NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of Harmac Medical Products, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. A summary of the Plan's provisions are as follows:

General:

The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by employer and participant contributions and covers substantially all employees of Harmac Medical Products, Inc. (the Company) that have completed six months of service, as defined by the Plan, and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, when applicable.

Contributions:

Each year participants may contribute up to a maximum of 100% of pretax annual compensation, as defined in the Plan, up to the annual IRC maximum contribution limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. During 2009 and 2010, the Company contributed 50% of the first 4% of base compensation that a participant contributed to the Plan. Effective April 1, 2011, the Company amended the Plan to begin contributing 50% of the first 5% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Upon becoming eligible to participate in the Plan, employees are automatically enrolled with a 2% deferral rate and an automatic yearly increase of 1% up to a maximum of 4% unless they opt to contribute a different percentage. Effective April 1, 2011, the Company amended the Plan to increase the automatic increase maximum limit to 6%. Participants are free to modify these deferral terms at their election. In addition, if a participant does not select a specific investment fund, their contributions will automatically be invested in one of Principal Life Insurance Company's (Principal) pooled separate accounts based on the participant's expected date of retirement.

The Plan also includes a Roth feature whereby participants are able to pay taxes on qualifying contributions when made.

The Board of Directors can determine an additional amount to be contributed on a discretionary basis. Discretionary contributions to the Plan are allocated to participants' accounts based on the participants' annual earnings. For the years ended December 31, 2010 and 2009, there were no discretionary contributions to the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with participant contributions and allocations of the Company's contributions and Plan earnings and charged with distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is limited to the participant's vested account balance.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of credited service. A participant is 100% vested after five-years of credited service.

A participant also becomes 100% vested if the Plan is terminated, upon reaching normal retirement age of 65, upon reaching an early retirement age of 55 and completing 5 years of service, or if they die or become disabled while still employed by the Company.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity equal to the value of his or her account. Participants may also elect to withdraw the portion of their account attributable to their contributions in the event of financial hardship.

Forfeited accounts:

Forfeited non-vested accounts are used to reduce future Company contributions or to pay administrative expenses. In 2010 and 2009, Company contributions were reduced by $4,044 and $1,454 from forfeited non-vested accounts, respectively, and administrative expenses were reduced by $631 and $1,066 from forfeited non-vested accounts, respectively. At December 31, 2010 and 2009, there were no unused forfeited non-vested accounts in the Plan.

Administrative expenses:

Administrative expenses are paid by the Plan and the Company. The Plan is responsible for charges related to investment transactions and the Company pays all other administrative expenses.

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Guaranteed interest accounts:

Deposits in guaranteed interest accounts provide a guaranteed interest rate ranging from 1.35% to 4.17% for stated periods of five years. The rate credited is the rate in effect on the day that each deposit is directed to the account.

Payment of benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in those net assets. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 12, 2011, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 3. Financial Information Certified by the Insurance Company

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Principal, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental Schedule H, Line 4i – Schedule of assets (held at end of year).

The following table presents the fair value of assets that have been certified by Principal. Assets representing more than 5% of the Plan's net assets at either December 31, 2010 or 2009 are separately identified.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification defines fair value, establishes a framework and hierarchy for measuring fair value and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

Investments in the guaranteed interest accounts are valued at fair value as determined by Principal by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed interest account is not fully benefit-responsive.

The pooled separate accounts are valued at fair value as reported by the insurance company which is based on the fair value of the underlying investments of the pooled separate accounts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases, sales, issuances, and settlements (net)	**90,644**	38,947
Balance, end of year	$ **569,964**	$ 479,510

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The underlying non-standardized prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) stating that the form of the Plan is qualified under Section 401 of the IRC and, therefore, the related trust is tax exempt. The Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTES TO FINANCIAL STATEMENTS

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Related-Party Transactions

Certain plan investments are managed by Principal. Principal is the custodian as defined by the Plan and, therefore, transactions with Principal qualify as party-in-interest transactions. Fees paid to Principal by the Plan for investment management services amounted to $7,098 and $7,601 for the years ended December 31, 2010 and 2009, respectively.
