XORIANT CORPORATION 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

General **-** The following description of the Xoriant Corporation 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1997 by Xoriant Corporation ("the Company" or "Plan Administrator") covering all eligible employees of the Company as defined in the Plan agreement. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration **-** An Administrative Committee ("the Committee") manages the operation of the Plan. Effective June 25, 2010, the Company contracted with State Street Bank and Trust Company ("State Street"), to act as trustee and custodian. Through June 25, 2010, JP Morgan Chase Bank, N.A. ("JP Morgan") was the Plan trustee and custodian. The Company has contracted with a third-party record-keeper to process and maintain the records of participant data.

Contributions **-** Each year, participants may contribute up to an annual maximum of 90% of eligible compensation as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who are age 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make discretionary matching contributions to the Plan each year. In 2010, the Company matched 25% of a participant's contribution up to a maximum of 6% of compensation. The Company match in the amount of approximately $34,000 for 2010 was entirely funded through forfeitures in 2011.

Participant Accounts **-** Each participant's account is credited or charged with the participant's contribution, the Company's matching contribution (if any), Plan earnings or losses, and Plan expenses as applicable to the Plan. Plan earnings and losses are credited or charged to participant accounts based on participant investment choices. All contributions/investments are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain fees are charged by the custodian and included in investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting **-** Participants are immediately vested in their contributions and rollover amounts plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of service. Participants vest at the rate of 25% after the first year of credited service and are fully vested after four years of credited service. Participants fully vest upon death, permanent disability, and normal retirement or Plan termination.

Notes Receivable from Participants **-** Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Participants may only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding loans at December 31, 2010 and 2009 carry an interest rate of 4.25%. Principal and interest is paid ratably through payroll deductions. Loans must be repaid in five years, unless used for the financing of a principal residence in which case the periodic repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such loans.

Payment of Benefits **-** Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, and disability and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship or in-service distributions upon attaining age $59^{1/2}$.

Forfeited Accounts - Forfeitures can be used to pay Plan expenses or reduce employer contributions. The forfeiture employer matching account balance was approximately $93,000 and $130,000 at December 31, 2010 and 2009, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting **-** The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates **-** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition **-** Investments of the Plan are reported at fair value as determined by State Street and JP Morgan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants **-** As a result of the adoption of the Financial Accounting Standards Board's (FASB) Accounting Standards Update 2010-25, Plan Accounting - Defined Contribution Plans, the Plan retrospectively classified participant loans as notes receivable from participants in the financial statements and measured them at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Operating Expenses **-** Some expenses incurred for administering the Plan are paid by the Company. Plan audit expenses were paid by the Plan. Forfeitures used to pay Plan expenses amounted to approximately $9,000 for year 2010.

Payment of Benefits **-** Benefits are recorded when paid.

Subsequent Events **-** The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by State Street as of December 31, 2010, and for the period June 25, 2010 to December 31, 2010, and by JP Morgan as of December 31, 2009, and for the

period January 1, 2010 to June 25, 2010, regarding the current value of assets held, and transactions entered into, were used in the preparation of the accompanying financial statements and supplemental schedule. The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended December 31, 2010:

Collective investment funds	$ 44,052
Mutual funds	257,361
Total	$301,413

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end based on closing market prices.

Collective Investment Funds: Valued on a unitized basis based on the underlying fair value of the investments in the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2010

NOTE 6 - COLLECTIVE INVESTMENT FUNDS

The SSGA S&P 500 Index and SSGA Stable Value funds are collective investment funds valued at contract value as reported by JP Morgan/State Street. Collective investment funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The funds are fully benefit-responsive. For the SSGA S&P 500 Index fund contract value approximates fair value as of December 31, 2010 and 2009. For the SSGA Stable Value fund the adjustment from fair to contract value as of December 31, 2010 and 2009 are reflected on the statements of net assets available for benefits.

The average yield to the Plan and the average yield to participants for the SSGA S&P 500 Index fund was approximately 14% for 2010 and 26% for 2009. There is no crediting rate for this fund. For the SSGA Stable Value fund, the average yield to the Plan and the average yield to participants were approximately 1% for 2010 and 2% for 2009. The average crediting rate for the fund was approximately 1.85% for 2010 and 2% for 2009. Crediting income to the funds is based on the Plan's contract with JP Morgan/State Street.

NOTE 7 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 8 - RELATED PARTY TRANSACTIONS

Plan investments are managed by the custodians and are considered party-in-interest transactions under ERISA regulations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 9 - TAX STATUS

The Plan has adopted a prototype plan, which received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service. The Plan has been amended since, however, the Plan Administrator believes that the Plan, as amended, and the related trust are designed in accordance with applicable sections of the Internal Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Information returns for years for which the applicable statutes of limitations have not expired are subject to examination by tax authorities.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The differences between the information reported in the financial statements and the information reported on the Form 5500 arise primarily from presenting the financial statements on the accrual basis of accounting and Form 5500 on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 to the Form 5500:

Contributions per the financial statements for 2010	$483,825
Add: contributions receivable as of December 31, 2009	8,226
Contributions per the Form 5500	$492,051

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to the Form 5500:

Net assets available for benefits per the financial statements	$3,497,505
Less: contributions receivable as of December 31, 2009	(8,226)
Net assets available for benefits per the Form 5500	$3,489,279

NOTE 11 - SUBSEQUENT EVENT

As of October 7, 2011, some of the major financial market indices have decreased since December 31, 2010 and, consequently, the Plan's assets may have decreased in value.
