REALTEK INDUSTRIES, INC. 401(K) PLAN
Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - Description of the Plan:

The following description of the Realtek Industries, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan, established January 1, 1996 to provide future security for the employees of the Company, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was terminated effective December 31, 2009. Plan assets were distributed directly to the participants. Those participants who were hired by one of the Burton Carol Management Companies, or one of the properties managed by Burton Carol Management, were given the option to make a tax-free rollover of their Realtek distribution proceeds to one of the Burton Carol Management 401(k) Plans.

Eligibility and participation:

All employees of the Company become eligible to participate on or after age 21 and completing one year of eligibility service, which is accomplished after completing 1,000 hours of service during the first twelve months of employment or 1,000 hours of service in any calendar year thereafter.

Contributions:

Employee voluntary salary reduction contributions:

Each participant may elect voluntary salary reduction contributions of from 1% to 89% of compensation not to exceed Internal Revenue Tax Code prescribed limitations. A participant's election may be canceled at any time, and the rate or amount of salary reduction may be changed effective the beginning of any month.

Employer matching and discretionary contributions:

The Company will make a matching contribution equal to 25% of the first 4% of compensation contributed by each participant. The Board of Directors of the Company may also elect to make a discretionary contribution.

Participant accounts:

Each participant's account is credited with the participant's contribution, and the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

A participant's salary reduction contributions are always fully vested.

REALTEK INDUSTRIES, INC. 401(K) PLAN
Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - continued.

The vesting schedule under the Plan with respect to employer matching and discretionary contributions is as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
At least 2 but less than 3	20%
At least 3 but less than 4	40%
At least 4 but less than 5	60%
At least 5 but less than 6	80%
6 or more	100%

For purposes of the above vesting schedule, a "year of service" is a measuring period beginning from the employee's date of hire. An employee will be credited with a year of service for each twelve-month period beginning on the employee's date of hire and ending on his last day of employment with the Company.

Note 1 - continued.

Neuberger Berman Partners Fund - Advisor Class - invests mainly in common stocks of mid- to large-capitalization companies.

Templeton Growth Fund, Inc. - Class R - invests generally in common stocks, although it may invest in all types of securities issued in any nation.

Participants may change their investment selections or transfer their existing balances so that a new "mix" of investments is selected. Transfers of funds between investment options may be elected effective the beginning of any month but not more often than every 90 days.

Participant loans:

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the highest outstanding balance of Plan loans during the prior one-year period.

Loans are repaid through payroll deduction over a maximum term of five years. Loans used to purchase a primary residence may be repaid over 30 years. All loans are secured by the vested balance in the participant's account and will bear a reasonable rate of interest similar to what a bank or other professional lender would charge for making a loan in a similar circumstance. Since loans in this Plan are considered a directed investment, principal and interest payments will be credited to the participant's account.

Distributions to participants:

The Plan provides that a participant's vested account balance is to be distributed upon termination of employment. Participants with an account balance greater than \$3,500 may choose to receive monthly installments or defer receiving payments until age 70. All other payments are made exclusively on a cash lump-sum basis. A participant may elect to receive a pre-retirement distribution if such person has reached the age of 59. Participants under the age of 59 may also elect financial hardship distributions of vested funds. Circumstances that qualify for financial hardship are: (a) medical expenses not covered by insurance; (b) the purchase of a principal residence; (c) post-secondary tuition costs for the next twelve months; and (d) the need to prevent eviction from or foreclosure on a principal residence. The minimum hardship request is \$500.

Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - continued.

Forfeitures:

Forfeitures of nonvested account balances are used to reduce the matching contribution due from the employer.

Plan termination:

The Company filed a Plan Termination Confirmation Form with the trustee effective December 21, 2009. Upon termination, all participants automatically become fully vested and are entitled to their total account balance under the Plan.

Administration:

The Plan is administered by an administrative committee whose members are designated by the Company. Administrative expenses of the Plan are paid by the Company.

Note 2 - Significant accounting policies:

The accompanying financial statements have been prepared under the modified cash basis of accounting, under which securities investments have been adjusted to fair value.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income recognition:

Participant and employer contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' compensation. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

Realized gains or losses on security transactions are recorded in an amount equal to the difference between the net proceeds received and original cost if acquired during the year, or original cost plus any unrealized appreciation or depreciation prior to the beginning of the year if acquired prior to the current year.

Investments:

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participant loans are valued at cost, which approximates fair value.

REALTEK INDUSTRIES, INC. 401(K) PLAN
Notes to Financial Statements
December 31, 2010 and 2009

Note 2 - continued.

The net change in market values between each year-end is reflected in the statements of changes in net assets available for Plan benefits. Upon disposition of these investments, the proceeds are applied against the market value at the beginning of the year, at cost if purchased during the year, and any resulting gain or loss is reflected in the statements mentioned above.

Investments are self-directed by participants, and individual accounts are maintained.

Fair value measurements:

The Fair Value Measurements and Disclosure topic of FASB ASC defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. Fair Value Measurements and Disclosure does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

REALTEK INDUSTRIES, INC. 401(K) PLAN
Notes to Financial Statements
December 31, 2010 and 2009

Note 2 - continued.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of shares held by the Plan at year-end.

Fixed investments: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Evaluation of subsequent events:

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through the date of the auditor's report on these financial statements.

Accordingly, no provision for Federal income taxes is required.

Note 5 - Party-in-interest transactions:

During 2010, there were no prohibited transactions with a party-in-interest, as defined under ERISA.

Note 6 - Reportable transactions:

A reportable transaction is a single transaction or series of transactions in excess of 5% of the value of the Plan's assets as of the beginning of the Plan year. There were no reportable transactions for the year ended December 31, 2010 due to the fact that the Plan is fully participant-directed.
