HERITAGE GROUP RETIREMENT SAVINGS PLAN X

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *Heritage Group Retirement Savings Plan X* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

The Plan is a defined contribution plan covering all employees of the *Crystal Flash Limited Partnership of Michigan* (the “Company”) who have worked at least one hour in a Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Merger

On November 3, 2010, the Board of Directors of The Heritage Group, a controlling party of the Company, approved the merger of this Plan into the Heritage Group Retirement Savings Plan XV (“Plan XV”), effective January 1, 2011. The transfer of all of the Plan’s assets into Plan XV has been reported as of close of business on December 31, 2010. The provisions of the Plan carry over to Plan XV.

Contributions

Each year participants may contribute up to 70% of their annual compensation, as defined in the Plan agreement, up to the maximum allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes matching contributions up to 4% of the participants’ eligible compensation. The Company, at its discretion, may make an additional profit sharing contribution to the Plan at an amount equal to a percentage of the participants’ annual compensation. There were no discretionary profit sharing contributions for 2010 and 2009. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan offered mutual funds, a money market fund, and a common collective trust fund as investment options for participants during 2010 and 2009. Contributions are subject to certain limitations.

HERITAGE GROUP RETIREMENT SAVINGS PLAN X

NOTES TO FINANCIAL STATEMENTS

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions and employer matching contributions, plus actual earnings thereon. Vesting in the profit sharing contributions is based on years of continuous service. Participants hired after December 31, 2006, become 100% vested in their profit sharing account after three years of service. Participants hired prior to January 1, 2007, vested over periods of 3-5 years based on dates of credited service.

Notes Receivable from Participants

Participants may borrow from their voluntary contributions and rollover accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to any reason, depending on when the participant entered the Plan, a participant may elect to receive the value of the participant's vested interest in his or her account as a life annuity, lump-sum payment or through annual installment payments, as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce future employer cash contributions. Employer cash contributions were not reduced by forfeited nonvested accounts during 2010 or 2009, respectively. At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$2,742 and \$2,378, respectively. The balances as of December 31, 2010, were included with the Plan assets transferred in the merger with Plan XV and will be used to reduce future employer contributions in Plan XV.

HERITAGE GROUP RETIREMENT SAVINGS PLAN X

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses

The Plan's administrative expenses, including salaries, accounting, recordkeeping and legal, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Loan administrative fees and redemption fees are paid by the Plan.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2009 fair value approximates contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of such investments.

HERITAGE GROUP RETIREMENT SAVINGS PLAN X

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan agreement.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (“ASU”) 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. Participant loans have been reclassified from investments to “notes receivable from participants” in the accompanying 2009 statement of net assets available for benefits; interest income from participant loans has also been reclassified and is presented separately as “interest income - notes receivable from participants” in the 2009 statement of changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. The adoption of ASU 2010-06 did not have an effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

The Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,151,271 and \$2,068,534 in 2010 and 2009, respectively.

3. FAIR VALUE MEASUREMENTS

The FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Shares held in mutual funds are valued at quoted market prices which represent the net asset value (“NAV”) of shares held by the Plan at year end. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities then divided by the number of shares outstanding.

Money market funds: Shares held in money market funds are comprised of debt securities with individual maturities of 13 months or less and an average maturity of 75 days or less. The composition of securities is structured to maintain a value of \$1 per share.

Common/collective investment trusts: These investments are public investment securities valued using the NAV provided by Vanguard. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value at December 31, 2009:

NOTES TO FINANCIAL STATEMENTS

The following table sets forth additional disclosure for the fair value measurement of investments in certain funds that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2009			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trust fund: Retirement Savings Trust Fund	\$ 143,238	\$ -	Daily	Daily

The following is a description of the investment strategy for the common/collective trust fund at December 31, 2009:

Retirement Savings Trust Fund: The fund invests primarily in investment contracts issued by insurance companies, banks or other financial institutions, including investment contracts backed by high-quality fixed income securities. The fund seeks to achieve its objective by diversifying among high credit-quality investments and investment contracts which are structured to smooth market gains and losses over time.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan entered into a fully benefit-responsive investment contract with Vanguard Retirement Savings Trust ("VRST"). VRST maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by VRST. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 1, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract; however, the contract is included in the 2009 statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. The fair value of the investment contract was \$143,238 at December 31, 2009.

NOTES TO FINANCIAL STATEMENTS

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting. The average yields based on actual earnings and based on interest rate credited to participants were approximately 3.23% and 3.29% for 2010 and 2009, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) partial or complete legal termination of the VRST or a unit holder, (2) tax disqualification of the VSRT or unit holder, or (3) certain amendments if issuers' consent is not obtained. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan.

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Vanguard. Vanguard is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the custodial and record keeping services amounted to \$340 and \$390 for 2010 and 2009, respectively.

6. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 4, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by

■ NOTES TO FINANCIAL STATEMENTS

taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

■ 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

■ 8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of investments at fair value reported in the 2009 financial statements to the amounts reported on Schedule H to the Form 5500 at December 31, 2009:

Investments at fair value reported in these financial statements	\$ 13,185,629
Notes receivable from participants	<u>273,999</u>
Investments reported on Schedule H to Form 5500	<u>\$ 13,459,628</u>

Participant loans are recorded on the Schedule H to the Form 5500 as an investment, while participant loans are reported as "notes receivable from participants" in the caption receivables in the accompanying financial statements. Additionally, interest income from participant loans is reported on the Schedule H to the Form 5500 as investment income, while interest income from participant loans are reported as "interest income - notes receivable from participants" in the accompanying financial statements. See Note 1.
