CAITAC GARMENT PROCESSING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS AS OF DECEMBER 31, 2010 AND 2009, AND FOR THE YEAR ENDED DECEMBER 31, 2010

1. DESCRIPTION OF PLAN

The following description of Caitac Garment Processing, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on January 1, 2000, covering all employees of Caitac Garment Processing, Inc. (the "Company") who have one year of service with a minimum of 1,000 hours of service and are age 21 or older. All of the plan assets are held in a separate account with State Street Bank and Trust Company of California, N.A. ("State Street"), the trustee.

Participation and Contributions – All employees, who have attained age 21, are eligible to participate in the Plan as of the first day of any month coincident with or following the completion of one year of service.

The Plan provides that eligible employees electing to become participants can contribute to the Plan through payroll reductions of up to 92% of their compensation per year, not to exceed the dollar limits set by law, which was $16,500 for 2010. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions at any time during that year of up to a limit of additional $5,500 for 2010. Amounts contributed by employees are excluded from the participants' taxable income until such amounts are received by them as distributions from the Plan.

The investment options currently available under the Plan include mutual funds that principally invest in a combination of stocks and bonds. The objective of these funds is to provide a rate of return on all amounts invested based on fund performance.

Participants have complete discretion over their investments among these funds and may invest entirely in one fund, or a combination. Participants may change payroll deferral elections or transfer all or any portion of their current account from one fund to another.

The Plan also provides that the Company, when extending the benefits of the Plan to any employee, may place limitations on the amounts of employee contributions to comply with certain statutory limitations.

Company Contributions – The Company may make contributions to the Plan at the discretion of the Company's Board of Directors. Company contributions made on behalf of participants are allocated to their individual accounts based upon the investment allocations elected by participants. No contributions were made by the Company during 2010.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon takes place over a five-year period with 20% vesting for each full year of service.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts – A separate account is established and maintained for each participant. Participants may change their investment options at any time directly through the trustee, State Street. Each participant's account is credited, as applicable, with the participant's contributions and an allocation of the respective investment income or loss by investment fund option. Investment earnings and gains and losses are allocated to a participant's account in relation to the investment performance of each fund and the proportion of the participant's account balance to the total balance in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants – Participants may borrow up to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by individual participants' accounts and the term period not extending beyond five years from the date of the loan, unless the loan is used to acquire the principal residence of the participant. Loans to acquire a principal residence must be repaid within a period not to exceed thirty years. As of December 31, 2010 and 2009, there were outstanding participant loans of $10,868 and $5,085, respectively. The loans bear interest at rates ranging from 5.25% to 10.25%.

Payment of Benefits – Upon termination of service, participants may elect to receive either a lump sum distribution or convert the value of his or her account balance into an annuity. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan's provisions.

Forfeited Accounts – Non-vested Company contributions forfeited by participants upon termination are available to reduce administrative expenses of the Plan, if directed by the plan administrator, or to reduce future payments of the Company's matching contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, liabilities, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition – The Plan's investments are generally stated at fair value as determined by quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits – Benefit payment to participants are recorded upon distribution. There were no individuals who elected to withdraw from the Plan, but who had not been paid as of December 31, 2010 and 2009.

Administrative Expenses – Certain costs and expenses of the Plan are paid by the Plan or the Company, if the Company so elects. Personnel and facilities of the Company are used by the Plan for its administrative, accounting, and other activities at no charge to the Plan.

Subsequent Events – The Company evaluated all events subsequent to the balance sheet date of December 31, 2010, through the date of the financial statements were available to be issued, September 21, 2011.

Recent Accounting Pronouncements – In September 2010, the Financial Accounting Standards Board issued accounting guidance clarifying the classification and measurement of participant loans by defined contribution plans. This guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $5,085 as of December 31, 2009, from investments to notes receivable from participants. Net assets of the plan were not affected by the adoption of this guidance.

3. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Automatic Data Processing, Inc. ("ADP"), the record keeper. ADP received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, which states that the prototype document is in compliance with the applicable provisions of the Internal Revenue Code ("IRC"). The plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Employee Retirement Income Security Act of 1974. In the event the Plan is terminated, participants would become 100% vested in their accounts.

Total investment income certified by the trustee	$ 38,894

The net appreciation in fair value of investments related to mutual fund activities.

6. FAIR VALUE MEASUREMENTS

In accordance with the authoritative accounting guidance on fair value measurements and disclosures in conformity with U.S. GAAP, the Plan discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (level 3 measurements).

Level 1 – quoted prices in active markets for identical securities — Investments whose values are based on quoted market prices in active markets, and whose values are therefore classified as Level 1 prices, include active listed equities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.) — Investments that trade in markets that are not considered to be active, but whose values are based on quoted market prices, dealer quotations or valuations provided by alternative pricing sources supported by observable inputs are classified as Level 2 prices. These generally include certain U.S. government and sovereign obligations, most government agency securities, investment-grade corporate bonds, certain mortgage products, less liquid listed equities, state, municipal, and provincial obligations, and collective trust funds. In addition, international securities whose markets close hours before the valuation of the holdings in the different investment funds may require revised valuations due to significant movement in the U.S. markets occurring after the daily close of the foreign markets. As investments whose values are classified as Level 2 prices include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information.

Level 3 – significant unobservable inputs (including each investment fund options own assumptions in determining the fair value of its investments) — Investments whose values are classified as Level 3 prices have significant unobservable inputs, as they may trade infrequently or not at all. When observable prices are not available for these securities, the investment funds use one or more valuation techniques for which sufficient and reliable data is available. The inputs used in estimating the value of Level 3 prices may include the original transaction price, quoted prices for similar securities or assets in active markets, completed or pending third-party transactions in the underlying investment or comparable issuers, and changes in financial ratios or cash flows. Level 3 prices may also be adjusted to reflect illiquidity and/or non-transferability, with the amount of such discount estimated in the absence of market information. Assumptions used by the Plan due to the lack of observable inputs may significantly impact the resulting fair value and therefore the Plan's results of operations.

6. FAIR VALUE MEASUREMENTS (CONTINUED)

Valuation of Investments – Mutual funds and common collective trusts for which market quotations are readily available, are valued at the last reported sale price or official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. In the event there were no sales during the day or closing prices are not available, securities are valued at the last quoted bid price or may be valued using the last available price and categorized as Level 2 in the hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of December 31, 2010 and 2009:

December 31, 2010

Investment Category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Separate Accounts	$ 412,357	$ 412,357	$ -	$ -
Total	$ 412,357	$ 412,357	$ -	$ -

December 31, 2009

Investment Category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Separate Accounts	$ 400,292	$ 400,292	$ -	$ -

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments are funds managed by the trustee, State Street. Transactions with the trustee qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.
