Preferred Imaging Payroll Co., LLC 401(k) Retirement Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Preferred Imaging Payroll Co., LLC 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by Preferred Imaging Payroll Company, LLC (the “Company”) under the provision of Section 401(a) of the United States Internal Revenue Code (the “IRC”), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan was adopted effective January 1, 2007 to enable eligible employees to defer compensation and share in employer contributions and to save and invest funds for retirement.

Substantially all employees of the Company who have completed six months of service, as defined, and have reached the age of 18 are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Administration

The Plan is administered by the Company. The duties of the Plan Administrator are to oversee the operations of the Plan, provide for prudent investment of Plan assets and maintain accurate records and reports. Accordingly, the Plan Administrator has been granted discretionary authority concerning investment and management activities. Reliance Trust Company (“Reliance”) is responsible for the custody of the Plan’s assets, which are invested in a combination of mutual funds and a common / collective trust. Hartford Life Insurance Company - Retirement Plans Group and The Hartford Financial Services Group, Inc. are responsible for the management of the Plan’s assets and record keeping services.

Contributions

Each year, participants may contribute up to 100 percent of compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. At the Participant’s election, these may be either “traditional” before-tax or “Roth” after-tax 401(k) contributions, depending on whether they are deducted before or after federal income taxes are withheld. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participants’ elective deferrals. The Company will not match elective deferrals in excess of 4% of the participant’s eligible compensation contributed to the Plan. Each year, the Company determines the amount of the discretionary matching contribution. Participants must make elective deferrals or catch-up contributions to share in employer matching contributions. Contributions are subject to certain limitations.

Participant Accounts

Individual accounts are maintained for each of the Plan’s participants to reflect the participant’s contributions and related employer matching and other contributions, as well as the participant’s share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their elective and rollover contributions and the earnings thereon received. Vesting in the Company’s contribution portion of their accounts and the earnings thereon is based upon years of vesting service, as defined in the Plan. A participant is 100 percent vested after four years of credited service. Full and immediate vesting will also occur upon normal retirement age (age 65), death, total disability, or termination of the Plan. Participants who leave the Company before they are fully vested in the Company’s contributions forfeit their non-vested portion.

Preferred Imaging Payroll Co., LLC 401(k) Retirement Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the custodian, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

The Plan allows for participants to borrow from their accounts under the Plan. These borrowings must be for an amount not less than \$1,000 and not greater than the lesser of (1) \$50,000; or (2) 50% of the participant's vested account balance under the Plan. A participant may only have two loans outstanding at any time. Each loan, by its terms, must be repaid in five years or less, except for loans for the purchase of a primary residence, which may have a term in excess of five years. The loans are secured by the balance in the participant's account and bear interest at 8%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may leave their account in the Plan, may elect to receive a lump-sum distribution or may elect a direct transfer to another qualified retirement plan subject to certain conditions, equal to the participant's vested account balance. However, a participant with an account balance of \$5,000 or less may select from the latter two options only. In addition, in-service and hardship distributions are permitted if certain criteria are met, as specified in the Plan. Benefits are recorded when paid.

Forfeited Accounts

Forfeitures represent unvested portions of terminated participants' accounts. These funds may be used to reduce the Company's matching contributions or used pay reasonable Plan expenses. At December 31, 2010 and 2009, forfeited accounts totaled \$2,340 and \$520, respectively. For the year ended December 31, 2010, no forfeitures were used to pay Plan expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is as follows:

Method of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for these expenses.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Preferred Imaging Payroll Co., LLC 401(k) Retirement Plan
NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Mutual funds and common/collective trusts represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. Units held in common/collective trusts are valued at the unit value as reported by the investment managers at year end. Interest and other income are recorded on the accrual basis. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year-end, is presented in the statement of changes in net assets available for benefits.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. In addition, any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common / collective trust.

This investment represents contributions made to the account, plus earnings on the underlying investment, less participant withdrawals and administrative expenses. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the net asset value per unit. Management has determined that the estimated fair value of the Plan's investments in fully benefit-responsive contracts as of December 31, 2010 and 2009 approximates contract value, and any difference between fair value and contract value is immaterial.

At December 31, 2010 and 2009, the Plan was invested in the SEI Trust Company Fixed Fund (the "Fixed Fund"). The Fixed Fund is a common collective trust. The Fixed Fund invests in a variety of investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and other investment products (synthetic GICs and collective investment trusts) with similar characteristics. Further information concerning the Fixed Fund may be obtained from their audited financial statements. The Fixed Fund attempts to maintain a \$1.00 net asset value per unit.

Unanticipated events such as an issuer's inability to meet its obligations or significant withdrawal requests by participants in the Fixed Fund, could affect the recoverability of assets including the underlying investment securities. The Fixed Fund imposes certain restrictions on the Plan, and the Fixed Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fixed Fund to transact at less than contract value is not probable. The average yield was 2.33% and 3.49% for the years ending December 31, 2010 and 2009, respectively. The crediting interest rate was 1.49% and 1.93% for the years ending December 31, 2010 and 2009, respectively.

Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

The net appreciation in fair value of plan investments was \$133,581 for the year ended December 31, 2010, and is attributable to the investments in mutual funds.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Common / collective trusts: Valued based on information using the audited financial statements of the collective trust at year end.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2010:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds:

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31,

	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Common collective trust	\$ 244,677	\$ 197,502
Mutual funds	1,281,931	735,021
Notes receivable from participants	53,542	31,446
	<u>\$ 1,580,150</u>	<u>\$ 963,969</u>

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (Continued)

	<u>2010</u>
Investment income:	
Interest and dividends	\$ 25,412
Net appreciation in fair value of investments	<u>133,581</u>
Total investment income	<u>\$ 158,993</u>

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedules.

6. REPORTABLE TRANSACTIONS

During the year ended December 31, 2010, there were no loans in default or uncollectible, investment assets acquired and disposed of within the Plan or non-exempt transactions with parties-in-interest which would require supplemental presentation under DOL regulations.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of a common / collective trust marketed by Hartford Financial Services or one of its subsidiaries. Hartford Life Insurance Company - Retirement Plans Group and The Hartford Financial Services Group, Inc. are responsible for the management of the Plan's assets and record keeping services and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC. In the event of Plan termination, Participants will become 100% vested in their accounts.

9. TAX STATUS

Effective January 1, 2007, the Company adopted a Defined Contribution Prototype Plan and Trust. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 stating that the plan is acceptable under Section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. NEW ACCOUNTING PRONOUNCEMENTS

In September 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (“ASU 2010-25”). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan adopted ASU 2010-25 for the year ended December 31, 2010. Participant loans have been reclassified to notes receivable from participants as of December 31, 2010 and 2009. The adoption of ASU 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (“ASU 2010-06”). ASU 2010-06 amended Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures* (“ASC 820”), to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The adoption of this new guidance has not and will not have a significant impact on the Plan’s net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

11. PLAN AMENDMENTS

The Plan was amended on December 28, 2009 to reflect the requirements of (i) the Heroes Earnings Assistance and Relief Tax Act of 2008 and (ii) the Pension Protection Act of 2006, to comply with recent law changes.

12. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 10, 2011, the date the financial statements were available to be issued.
