Note 1: Description of Plan

The following description of the Hanlees Chevrolet Geo Toyota 401(k) Plan provides only general information. Participants should refer to the Plan adoption agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the participating Companies except collective bargaining employees and nonresident aliens who do not receive United States source income, who have completed 1000 hours and six months of service, and are age eighteen or older. It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA). The participating companies are Hanlees Hilltop, Inc. (dba Hanlees Hilltop Toyota), Hanlees Davis, Inc. (dba Hanlees Ford Nissan), Leehan, Inc. (dba Hanlees Hilltop Nissan), Dohan, Inc. (dba Hanlees Chevrolet), DKD, Inc. (dba Hanlees Toyota of Davis), and Hanlees Napa, Inc. (dba Hanlees Napa Suburu Volkswagen).

Administration. Under the terms of the Plan, certain corporate officer's of the sponsor are designated as Plan Trustee. The Plan has contracted with Sentry Life Insurance Company to act as custodian, investment advisor, and record keeper for the plan.

Contributions. Each year, participants may contribute 0-100% of their compensation, as defined in the Plan, subject to IRS annual limits, $16,500 for 2010. Employees who are age 50 or older may make additional "catch up" contributions of $5,500. The Company may make matching contributions equal to a discretionary percentage, to be determined by Employer, of the Participant's salary reductions. For the 2010 plan year, the Employer did not make a matching contribution.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. An employee must work 1,000 hours during the plan year to be credited with a year of service. A participant is one hundred percent vested after six years of service.

Forfeitures. The total non-vested portion of terminated employees account balances are used by the plan sponsor as additional employer matching contributions. There were no forfeitures generated and no forfeitures used in the current year. As of December 31, 2010 there is a balance of $12,957 in unused forfeitures available to be used as an additional employer matching contribution or be allocated to participants. The forfeiture account includes $12,577 contributed by the plan's sponsor. See note 10.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in any of a variety of over 20 professionally managed investment accounts of the Sentry Life Insurance Company investment portfolio. Participants may change their investment options on a daily basis.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum distribution or in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1: Description of Plan (cont'd)

Notes Receivable from Participant. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan balances may be paid over a reasonable period of time not to exceed five years, except in the case that the proceeds of the loan are used to acquire a dwelling to be used as the Participants principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans.

Note 2: Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - The Plan's investments primarily consist of pooled separate accounts and are stated at fair value as reported by Sentry Life Insurance Company. The Plan's investment in the Guaranteed Account is stated at contract value which approximates fair value as reported by Sentry Life Insurance Company.

Notes Receivable from Participants - In the 2009 plan year and prior, participants loans were classified as investments and measured at fair value in the plan's statement of net assets available for benefits. In September 2010, the FASB issued ASU No. 2010-25 which requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. The comparative statement of net assets available for benefits as of December 31, 2009 and the related fair value disclosures have been restated in these financial statements to conform with the current classification of notes receivable for the plan year ending December 31, 2010.

Risks and Uncertainties - The Plan provides for various investment options which are exposed to a variety of risks, including interest rate, market fluctuations, valuation, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Purchases and sales of securities - Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Plan management has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

Note 3: Certified Information

Sentry Life Insurance Company, the trustee of the Plan, has certified as to the completeness and accuracy of all pooled separate account and guaranteed account investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010, the investment activities reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and all investment information reflected in the supplemental Schedule of Investments Held at December 31, 2010, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. For the year ended December 31, 2010, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by Sentry Life Insurance:	
Pooled Separate Accounts	$ 143,846
Net appreciation in fair value of investments	$ 143,846

Note 5: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets:

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled Separate Accounts: Valued at fair value as determined by Sentry Life Insurance, based on the number of units held and market values of the underlying securities held in each investment account.

Guaranteed Accounts: Valued at fair value which is equal to contract value as determined by Sentry Life Insurance Company based on the number of units held multiplied by the unit price of the underlying Sentry Guaranteed Account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Note 6: Sentry Insurance Guaranteed Account

The Plan has entered into a deposit contract with the Sentry Life Insurance Company (Sentry) to provide participants in the Plan the Guaranteed Account. The Guaranteed Account investment choice is an obligation of Sentry, and invested assets are commingled with the other assets in Sentry's general account. There is no specific portfolio of assets in which the Plan's Guaranteed Account funds are invested. The crediting interest rate is backed by the income received from assets held in the general account and Sentry's guarantee. The average yield for the investment in the Guaranteed Fund was 3.50% and 3.60% for the years ending December 31, 2010 and 2009, respectively. The crediting interest rate for this account was 3.50% and 3.60% at December 31, 2010 and 2009, respectively.

Sentry Life Insurance Company has stated that the contract value approximates fair value, and there is no fair value adjustment reflected in these financial statements. The investment is considered fully benefit responsive and normal participant withdrawals and transfers from the Guaranteed Fund are processed at contract value. If the Plan were to request a liquidation, surrender charges and/or market value adjustments may apply. A significant deterioration in the creditworthiness of Sentry Life Insurance Company may result in participants' receiving less than full contract value. The Guaranteed Account represent 11% of plan assets at December 31, 2010.

Note 7: Tax Status and Regulatory Compliance

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has adopted the Sentry Life Insurance Company prototype plan which obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2008. The Plan has been amended since receiving the determination letter; however, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

As described in note 10 below, the plan's former administrator, TruSource, made errors in processing the 2003 and 2006 corrective distributions as instructed by the Plan's sponsor. These corrective distributions were required to return excess employee contributions to certain active participants to satisfy the relevant nondiscrimination provisions of the Plan. In June 2010, the plan sponsor, on advice from legal counsel and the plan's record keeper, contributed a total of $26,003 to correct these errors. On August 24,2010, the plan sponsor filed an application for relief with the IRS under the IRS Voluntary Correction Program.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administration has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 9: Administrative and Investment Fees

Participant accounts are charged a wrap fee of .75% which is netted in the investment return of each investment. The Plan Sponsor also pays a portion of the administration costs of the plan consisting of a base annual fee and a per participant charge.

Note 10: Excess Contributions

2010 Plan Year
For the year ended December 31, 2010, the Plan was required to return excess employee contributions of $4,804 to certain active participants as required to satisfy the relevant nondiscrimination provisions of the Plan. The distribution is included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2010.

2006 Plan Year
During the year ending December 31, 2007, the Plan's administrator, TruSource, incorrectly processed corrective distributions for the 2006 plan year twice. This error resulted in approximately $11,000 of refunds to be issued in error to 3 plan participants. In June 2010, the plan sponsor contributed $12,577 to the plan to correct this error.

Note 10: Excess Contributions (continued)

2003 Plan Year

In October 5, 2007, the Plan sponsor was notified by TruSource, the plan administrator, that the Plan failed to refund excess employee contributions of $9,525 to four active participants for the Plan year ending December 31, 2003, as required to satisfy the relevant nondiscrimination provisions of the Plan. The Plan sponsor was not aware that these excess contributions had not been removed from the Plan. In April 2008, the Plan changed the custodian and record keeper from TruSource to Sentry Insurance. During 2008 and 2009, the plan sponsor consulted with Sentry Insurance and obtained legal counsel to determine the corrective measures required to be taken in order for the Plan to remain in compliance with the applicable requirements of the Internal Revenue Code. In June 2010, the plan sponsor contributed $13,426 to the plan to correct the 2003 ADP failure.

Note 11: Reconciliation of Financial Statements to Schedule H of Form 5500

Participant Contributions:

The following is a reconciliation of participant contributions per Schedule H of Form 5500 and the financial statement at December 31, 2009. The differences relate to timing differences in the recording of contributions on Form 5500 (cash basis), and on the financial statements (accrual basis).

Participant contributions received & receivable per schedule H of Form 5500	$ 126,366
Add December 2010 employee contributions received by the plan in January 2011	4,102
Less December 2009 employee contributions received by the plan in January 2010	(3,441)
Participant contributions per the financial statement	$ 127,027

Accrual for Excess Contributions:

As discussed in note 10, the Plan is required to refund excess contributions for the plan year ending December 31, 2010. For purposes of these financial statements, this amount was recorded as a payable as of December 31, 2010. The form 5500 is prepared on a cash basis, and these refunds will be shown as corrective distributions on the Schedule H for 2011 tax year.

Corrective distributions per schedule H of Form 5500	$ 13,426
Add accrual for excess participant contributions contributions payable as of December 31, 2010	4,804
Less corrective distributions paid during 2010 that were accrued as payable as of December 31, 2009	(13,426)
Excess contributions per the financial statement	$ 4,804
