These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by TD Ameritrade Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Fasken Oil and Ranch, Ltd. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that was established in 1992, to provide benefits to all eligible employees of Fasken Oil and Ranch, Ltd. (the Company), as defined in the Plan document. Employees are eligible to participate in the Plan on the first day of the first pay period following or coinciding with attainment of age 21 and the completion of three months (at least 250 hours) of service. If employees have not worked at least 250 hours in their first three months of service, they will be eligible to participant in the Plan on the first day of the first pay period following or coinciding with the completion of one year (at least 1,000 hours) of service. Employees represented by collective bargaining agreements and employees of Glendale Ranch Vineyards and Palafox Hospitality, Ltd. are not eligible to participant in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(a) of the Internal Revenue Code.

Administration: Under the terms of the Plan, a group of designated officers of the Company act to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator who processes and maintains the records of participant data and TD Ameritrade Trust Company to act as the custodian and trustee of plan assets.

Participant contributions: Participants may elect to have the Company contribute a percentage of their pre-tax compensation. However, such contributions cannot exceed the annual maximum currently allowed under the provisions of the Internal Revenue Code. Contributions are withheld from each participant's compensation and invested in accordance with the participant's instructions. Participants may also rollover amounts distributed from other qualified plans.

Company contributions: Each year the Company makes mandatory matching contributions equal to 100% of participant contributions up to 3% of compensation, plus 50% of participant contributions between 3% and 5% of compensation. Company mandatory matching contributions totaled $366,179 and $319,278 in 2010 and 2009, respectively.

In addition to the mandatory matching contributions, the Company may elect to make discretionary matching and profit sharing contributions. Company profit sharing contributions totaled $1,046,590 and $896,782 in 2010 and 2009, respectively. The Company made no additional discretionary matching contributions in 2010 and 2009.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

NOTE A - DESCRIPTION OF THE PLAN - CONTINUED

Vesting: Participants are immediately vested in their contributions and the Company mandatory matching contributions. Discretionary Company matching and profit sharing contributions vest as follows:

Years of Service	Percentage Vested
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of benefits: The Plan provides for the payment to the participant (or, if applicable, the beneficiary) at retirement (age 65), disability, death, financial hardship, or termination of employment. In-service distributions are also permitted if the participant is at least age 59 ½. Participants who qualify for retirement benefits will receive their benefits in the form of a lump sum in cash. The benefit to which a participant is entitled is the benefit that can be provided directly from the participant's vested account balance. Participants who separate from service and have a vested account balance of $5,000 or less are subject to an administrative distribution at the discretion of the Plan administrator.

Notes receivable from participants: A participant may borrow up to the lesser of $50,000 or 50% of the participant's vested account balance subject to the approval of the Plan administrator. The minimum loan amount is $1,000. All borrowings bear a fixed rate of interest commensurate with local prevailing rates as determined on the date of advance by the Plan administrator. Borrowings generally must be repaid within a five-year period through regular payroll deductions. Participants may only have one outstanding loan at a time. Loans are segregated investments and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other Plan investments. Accordingly, the interest participants pay on their loans will be directly credited to their account.

Forfeited accounts: Forfeitures are used to pay Plan administration expenses or reduce future employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled approximately $57,500 and $40,400, respectively. During the years ended December 31, 2010 and 2009, no forfeitures were used to pay Plan expenses or reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements have been prepared on the accrual method of accounting and in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments and expenses are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment valuation and income recognition: Investments are recorded at fair value. *Fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Net appreciation or decline in fair value of investments includes net unrealized and realized gains and losses recognized during the period.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Cash equivalents: All highly liquid investments with a maturity of six months or less are considered to be cash equivalents.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and uncertainties: The Plan provides for various investment options in mutual funds. These securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with these securities and the level of uncertainty related to changes in value, it is reasonably possible that changes in the various risk factors in the near term would materially affect participants' account balances and the amounts reported in the accompanying financial statements.

NOTE C - INVESTMENTS

The following table presents the fair value of Plan investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009.

Vanguard Long-Term Treasury Fund	694,164	476,905

NOTE C – INVESTMENTS – CONTINUED	2010	2009
TD Ameritrade US Government Portfolio	$1,111,854	-

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $998,076 and $1,106,631, respectively.

NOTE D – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE D – FAIR VALUE MEASUREMENTS - CONTINUED

Common stocks and bonds: The fair value of common stocks and bonds is based on the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:
