PVG 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

1. Description of Plan

General

The Plan is a defined contribution plan administered by Guardian Insurance & Annuity Company, Inc. ("Guardian") as designated in the Plan. The plan covers substantially all full time employees and certain former employees and retirees of the following affiliates: Professional Aviation Management, Inc., International Resources Management Inc., Professional Management Recruiters Inc., and Professional Business Concepts Inc., (collectively, referred to as the Company) which merged their retirement plan investments under the name of PVG 401(k) Retirement Plan (the "Plan") made effective on May 1, 2007 by Guardian. The information enclosed is general in nature, plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The recordkeeper and Third Party Administrators of the Plan is Guardian and Alliance Benefit Group, Carolinas, LLC, respectively.

Contributions

Each year, participants may contribute from 2% up to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers forty five mutual funds as investment options for participants. The Company may contribute an amount equal to a matching percentage the Company. The matching Company contribution is invested in the same manner as the participant directed contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (of any) and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution plus earnings occurs after 1 year of service.

1. Description of Plan - Continued

Notes Receivable from Participant

Participants may borrow a minimum vested of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is smaller. The notes are secured by the balance in the participant's account and bear interest at rates that range from 5% to 9%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Rollovers

The Plan enables employees to contribute assets that were held by a previous retirement plan and certain IRAs. Also distributions received from a prior plan may be elective to be deposited and rolled over within 60 days of the receipt of the distribution.

Forfeitures

Forfeitures occur when a participant terminates employment and has not vested in a portion of the employer contribution amount. Forfeitures are used to reduce future employer contributions. There was no forfeiture balance outstanding at December 31, 2010 and 2009 and there were no forfeitures utilized during the year ended December 31, 2010.

Hardship Distributions

Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in the Internal Revenue Code Section 213(d), purchases of a principal residence, payment of tuition, to prevent eviction from foreclosure of the principal residence, payments for burial or funeral expenses and repairs of damage to the principal residence. Hardship distributions can only be made from accounts which are 100% vested.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the modified cash basis of accounting. Under this method, contributions and revenues are recorded when received rather than when they are earned, and benefits and expenses are recognized when paid rather than when the obligations are incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are quoted prices available in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for Plan instruments measured at fair value, including the general

classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled Separate Accounts

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-data basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") updated the financial reporting standards to improve disclosures regarding fair value measurements. This update requires entities to (1) disclose separately the amounts of significant transfers in and out of investments valued using level 1 and level 2 fair value measurements and describe the reasons for the transfers and (2) present separately information about purchases, sales, issuances, and settlements in the roll forward disclosure of changes in investments valued using level 3 fair value measurements. The update also requires fair value disclosures on a more detailed basis and requires additional disclosures regarding the valuation techniques and inputs used to measure fair value for investments valued using level 2 and level 3 inputs. For all portions of the update except for changes required in the level 3 investment roll forward information, the update is effective for interim and annual reporting periods beginning after December 15, 2009. For the changes required in the level 3 investment roll forward information, the update is effective for fiscal years beginning after December 15, 2010. As all of the requirements of this update are only disclosure related, the adoption of the required portions of this update in 2010 did not have any effect on any amounts in the accompanying financial statements.

In September 2010, the FASB updated financial reporting standards on reporting loans to participants by defined contribution pension plans whereby participant loans are to be reclassified from plan investments to notes receivable and measured at the unpaid principle balance plus accrued but unpaid interest. The Plan adopted this change in accounting method as

of December 31, 2010 and the comparative Statement of Net Assets Available for Benefits as of December 31, 2009 has been adjusted to apply the new method retrospectively. The Plan's Net Assets Available for Benefits was not affected by this change in accounting principle.

Payments of Benefits

Benefits are recorded when paid.

Subsequent Events

The plan has evaluated subsequent events through October 4, 2011 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

3. Information Certified by Plan Investor (Un-audited)

The following information included in the accompanying financial statements as of December 31, 2010 and 2009 and for the year ended December 31, 2010 and the supplemental schedule as of December 31, 2010 was obtained from data that has been prepared and certified to as complete and accurate by Guardian Insurance and Annuity Company, Inc., the trustee, as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

During 2010, the Plan investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $461,351.

4. Fair Value of Financial Investments

Below are the Plan's financial instruments as of December 31, 2010 and 2009, carried at fair value on a recurring basis by the ASC 820 fair value hierarchy levels described in Note 2.

	At December 31, 2010			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significat Unobservable Inputs (Level 3)	Total Fair Value
Pooled Separate Accounts	$ 4,716,022	$ -	$ -	$ 4,716,022

4. Fair Value of Financial Investments - Continued

	At December 31, 2009			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significat Unobservable Inputs (Level 3)	Total Fair Value
Pooled Separate Accounts	$ 3,830,248	$ -	$ -	$ 3,830,248

5. Party-in-Interest Transactions

Notes receivables from participants are considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

6. Administrative Expenses

Substantially all costs of administering the Plan are borne by the Plan's sponsor. The Company paid approximately $7,617 of administrative expenses during the year ended December 31, 2010.

7. Plan Termination

Although it has not been expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Federal Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated August 28, 1997, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and that any employer adopting this form of the plan will be considered to have a plan qualified under section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The underlying standardized prototype plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2007.

9. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
