This update was retrospectively applied to December 31, 2009.

Lista International Savings Plan

Notes to Financial Statements
December 31, 2010 and 2009

1. DESCRIPTION OF PLAN

The following description of Lista International Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all employees of Lista International Corporation (the "Company") who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Amendment

The Plan was amended and restated in 2010, effective retroactive to January 1, 2002, to incorporate a number of statutory and regulatory changes made prior to 2007 that include the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA").

Contributions

Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan and subject to the maximum tax deferred contribution allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows for the Company to make discretionary matching contributions based on an amount specified by the Company in a resolution. The amount so specified remains in effect until changed by the Company. For the year ended December 31, 2010 employer matching contributions were not made. Contributions are subject to certain IRC limitations.

The Company also makes a "Safe Harbor" contribution in accordance with provisions of the Plan. In 2010, Safe Harbor contributions were made at an amount equal to 3% of each participant's total gross income. Contributions are subject to certain IRC limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's Safe Harbor contributions, participant's rollover contributions, and the Company's discretionary matching contributions, if any. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' Investment Options

Participants must direct their contributions to selected investments as made available and determined by the plan administrator. The Plan currently offers registered investment companies and common/collective trust funds as investment options for participants. Participants may change their investment options at any time throughout the year via direct phone or online access to DWS Trust Company, the trustee of the Plan.

1. DESCRIPTION OF PLAN...continued

Vesting

Participants are vested immediately in their salary contributions, rollovers and Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate. The loans have terms up to 5 years with interest rates ranging from 3.25% to 8.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account, or in annual installments over a period of time, as elected in writing, not to exceed their life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or in the form of installments. Distributions may also be made for in-service distributions and hardship withdrawals. If the amount payable to a participant is greater than \$1,000, the participant (or beneficiary) must give written consent before the distribution can be made and if the amount is less, a lump-sum distribution is made as soon as administratively feasible.

Forfeited Accounts

Forfeitures represent the non-vested portion of terminated participants' account balances. These accounts will be used to reduce future company matching contribution, future Safe Harbor contributions or to pay reasonable Plan expenses. At December 31, 2010 and 2009 forfeited non-vested accounts totaled, \$10,765 and \$4,182 respectively. Forfeitures for the year ended December 31, 2010 were \$6,583. There were no amounts used in the year ended December 31, 2009.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses, including fees and expenses connected with the providing of administrative services by external service providers, are paid by the Company. Fees are paid directly by the participants for loan processing and other expenses.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common/collective trusts. The statements of net assets available for benefits presents the fair value of the investment contract in the collective trust funds as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

During the year ended December 31, 2010 the Plan received \$15,399 in restitution income from the settlement of a class action lawsuit against registered investment companies in the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits to participants are recorded when paid.

2. SIGNIFICANT ACCOUNTING POLICIES...continued

Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require revenue recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Recently Adopted Accounting Pronouncements

In September 2010, FASB issued Accounting Standards Update ("ASU") 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$634,855 and \$601,788 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

In January 2010, FASB issued ASU No. 2010-06 *Fair Value Measurements and Disclosures - Improving Disclosures about Fair Value Measurements* ("ASU 2010-06") which requires new disclosures about transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies (a) the level of disaggregation for each class of assets and liabilities and (b) that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than reconciliation of Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009, and adopted by the Plan on January 1, 2010. The guidance related to reconciliation of Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. Management is currently evaluating the impact of the guidance related to reconciliation of Level 3 measurements on the disclosures.

2. SIGNIFICANT ACCOUNTING POLICIES...continued

Future Adoption of Accounting Standards

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement's and Disclosure Requirements in U.S. GAAP and IFRS* ("ASU 2011-04"). ASU 2011-04 is intended to result in common fair value measurement and disclosure requirements between GAAP and International Financial Reporting Standards ("IFRS"). In general, ASU 2011-04 is not intended to result in significant changes in the application of ASC Topic 820. Instead, ASU 2011-04 clarifies the intent of previously existing standards and changes certain requirements for fair value measurement or for disclosing information about fair value measurements. ASU 2011-04 is effective for annual periods beginning after December 15, 2011. The impact to the financial statements is currently being evaluated by the Plan's management.

4. INFORMATION PREPARED AND CERTIFIED BY DWS TRUST COMPANY

The following is a summary of plan's asset information as of December 31, 2010 and 2009 and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from the information provided by DWS Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information related to the following assets at December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Investments, at Fair Value:		
Registered Investment Companies	\$ <u>10,402,670</u>	\$ <u>8,711,200</u>
Common/Collective Trust Funds	\$ <u>2,575,592</u>	\$ <u>2,414,493</u>
Notes Receivable from Participants	\$ <u>634,855</u>	\$ <u>601,788</u>

DWS Trust Company also certified to the completeness and accuracy of \$1,138,345 of net appreciation in fair value of investments, \$180,952 of interest and dividends, and \$15,399 of restitution income received from class action settlement related to the aforementioned plan assets for the year ended December 31, 2010.

5. FAIR VALUE MEASUREMENTS

Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement), a lower priority to significant other observable inputs (level 2 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Lista International Savings Plan

Notes to Financial Statements
December 31, 2010 and 2009

5. FAIR VALUE MEASUREMENTS...continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Registered investment companies:

Fair value of shares of registered investment companies represent the net asset value ("NAV") of such shares as of the close of business at the end of the plan year based on quoted active market prices of the underlying investments. These securities are categorized as Level 1 as they are actively traded.

Common/collective trust funds:

Investments in the common/collective trust funds are stated at the estimated fair value based on the fair value of the underlying assets of the fund as based on information reported in the fund's audited financial statements at year end. Underlying guaranteed interest contracts held by the DWS Stable Value Fund, both traditional and synthetic, are valued at the principal balance plus accrued interest. Underlying index funds held by the DWS Stock Index are valued at the closing net asset value per unit/share on the valuation date. Audited financial statements classify the underlying assets held by the common/collective trust funds as Level 2 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. There were no transfers amongst levels 1, 2, and 3 for the year ended December 31, 2010.

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares of registered investment companies managed by DWS Trust Company, the trustee of the Plan. Transactions in such investments qualify as exempt party in interest transactions, as defined by ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions, as defined by ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. TAX STATUS

The Plan obtained its latest prototype opinion letter on March 31, 2008, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter; however, the plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC, and is tax exempt.
