TAX SHELTERED 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

NOTE A - SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Moldex-Metric, Inc. Profit Sharing and Tax Sheltered 401(k) Retirement Plan (the Plan) are maintained on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts are stated at contract value which is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation

Plan investments are participant-directed. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest based on the interest rate and repayment terms specified in the loan documents. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Income Recognition and Payment of Benefits

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Income from participant contributions is recognized in the period coinciding with the associated payroll deductions. Employer contributions are recognized in the annual accounting period from which the contribution is determined. Benefits payments are recorded when paid to the participants or in the period when deemed a distribution by the plan administrator.

NOTE A - SUMMARY OF ACCOUNTING POLICIES (Continued):

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires that the plan administrator make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of Plan income and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications
Certain amounts in the 2009 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2010 financial statements with no effect on previously reported income.

Date of Management 's Review
Subsequent events were evaluated through October 6, 2011, which is the date the financial statements were available to be issued.

NOTE B - DESCRIPTION OF THE PLAN:

The Plan was adopted as of August 1, 1974 to provide benefits to employees of Moldex-Metric, Inc. as a profit sharing plan. The Plan was amended and restated as of August 1, 1984 to provide benefits under I.R.C. Section 401(k). It is a voluntary salary-deferral plan designed to enable employees to maintain tax deferred savings accounts. The Plan was amended and restated as of July 1, 2002 and again as of September 2, 2005. On February 19, 2010, the Plan was amended and converted to adopt the Fidelity Volume Submitter Defined Contribution Profit-Sharing/401k Plan.

The following brief description of the amended Plan is provided for general information only. Participants should refer to the plan agreement for more complete information.

1. Eligibility. Each employee shall be eligible to participate on the first entry date following the completion of 1,000 hours of service.

2. Employee Contributions. Employees may contribute up to 75% of their salaries pursuant to salary deferral agreements subject to maximum amounts allowable by the Internal Revenue Code. All such agreements are voluntary.

NOTE B - DESCRIPTION OF THE PLAN (Continued):

3. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of employer discretionary contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Employer Discretionary Contributions. The employer may make discretionary contributions to the Plan subject to limitations imposed by the Internal Revenue Code. Discretionary contributions for the plan years ended December 31, 2010 and 2009 were determined as follows:

   Participant Group A - consists of one participant. For the plan years ended December 31, 2010 and 2009, this group received a discretionary contribution of $25,000, subject to limitations under Internal Revenue Code.

   Participant Group B - consists of six participants. For the plan years ended December 31, 2010 and 2009, participants in this group each received discretionary contributions of $10,000.

   Participant Group C - consists of all other eligible participants. For the plan years ended December 31, 2010 and 2009, this group received discretionary contributions equal to 4.17%, of eligible compensation.

5. Vesting. Employer discretionary contributions are subject to a five-year vesting schedule.

6. Notes Receivable from Participants. Participants may borrow from their vested fund accounts a minimum of $1,000 and a maximum of the lesser of $50,000 or 50% of their account balance. Loan terms may range from one to five years for general-purpose loans and up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participants' account and bear interest at a rate commensurate with the local prevailing rate as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

7. Expenses of Plan. The Plan absorbs all significant costs of administering the Plan.

NOTE B - DESCRIPTION OF THE PLAN (Continued):

8. Payments of benefits. Benefits are payable when one of the following events occurs:

   a. The participant retires upon reaching age 65.
   b. The participant terminates employment.
   c. The participant reaches age 59 1/2 and elects to withdraw part or all of his or her account.

   In any case, benefits shall be paid at age 70 1/2. Special provisions apply in the case of death, disability or severe financial hardships.

9. Forfeited Accounts. Forfeitures are allocated to active participants' accounts. At December 31, 2010 and 2009, forfeited non-vested accounts totaled $131,935 and $119,300, respectively.

NOTE C - FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements: The fair value of mutual funds and cash in interest bearing money market mutual fund accounts is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE C - FAIR VALUE MEASUREMENTS (Continued):

Level 2 Fair Value Measurements: The fair value of certain investments in a common/collective trust primarily comprised of fully benefit responsive investment contracts for which quoted market prices are not available is valued based on the sum of the market value of all of the fund's underlying investments.

The following summarizes, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009

The following is a description of the participant-directed investment options representing more than 5% of net assets at December 31, 2010 or 2009.

- Fidelity Advisor Stable Value Portfolio - a stable value fund which is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans and is managed by Fidelity Management Trust Company. The portfolio's investment objective is to seek to preserve principal investment while earning interest income. The portfolio will try to maintain a stable $1 unit price with fluctuating yield, and invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity, as well as in "wrap contracts".

- Fidelity Advisor Freedom 2020 Fund: Class A - a mutual fund that seeks to provide high total return with a secondary objective of principal preservation as the fund approaches its target date and beyond. The fund invests in a combination of Fidelity equity, fixed-income, and money market funds, allocating assets using an asset allocation strategy.

- Columbia Value & Restructuring Fund: Class R - a mutual fund that seeks to provide long-term capital appreciation by investing in companies that may benefit from their restructuring or redeployment of assets and operations and primarily invests 65% of its total assets in common stocks and foreign companies that the adviser believes are undervalued by the market.

NOTE D - INVESTMENTS (Continued):

- Oppenheimer Developing Market: Class A - a growth mutual fund that seeks to provide capital appreciation and primarily invests in common stocks of issuers in emerging and developing markets throughout the world.

- Columbia Acorn Select: Class A - a mutual fund that seeks to provide long-term growth of capital and generally invests in stocks of U.S. companies. The fund is a non-diversified fund that invests in a limited number of companies, typically in companies with a strong business franchise that offers growth potential, provides products and services that give the company a competitive advantage, and a stock price that is reasonable relative to the assets and earning power of the company.

- PIMCO Total Return Fund: Class R - a bond mutual fund that seeks to provide maximum total return, consistent with preservation of capital and prudent investment management and normally invests primarily in investment grade debt securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher by Moody's or S&P or, if unrated, determined by PIMCO to be comparable quality.

- Fidelity Advisor Freedom 2010 Fund: Class A - a mutual fund that seeks to provide high total return with a secondary objective of principal preservation as the fund approaches its target date and beyond. The fund invests in a combination of Fidelity equity, fixed-income, and money market funds, allocating assets using an asset allocation strategy.

NOTE E - INCOME TAX STATUS:

The Internal Revenue Service (the IRS) has determined and informed the employer by a determination letter dated June 13, 2005, that the Plan and related trust, as then designed, were in compliance with the applicable sections of the Internal Revenue Code. The Plan has been amended and restated since receiving the determination letter. Effective February 19, 2010, the Plan has been amended and converted to adopt a Fidelity volume submitter plan. The IRS has determined and informed the designer of the volume submitter plan by a letter dated March 31, 2008 that the volume submitter plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan and related trust are operated in compliance with the applicable requirements for the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE E - INCOME TAX STATUS (Continued):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE F - TRANSACTIONS WITH PARTIES-IN-INTEREST:

No fees were paid during the year to parties-in-interest.

NOTE G - TERMINATION OF THE PLAN:

Although the employer has not expressed any interest in doing so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of termination of the Plan, all assets would be distributed to participants in proportion to their respective account balances.

NOTE H - ACCUMULATED BENEFITS FOR TERMINATED EMPLOYEES:

Net assets available for benefits at December 31, 2010 and 2009 include approximately $1,406,000 and $1,245,000, respectively, of accumulated benefits for terminated employees.

NOTE I - FINANCIAL INFORMATION PREPARED AND CERTIFIED BY PLAN TRUSTEE (UNAUDITED):

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
