NOTE A - DESCRIPTION OF THE PLAN

The following description of the Chelsea Industries, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution 401(k) plan established April 1, 1988. All employees of Chelsea Industries, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All investments are participant-directed.

2. Contributions

The Plan permits Participants to make contributions of up to 18% of their pre-tax compensation to the Plan, subject to Internal Revenue Code limitations (\$16,500 in 2010). Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions (\$5,500 in 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, commonly referred to as rollovers. The Employer may provide a matching contribution to the Plan, equal to 15% of the Participant's contributions and up to a maximum of 6% of the Participant's total base pay. The Employer made a matching contribution of \$102,409 during the Plan year ended December 31, 2010. The Employer may also make a discretionary contribution of up to an additional 15% of the amount of Participant contributions, dependent upon the performance of the Employer. During the Plan year ended December 31, 2010, no discretionary Employer contributions were made.

3. Participant Accounts

Each Participant's account is credited with the Participant's contributions and allocations of Employer contributions, and Plan investment earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Participants fully vest in Employer contributions after 3 years of vesting service, as defined.
5. **Notes Receivable from Participants**
Subject to the approval of the Plan administrator, Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years (or longer for the purchase of a primary residence) and are repaid ratably through payroll deductions. The loans are secured by the balance in the Participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2010, interest rates ranged from 3.75% to 8.75%.
6. **Payment of Benefits**
Upon termination of service due to death, disability or retirement, a Participant may elect to receive either a lump-sum amount equal to the value of his or her account, or installments, as defined in the Plan agreement. For termination of service due to other reasons, a Participant may receive the value of the vested interest of his or her account as a lump-sum distribution. In-service withdrawals from the Participant's elective deferral account are permitted only due to financial hardship or upon reaching age 59 1/2. Participants must exhaust all other assets before financial hardship withdrawals are allowed. Hardship withdrawals may be taken from the Participant's deferral account, without respect to earnings. Deferral contributions are suspended for a six-month period after receipt of the hardship withdrawal. If a Participant's vested account balance is greater than \$1,000, but not more than \$5,000, the Plan administrator, after notification, may distribute the non-forfeited account balance in the form of a direct rollover individual retirement account.
7. **Investment Options**
Participants direct the investment of their contributions into their choices of approximately twenty seven investment options offered by the Plan. Sponsor contributions are invested as directed by the Participants.

8. Forfeitures

Forfeited balances of terminated Participants' non-vested accounts are generally used to reduce Employer contributions. Forfeited balances may also be used to reduce expense related to the administration of the Plan. Forfeited balances available at December 31, 2010 and 2009 were \$950 and \$0, respectively. During the year ended December 31, 2010, forfeited balances of \$1,029 were utilized to reduce Employer matching contributions remitted to the Plan.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements have been prepared using the modified cash basis of accounting, whereby contributions are recorded when received, investment purchases and sales are recorded on the settlement date, investment income is recorded when received rather than when earned, administrative expenses are recorded when paid, and investments are recorded at fair market value.

2. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could vary from the estimates that were used.

3. Administrative Expenses

Expenses related to administering the Plan are paid by the Employer. Expenses related to investment transactions are paid by the Plan and allocated among Plan Participants. Loan administration fees are deducted from the respective Participant account when incurred.

4. Payment of Benefits

Benefits are recorded when paid.

5. Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

6. Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on the average cost basis, based on fair value of investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount Participants would receive if they were to initiate permitted transaction under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2010, the difference between contract value and fair value of the Merrill Lynch Retirement Preservation Trust, which holds Guaranteed Investment Contracts, is immaterial, and therefore an adjustment is not presented on the Statement of Net Assets Available for Benefits. (See Note C).

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE C - INVESTMENTS

During 2010 the Plan's investments in mutual funds (including investments purchased, sold, and held during the year) appreciated in value by \$490,657.

NOTE C - INVESTMENTS - Continued

Investments that represent 5% or more of the Plan's net assets available for the benefits as of December 31, 2010 and 2009 were as follows:

	<u>2010</u>	<u>2009</u>
Dreyfus Core Equity Fund – Class A	\$ 1,067,013	*
Merrill Lynch Retirement Preservation Trust	934,710	\$ 991,435

Managers International Equity Fund	*	424,018
Legg Mason ClearBridge Aggressive Growth	*	410,163
Calvert Income Fund	*	351,595

* Investment was less than 5% of net assets available for benefits at end of year.

The Plan's investment in the Merrill Lynch Retirement Preservation Trust (the "Trust") is a collective trust within the money market/stable value asset category. The Trust invests primarily in a broadly diversified portfolio of Guaranteed Investment Contracts ("GICs") and in high-quality money-market securities, and seeks to maintain a \$1.00 net asset value per share, although achievement of that objective cannot be assured. The average yield approximated 6.219% for 2010. The Trust's yield will fluctuate and is not guaranteed.

The Plan provides for various investment options in any combination of mutual funds and other investment securities. Mutual funds and other investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) No. 157, *Fair Value Measurements* (Accounting Standards Codification (ASC) 820), establishes a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs consisting of unobservable measurements have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 3 - Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common collective trusts: Valued at \$1 per unit of participation, representing an undivided interest in the underlying assets of the trust. The number of units held are adjusted by the trustee, based on the current market value of the underlying assets of the fund.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market Participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a difference fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

NOTE E - INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan's investments were held and administered by ADP Investments ("ADP"). ADP, the trustee of the Plan, has provided a certification that the following information, which is contained or used to develop the accompanying 2010 and 2009 financial statements, is complete and accurate:

- Investments
- Investment income
- Net appreciation (depreciation) in fair value of investments
- Schedule of assets (held at year end)

NOTE F - TAX STATUS

The Plan obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America and the modified cash basis of accounting require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G - PLAN TERMINATION

Although it has not expressed intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a termination of the Plan, Participants will become fully-vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The statement of net assets available for benefits per the financial statements at December 31, 2010 and 2009 present loans to participants as "Notes Receivable from Participants" which is an asset categorized as a receivable. However, the Form 5500 presents this asset as a general investment.

The statement of changes in net assets available for benefits for the year ended December 31, 2010 includes "gains" from Common Collective Trusts in the dividend income reported for the Plan year. However, the Form 5500 presents these "gains" as Net Investment Gains from Common Collective Trusts.
