MARIN SANITARY SERVICE
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

NOTE 1 – SUMMARY OF PLAN PROVISIONS

The following description of the Marin Sanitary Service 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and is exempt from federal income tax under Section 501(a) of the Code, and from applicable state tax, as state law conforms to the Code. The Plan operates under a prototype plan of its administrator, Unified Trust Company, which has received a favorable opinion letter dated August 7, 2001. The Plan has been amended since receiving the opinion letter, including amendments effective during 2009 to conform the Plan to recent legislation. The Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is a defined contribution plan covering non-union employees of the Company. The Plan allows for participation upon hire. There is a one year eligibility requirement to apply for participation in profit sharing plan contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Under the 401(k) portion of the Plan, eligible employees may contribute up to statutorily permitted amounts of pretax annual compensation as defined in the Plan per Internal Revenue Code section 402(g). The maximum deferral was $16,500 for both 2010 and 2009. Individuals reaching the age of 50 during the year may defer an additional $5,500 as a "catch-up" contribution ($5,500 for 2009). Participants may also rollover distributions from other qualified defined benefit or contribution plans. Each year the Company contributes a matching contribution which for 2010 and 2009 was 100% of an employee's deferral up to 5% of their eligible wages. These contributions are allocated to participants based on their elective salary deferrals to the 401(k) plan. The Company, at its discretion, may also make profit sharing contributions each year that are allocated to participants based on their proportionate share of total compensation paid during the Plan year to all participants in the Plan. For 2010 and 2009, the profit sharing contribution was 5% of the employees' eligible wages.

NOTE 1 – SUMMARY OF PLAN PROVISIONS (CONT.)

Participants may direct contributions and any related earnings into 14 investment options in 1 percent increments. Participants may change their investment allocation as often as they wish.

Forfeitures attributable to matching and profit sharing contributions are used to reduce employer contributions. Unallocated forfeiture balances as of December 31, 2010 and 2009 were $38,811 and $28,394, respectively. In 2010 and 2009, the employer contributions were reduced by $8,892 and $40,238 from forfeitures.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service.

A participant vests according to the following schedule:

Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years	100%

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of income and expense are based on the proportion that each participant's account balance bears to the total of all participants' account balances. The Company pays other expenses related to administering the Plan.

Upon retirement, termination of employment, death, or disability, vested benefits are paid to participants or their beneficiaries in a lump sum. If a participant is terminated for any reason other than death, total disability, or normal retirement, the vested portion of the participant's account balance becomes payable at the earliest administratively feasible date following separation from service. In addition, hardship distributions are permitted if certain criteria are met.

NOTE 1 – SUMMARY OF PLAN PROVISIONS (CONT.)

The Plan has a provision that allows a participant to borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at prime plus 1 percent. Interest rates ranged from 4.25% to 9.25% at December 31, 2010 (4.25% to 9.25% at December 31, 2009), and principal and interest payments are made through payroll deductions. The Plan charges the participant's account a processing fee of $75 when the loan is funded and an annual fee of $75 to defray the cost of record keeping.

Unified Trust Company, the custodian, administers the Plan's assets, together with the income therefrom, in accordance with an agreement. An administrative committee appointed by the Board of Directors of the Company administers the Plan.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting – As described in FASB ASC 962-325, *Plan Accounting – Defined Contribution Pension Plans*, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the ASC, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Basis of Accounting (Cont.) – Net Assets Available for Benefits is prepared on a contract value basis. The financial statements of the Plan are prepared on the accrual method of accounting. During 2010, the Plan adopted and retrospectively applied Accounting Standards Update 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans – a consensus of the FASB Emerging Issues Task Force.*

Income Recognition – Interest and dividend income is recorded as earned on the accrual basis.

Investments – Common and collective trusts, registered investment companies, and stocks are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year-end. See Note 4 for the guaranteed investment contract.

Net Appreciation or Depreciation in Fair Value of Investments – Net realized and unrealized appreciation or depreciation are recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation or depreciation in fair value of investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Income Taxes – Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Income Taxes (Cont.) – periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's Trustees to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Payment of Benefits – Benefits are recorded when paid.

Reclassification – In order to conform to current year presentation certain amounts have been reclassified.

NOTE 3 – INFORMATION CERTIFIED BY PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplementary schedule is complete and accurate.

Investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets available for benefits had a value of at least $449,943 and $410,551, respectively.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The guaranteed investment contract is known as the UTC Stable Value Trust (the Fund) which maintains contributions in a pooled account. The contract is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by UTC. The principal and accrued interest are guaranteed based on credited interest rates for participant-initiated withdrawls as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The rate resets quarterly and the minimum credited rate is 0%. The rate is reset by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts.

The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by UTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. If the Plan were to withdraw from the contract either by terminating the Plan or terminating the investment, transactions would be executed at fair value. The Plan sponsor has not

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONT.)

expressed any intent to do either. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The fair value of the investment contract at December 31, 2010 and 2009 was $2,603,274 and $2,096,199, respectively. The market value adjustment was ($79,974) for 2010 and ($7,613) for 2009. For the year ended December 31, 2010, the average yield earned was 6.06% (11.77% for 2009) and the average yield credited to participants was 2.97% (3.38% for 2009). The average yield and crediting interest rates are updated quarterly and were approximately 4.48% and 4.65%, since inception, as of December 31, 2010 and 2009, respectively. See Note 3.

NOTE 5 – PARTICIPANT CONTRIBUTIONS

Contributions received from participants for 2010 are net of payments of $ 23,394 made in 2011 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2010.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of a common/collective trust and a guaranteed investment contract managed by Unified Trust Company. Unified Trust Company is the trustee of the Plan; therefore these transactions qualify as party-in-interest transactions. As of December 31, 2009, the Plan's investment in the common/collective trust (also known as the UTC Large Cap Growth Equity Portfolio) was $770, 041. On March 15, 2010, the entire balance of $804,019 was transferred out of the common/collective trust and into a mutual fund (Growth Fund of America). See Note 3.

NOTE 8 – FAIR VALUE MEASUREMENTS

The Plan applies the provisions of FASB ASC 820-10, *Fair value Measurements and Disclosures*, which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and has the highest priority; Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable either directly or indirectly; Level 3 inputs consist of unobservable inputs in which there is little, if any, market activity for the asset at the measurement date, and are the lowest priority. The Plan measures fair value using Level 1, Level 2 and Level 3 inputs based on which input they deem provides the most reliable evidence of fair value.

During 2010 the Plan transferred $804,019 from a level 2 input investment into a level 1 input investment. Refer to Note 6 for additional information regarding the transaction.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated and reviewed subsequent events that would impact the financial statements for the year ended December 31, 2010 through the issuance date of the financial statements of October 7, 2011. Management has determined that there are no disclosures of subsequent events that would be required for the financial statements to be in conformity with generally accepted accounting principles.
