INDEPENDENT AUDITOR'S REPORT

To the Trustees of WGS/WTA 401(k) Plan

We were engaged to audit the financial statements of WGS/WTA 401(k) Plan (the Plan) as of December 31, 2010 and 2009 and for the years then ended and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Mass Mutual Life Insurance Company, the trustee for the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WGS/WTA 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of WGS/WTA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan covering all full-time employees of the West Gaines Seed and Delinting and West Texas Agriplex (the Companies) who have one year of service (1,000 hours) and are age twenty-one or older . It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Each year, the Companies determine a matching percentage of participant contributions for a certain percentage of the participant's compensation. For the years 2010 and 2009, the Companies matched 50% of participant contributions up to 6% of participant's compensation. Additional profit sharing amounts may be contributed at the option of the Companies. Participants may contribute any amount up to 100% of their annual pre-tax wages, subject to IRS limitations. Rollover contributions are allowed if they meet certain requirements.

Forfeitures

Forfeitures may first be applied to pay administrative expenses under the Plan which would otherwise be paid by the employer. Any other forfeitures which have not been used to pay administrative expenses shall be applied to reduce employer contributions. Forfeitures were $8,607 and $8,961 for the years ended December 31, 2010 and 2009, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, as directed by the participant, and any Company matching contribution and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of 5% to 7%.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer contributions of their accounts is based on years of continuous service, noted as follows:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Payment of Benefits

On termination of service due to retirement or other reasons a participant will receive benefits as a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon death or total or permanent disability a participant becomes 100% vested in their account balance. Benefits are recorded when paid.

Withdrawing Participant Obligations

Amounts allocated to withdrawing participants are claims that have been processed and approved for payment prior to year-end, but not paid as of that date. These amounts were not deemed material at December 31, 2010 and 2009.

Investment Valuation and Income Recognition

If available, quoted market prices are used to value pooled separate accounts as well as common stock investments. If a quoted market price is not available, an estimate is made based on comparable securities with similar credit ratings.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

The Plan sponsor pays substantially all general Plan expenses.

Note 2: CHANGE IN METHOD OF ACCOUNTING FOR LOANS TO PARTICIPANTS

In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting – Define Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. The Plan adopted ASU No. 2010-25 for the year ended December 31, 2010 and comparative financial statements of prior years have been adjusted to apply the new method retrospectively. The effect of adopting this change in accounting principle resulted in a reclassification in the Statement of Net Assets Available for Benefits to report loans to participants as a receivable rather than as investments. Additionally, loans to participants are still considered an investment for ERISA purposes and thus are included in the supplementary schedule accompanying these financial statements.

Note 3: INFORMATION CERTIFIED BY TRUSTEE

For Plan years ending December 31, 2010 and 2009, the financial information included in the Plan financial statements and required supplemental schedule, except for participant loans, contributions receivable, contributions, and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by the trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 4: PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

Note 6: INCOME TAX STATUS

The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Department of Labor and the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7: RISKS AND UNCERTANTIES

The Plan provides for various investment options in any combination of pooled separate accounts, stocks and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risk. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes can materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: RELATED PARTY TRANSACTIONS

Certain Plan investments in pooled separate accounts are managed by Mass Mutual Life Insurance Company, the custodian of the Plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 9: FAIR VALUE DISCLOSURES

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs.

Note 9: FAIR VALUE DISCLOSURES - continued

An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

Authoritative guidance requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, authoritative guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Note 9: FAIR VALUE DISCLOSURES - continued

Pooled Separate Accounts - Investments are reported at fair value utilizing Level 2 inputs. For these investments, the Companies obtain fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

The following table summarizes financial assets measured at fair value on a recurring basis as of December 31, 2010 and 2009, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:
