MACEDON, NEW YORK

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 **Description of Plan**

The following brief description of the Baldwin Richardson Foods Company 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 1998 by Baldwin Richardson Foods Company (the "Company") under the provisions of Section 401(k) of the Internal Revenue Code ("IRC") for the benefit of all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the Company are eligible to participate upon attaining age 18.

Contributions

Participants may elect to contribute from 1 percent to 50 percent of their compensation, as defined in the Plan, through payroll deductions. Contributions are subject to certain limitations.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary matching contributions equal to 50 percent of each participant's contribution, excluding catch-up contributions, up to a maximum of 6 percent of each participant's eligible compensation. The Company may also make discretionary profit sharing contributions, which are allocated to participant accounts in the ratio that each participant's compensation for the Plan year bears to the total compensation for all participants for the Plan year. Participants credited with at least 1,000 hours of service during the Plan year and employed on the last day of the Plan year will be eligible to receive a profit sharing contribution. No profit sharing contributions were made in 2010 or 2009.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer contributions, if any, and an allocation of Plan earnings. Allocations of Plan earnings are based on participant earnings or accounts balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 **Description of Plan - Continued**

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants
A participant may borrow the lesser of $50,000 or 50 percent of his or her vested account balance with a minimum loan amount of $1,000. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent per annum, which are commensurate with prevailing market conditions as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits
Upon termination of service due to death, disability, or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account balance. For terminated participants with balances of $5,000 or less, the Plan Administrator can automatically roll over the balance into an Individual Retirement Account. Terminated participants with balances of $1,000 or less shall have their account balance paid in a single lump sum distribution. Hardship withdrawals of elective contributions and rollover contributions are permitted if certain criteria are met.

Forfeited Accounts
Forfeitures of employer matching and profit sharing contributions are used to reduce future employer contributions. Forfeitures totaled $48,626 as of December 31, 2010 and $24,968 as of December 31, 2009. Employer contributions were reduced by $28,079 and $33,521 from forfeited nonvested accounts in 2010 and 2009, respectively.

Note 2 **Significant Accounting Policies**

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 **Significant Accounting Policies - Continued**

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
All expenses of maintaining the Plan may be paid by the Plan or the Company.

Date of Management's Review
The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through September 8, 2011, the date the financial statements were available to be issued.

Note 3 **Investments**
The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Frontier Trust Company (the Trustee) has certified to the completeness and accuracy of the investments and participants' notes receivable reflected on the statements of net assets available for benefits as of December 31, 2010 and 2009, and the related investment and participants' notes receivable activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009. Additionally, the Trustee has certified the information in the Schedule of Assets (Held at End of Year) as of December 31, 2010.

Note 3 **Investments - Continued**

The following table presents investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009:

		2010		2009
Merrill Lynch Retirement Preservation Trust	**$**	**818,488**	$	958,634

Lord Abbett Total Return Fund A	**$**	**484,282**	$	471,353

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold) appreciated in value by $590,547 and $1,148,718, respectively.

Note 4 **Fair Value Measurements**

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 **Fair Value Measurements - Continued**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Cash: Valued at dollars held in the account.

Common/Collective Trust: Valued at cost, which approximates fair value.

Registered Investment Companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

Level 3 Gains and Losses
The Plan has no investments classified as level 3 investments in the fair value hierarchy.

Note 5 **Plan Termination**
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

Note 6 **Tax Status**
The Company adopted a Prototype Non-Standardized Profit Sharing Plan with the CODA feature which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and the related trust were designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Note 6 **Tax Status - Continued**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7 **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 **Subsequent Events**

Subsequent to the Plan's year-end, the Plan Administrator changed certain of the investments provided for in the Plan. As such, certain investments included in the schedule of assets (held at end of year) are no longer available to Plan participants in 2011.
