP.

Fully benefit-responsive investment contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the common/collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as the adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the common/collective trust fund. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

GOLDEN PEANUT COMPANY 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

- Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year end by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation of the common/collective trust fund are valued by the fund's trustee based on the fair value of the underlying assets of the fund at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

GOLDEN PEANUT COMPANY 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

There were no significant transfers between Level 1 and Level 2 investments, or into and out of Level 3 investments, during the year ended December 31, 2010.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and changes therein during the reporting period. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan invests in various investment securities such as registered investment companies and common/collective trust funds. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies - continued:

New accounting pronouncements

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures*, (ASU No. 2010-06) which amended ASC Topic 820, *Fair Value Measurements and Disclosures*, (ASC Topic 820) by requiring disclosure of significant transfers between Levels 1 and 2 and transfers into and out of Level 3 of the fair value hierarchy and the reasons for those transfers. In addition, ASU No. 2010-06 amends the reconciliation of the beginning and ending balances of Level 3 recurring fair value measurements to present information about purchases, sales, issuances, and settlements on a gross basis rather than as a net number. Finally, ASU No. 2010-06 requires fair value disclosures for each class of assets and liabilities and changes the guidance for employers' disclosure about pension and other postretirement benefit plan assets to require that they be made for classes of assets instead of major categories. ASU No. 2010-06 was effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. The Plan adopted the required provisions of ASU No. 2010-06 on January 1, 2010. The adoption of ASU No. 2010-06 did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting-Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU No. 2010-25) which amended ASC Topic 962, *Plan Accounting - Defined Contribution Pension Plans*, adding new disclosure requirements for participant loans. ASU No. 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU No. 2010-25 is effective for periods ending after December 15, 2010, with early adoption permitted. The adoption of ASU No. 2010-25 required the Plan to retrospectively classify participant loans as notes receivable from participants rather than as Plan investments for the year ended December 31, 2009 as reported in the statements of net assets available for benefits. Prior to the adoption of ASU No. 2010-25, the Plan included the amount of notes receivable from participants of \$481,717 in the line titled participant loans, stated at fair value in the statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2011, which is the date these financial statements were available to be issued. All subsequent events requiring recognition as of December 31, 2010, have been incorporated into these financial statements.

Note 3 - Investments and information certified by trustee:

All investment information disclosed in the accompanying financial statements and supplemental schedule of assets held, including investments held at December 31, 2010 and 2009, and net appreciation in fair value of registered investment companies, and dividends and interest, for the year ended December 31, 2010, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee, Branch Banking and Trust Company (BB&T).

The following is a summary of investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009:

	2010	2009
Dodge & Cox Income Fund	\$ 3,175,884	\$ 2,421,971
Dodge & Cox International Stock Fund	1,040,936	*

Vanguard PRIMECAP Fund	1,788,684	1,688,931
Vanguard Wellington Fund	1,207,465	1,271,639
Vanguard Windsor II Fund	1,290,101	1,061,387
The Vanguard Group Retirement Savings Trust Fund	4,050,317	4,577,315

* Indicates investment is less than 5% of net assets as of December 31, 2009.

Note 4 - Related-party transactions:

The Plan pays certain administrative expenses to BB&T. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Note 5 - Plan termination:

The Company has the right under the Plan, although it has not expressed any intent to do so, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

GOLDEN PEANUT COMPANY 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 6 - Tax status:

The Plan has adopted a prototype plan document (the Prototype Plan Document) with BB&T as the prototype plan sponsor. BB&T has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service (IRS) stating that the Prototype Plan Document satisfies the applicable provisions of the Code and thus the Plan is qualified and the related trust is tax-exempt. The Company has chosen to rely on the opinion letter granted to the Prototype Plan. While the Plan has been amended since the prototype received the IRS opinion letter, the Plan still uses the Prototype Plan Document. The Plan administrator and the Plan's legal counsel believe that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.
