Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding $1,000, but not exceeding $5,000, will be rolled into an Individual Retirement Account. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to pay Plan expenses or to reduce future Company contributions. As of December 31, 2010 and 2009, the amount of available forfeitures totaled $13,471 and $6,137, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

New Accounting Pronouncement

In January 2010, the Financial Accounting Standards Board (the FASB) issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The partial adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV of registered investment companies is based upon the market value of the underlying investments and observable inputs. The NAV of the registered investment companies is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on the underlying investments which are traded on an active market.

3. FAIR VALUE MEASUREMENTS – (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Description	Total	Level 1	Level 2	Level 3
December 31, 2010

There were no transfers between Levels 1, 2 and 3 during the year ended December 31, 2010.

4. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 1, 2009, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since then been amended. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. During May 2011, the Plan underwent an audit by the Department of Labor for the Plan years covering January 2009 through March 2011. As of the date of the independent auditors' report, the results of the audit were not made known to the Plan Sponsor and it is therefore indeterminable whether or not such findings would have a material impact on these financial statements.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by John Hancock Life Insurance Company (John Hancock), the custodian and record-keeper of the Plan. The Plan paid third party administration fees of $1,800 during 2010. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

6. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009:

	2010
Retirement Living at 2025 Portfolio	$ 313,929
Retirement Living at 2030 Portfolio	232,191

Lifecycle 2030 Fund	243,289

Lifestyle Fund Balanced Portfolio	828,854

For the year ended December 31, 2010, the Plan's investments in registered investment companies (including investments bought, sold and held during the year) appreciated in value by $460,230.

7. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock, the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year) as of December 31, 2010 and 2009, and for the year ended December 31, 2010:

	2010	2009
Registered investment companies	$ 3,855,649	$ 3,055,594
Non-interest bearing cash	13,471	6,137
Net appreciation in fair value of investments	460,230	n/a
Other income	55	n/a

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, affected participants will become 100% vested in their accounts.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
