To the Administrative Committee of
the TEM Enterprises 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of TEM Enterprises 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the Supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employees Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the TEM Enterprises ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution 401(k) plan covering all employees of the Company. Employees are eligible to make elective deferrals to the Plan at age 18 with no minimum amount of service. Employees may receive an allocation of any employer contributions at age 21 and one year of service. Employees are credited with a year service for eligibility purposes if they work 1,000 or more hours during a 12 month consecutive period beginning on the day they perform their first hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute from 1% to 80% of pretax annual compensation, as defined in the Plan. These contributions are subject to annual limitations by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified retirement plans. It is at the Company's discretion to elect to contribute to the Plan with a matching contribution for participants. The percentage of Company match is also at their discretion. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several registered investment companies (mutual funds) and common collective trusts as investment options for the participants. The Company elected to not make matching contributions for the Plan years ended 2010 and 2009.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and the Plan's earnings (losses). Allocations are based on participant earnings or account balances, as defined. The trustee, State Street Bank and Trust Company, maintains participant accounts for the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earning thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants:

Participants may borrow from their account a minimum of $500 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the balance in the participant's account and such additional collateral as the Administrative Committee may from time to time consider prudent. The notes bear interest at rate of prime (as printed by the *Wall Street Journal* on the fourteenth day of each month) at the time the loan is taken plus two percentage points.

Principal and interest is paid ratably through monthly payroll deductions within five years, unless the note is for a primary residence and it must be paid within thirty years.

Payment of Benefits:

Upon termination of service due to termination, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest or they may receive a direct rollover to another qualified plan. If or when the participant's total vested benefit value is $1,000 or less, the Plan requires the administrator to direct the trustee to pay the entire vested benefit to the participant in a lump sum. If the value of the participant's total vested benefit value exceeds $1,000 but does not exceed $5,000, and the participant fails to elect to receive a distribution from the Plan in either a single lump sum or a direct rollover to an eligible retirement plan, the Plan administrator will select an individual retirement account trustee, custodian or issuer that is unrelated to the Company and shall make a payment in behalf of the participant in the form of direct rollover. The initial investment choices for such account will be made by the Plan administrator.

Forfeitures:

Forfeitures of non-vested contributions reduce the Company's contributions and are reallocated to active participants. There were no forfeitures for the Plan years ended 2010 and 2009.

Expenses of the Plan:

The Company has elected to absorb a significant portion of the operating costs of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes Receivable from Participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be classified as notes receivable from participants. Previously loans were classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25, and the resulting change in accounting principle did not change the value of participant loans from the amount previously reported as of December 31, 2009 and had no impact on the Plan's net assets. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Investment income (loss) is recorded as earned on a daily basis. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for various investments, which in general are exposed to various risks, such as interest rate, credit and overall volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles require the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment contracts held by defined contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

At December 31, 2010 and 2009, the plan investment portfolio includes common collective trusts (CCT) that holds fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits presents the fair value of the CCT's as well as an adjustment of the fully benefit-responsive investment contracts of the CCT's from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Payment of Benefits:

Benefits are recorded when paid.

Subsequent Events:

Management has evaluated subsequent events through September 27, 2011 the date financial statements were available to be issued, and the financial statements have not been updated for subsequent events occurring after that date.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified by the State Street Bank and Trust Company and was not subjected to any auditing procedures by the independent auditor.

1. Investments as shown in the accompanying Statements of Net Assets Available for Benefits of $525,813 and $584,853 as of December 31, 2010 and 2009, respectively.

2. Notes receivable from participants as shown in the accompanying Statements of Net Assets Available for Benefits of $18,782 and $26,532 as of December 31, 2010 and 2009, respectively.

3. Investment income (loss) of $89,449 and $88,871 for the years ended December 31, 2010 and 2009, respectively, as shown in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE 4 - INVESTMENTS

The following table presents the fair value of investments. Those that represent 5% or more of the Plan's net assets available for benefits have been separately identified:

	December 31, 2010	December 31, 2009

	$ 525,813	$ 584,853

* Less than 5% of investments included for comparative purposes.
** Represents fair value. Contract value as certified by the trustee is $58,641 and $224,406 for the years ended December 31, 2010 and 2009, respectively.
*** Represents fair value. Contract value as certified by the trustee is $106,434 and $32,465 for the years ended December 31, 2010 and 2009, respectively.

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated (depreciated) in value by $78,112 and $80,834 for the years ended December 31, 2010 and 2009, respectively. The net appreciation (depreciation) in value by investment type is as follows:

	2010	2009
Net appreciation (depreciation) of investments:		
Mutual funds	$ 55,796	$ 68,575
Common collective trusts	22,316	12,259
	$ 78,112	$ 80,834

NOTE 5 – FAIR VALUE MEASUREMENTS

The Plan's investments are held in trust and administered by the trustee. Financial Accounting Standards Board (FASB), *Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to assess.

Level 2 Inputs to the valuation methodology include quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, and inputs other than quoted prices that are observable (either directly or indirectly) for substantially, the full term of the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for Level 2 and Level 3 assets measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

Common collective trusts: Valued at fair value of the underlying investments as reported in the audited financial statements of the collective trust at year end. The CCT is primarily invested in fully benefit-responsive investment contracts, including guaranteed investment contracts and synthetic investment contracts, contracts issued by banks, insurance companies and other issuers. The fair value of the guaranteed investment contracts is generally determined by discontinuing the scheduled future payments required under the contract. For assets other than investment contracts, including securities underlying synthetic investment contracts, fair value generally is reflective by market value at close of business on the valuation date. There are no redemption restrictions on the participant's holding in these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participant, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

		Fair Value Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2010				
Mutual funds:				
Bond funds	$ 84,368	$ 84,368	$ -	$ -
Asset allocation funds	72,820	72,820	-	-
Stock funds	4,392	4,392	-	-
Growth funds	197,342	197,342	-	-
Common collective trusts	166,891	-	166,891	-
Total	$ 525,813	$ 358,922	$ 166,891	$ -
December 31, 2009				
Mutual funds:				
Bond funds	$ 85,224	$ 85,224	$ -	$ -
Asset allocation funds	85,357	85,357	-	-
Stock funds	8,103	8,103	-	-
Growth funds	143,442	143,442	-	-
Common collective trusts	262,727	-	262,727	-
Total	$ 584,853	$ 322,126	$ 262,727	$ -

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 and 2009 are reported in net appreciation (depreciation) in fair value of investments.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or their beneficiary.

NOTE 7 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500 (which was prepared using the cash basis of accounting):

	2010	2009
Net assets available for benefits per the financial statements	$ 547,398	$ 611,892
Contribution receivable at December 31	(4,619)	(6,363)
Net assets available for benefits per the Form 5500	$ 542,779	$ 605,529

The following is a reconciliation of participant contributions per the financial statements to the Schedule H of Form 5500 for the year ended December 31, 2010 and 2009:

	2010	2009
Participant contributions per the financial statements:	$ 108,428	$ 92,018
Add: Contributions receivable at the end of the prior year	6,363	3,778
Less: Contribution receivable at the end of the year	(4,619)	(6,363)
Participants contributions per the Form 5500	$ 110,172	$ 89,433

NOTE 8 – TAX STATUS

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC) and, accordingly, the Trust's net investment income is exempt from income taxes. The Plan has adopted the ADP Prototype 401(k) and Profit Sharing Plan, which obtained its latest favorable tax determination letter from the Internal Revenue Service on March 31, 2008. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are

currently no income tax audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 – RELATED PARTY TRANSACTIONS

The Plan invests in shares of common collective trusts which are managed by State Street Bank and Trust Company. State Street Bank and Trust Company acts as the trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.
